

Annexure-I

Specification of Cooling Fan 24 VDC

Sl. No.	Specification	Vendor's Remark (Pl. specify the value /range wherever required)	Deviation (If any)
1.	Size of the fan (mm): 60x60x25		
2.	Rated Voltage: 24 VDC		
3.	Rated Current: Between 0.15 to 0.28 Amp.		
4.	Rated Input (W) : Between 3.5 to 6.75 W		
5.	Rated Speed (rpm) : Between 7,000 to 10,000		
6.	Air Flow (CFM) : Between 30 to 45		
7.	Static Pressure (inch-H2O) : Between 0.5 to 1.0		
8.	Operating Temp. Range (°C) : -10 to 70 <i>or</i> better		
9.	Locked Rotor Burnout Protection		
10.	Reverse Polarity Protection		
11.	Life Expectancy at 70°C (hrs.) : 20,000 <i>or</i> more		

Note: Vendors have to mention the make & model of the offered fan. Catalogue/Datasheet of the offered fan needs to be submitted along with the offer.

PQR: Vendor should be the OEM / authorized distributor of the offered item. In case of the authorized distributor, valid authorization certificate from OEM needs to be furnished along with the offer.
