

Addendum-01

EOI Reference Number: BHEL/SBD/BESS/EOI/01 Dated 03.08.2024

EOI Name: SUPPLY OF CONTAINERISED SOLUTION OF BATTERY MODULES, BMS AND EMS

Addendum: 01 Date: 21.09.2024

Clause No	Existing clause	To be read as
PRE-QUALIFICATION REQUIREMENTS (For all categories)	Bidders importing cells and subsequently assembling/manufacturing battery modules/racks for any chemistry and the other parts of the containerized solutions are eligible to participate.	Bidders importing cells and subsequently assembling/manufacturing battery modules/racks for any chemistry and the other parts of the containerized solutions are eligible to participate. Sister/ subsidy company is accepted to participate only if their global Parent companies is having facility to assembling/manufacturing battery modules/racks for any chemistry and the other parts of the containerized solutions are eligible to participate.
PRE-QUALIFICATION REQUIREMENTS (For category I)	The bidder (Battery OEM or other storage chemistry OEM / Cell to Module or Rack integrators) should have manufactured / assembled and supplied the Battery or other storage chemistry of 50kWH (culminative at SOL)in the past five financial years from the Date of bid opening.	The bidder (Battery OEM or other storage chemistry OEM / Cell to Module or Rack integrators) should have manufactured / assembled and supplied the Battery or other storage chemistry of 50kWH (culminative at SOL)in the past five financial years from the Date of bid opening. 50kWH shall be grid or EV.
PRE-QUALIFICATION REQUIREMENTS (For category I , II)	The bidder (Battery OEM or other storage chemistry OEM / Cell to Module or Rack integrators)should have manufactured / assembled and supplied the Battery or other storage chemistry of 250kWH (culminative at SOL)in the past five financial years from the Date of bid opening.	The bidder (Battery OEM or other storage chemistry OEM / Cell to Module or Rack integrators) should have manufactured / assembled and supplied the Battery or other storage chemistry of 250kWH (culminative at SOL)in the past five financial years from the Date of bid opening. 250kWH shall be grid or EV.
PRE-QUALIFICATION REQUIREMENTS (For category I , II , III , IV)	The bidder (Battery OEM or other storage chemistry OEM / Cell to Module or Rack integrators)should have manufactured / assembled and supplied the Battery or other storage chemistry of 5000kWH (culminative at SOL)in the past five financial years from the Date of bid opening.	The bidder (Battery OEM or other storage chemistry OEM / Cell to Module or Rack integrators) should have manufactured / assembled and supplied the Battery or other storage chemistry of 5000kWH (culminative at SOL)in the past five financial years from the Date of bid opening. 5000kWH shall be grid or EV.
