1.	Annexure-3; Technical Qualification Criteria of NIT	Package-I B.2.2.1	"Execution of At least 11,62,400 CUM earthwork in excavation including cutting in soft/hard rock within a period of twelve consecutive months in cumulative of two concurrently** running/ completed Contracts."	We would like to draw your attention that the note-II of contracts i.e. "the rock cutting should have been executed in both the contracts considered" will lead to qualification of less competent bidders e.g. if a bidder has executed 7.0Lm3 of earthwork inclusive of 400m3 of soft/rock excavation in each of the two projects then the bidder gets qualified though his experience of rock excavation is minimal.	Tender condition prevails.

		Package-II B.1.2.1	"Execution of At least 12,13,700 CUM earthwork in excavation including cutting in soft/hard rock within a period of twelve consecutive months in cumulative of two concurrently** running/completed contracts." "Note: II- In QR (B.1.2 & B2.2) the rock cutting should have been executed in both the contracts considered"	On the other side a contractor who has executed 15 Lm3 of earthwork in one project & 5.0 Lm3 of earthwork inclusive of more than 3.5Lm3 of rock excavation in other project, does not get qualified though he is more competent to handle the work under tender. Therefore, we request you to consider the total combined quantity of earthwork inclusive of cutting in soft/hard rock of the two completed works together in past seven years for both packages and relax the qualification criteria accordingly in order for more participation of bidders and get fair competition of pricing.
