discrepancies.

The installation process and other related activities should be to the fullest satisfaction to the Engineer in charge of the site.

After the completion of installation, the entire geo membrane surface shall be examined by the Engineer in charge to confirm that it is free of any defects, holes, blisters, undispersed raw materials, or contamination by foreign matter. The geo membrane surface shall be cleaned by the Installer, if required, so that it is free of dust, mud, debris or any other material which may inhibit a thorough examination of the surface. Any suspect areas shall be clearly marked by the Engineer in charge and the same is to be repaired/rectified on his instruction at site
