Valid till: 02/01/2021

GeM Availability Report and Past Transaction Summary

GeM Availability Report and past transaction summary report is generated based on the specifications searched by the Buyer. The specification may be modified appropriately for searching relevant categories on GeM. Buyer may navigate to GeM category page by clicking on the category link to view category specifications and products/services available in the category.

Order Count and Order Value displayed is on a cumulative basis since GeM inception.

1. Search String: pipe flanges with IBR certificate

Search type: Product

1. There are categories available on GeM matching your requirements (as listed here). You can create a bid on GeM with a product closest matching your required specifications and add additional parameters in specifications through Corrigendum using RMS functionality.
2. If you feel that category TP needs updating you can submit category updating request also through RMS.
3. If you do not want to use any of the above option and want to proceed for procurement outside GeM, please suggest the specifications of the required product for creation of new category on GeM for future procurement.

Search Result: Category available/suggested on GeM but marked as "not matching requirements" by the buyer with undertaking as under:

It is certified that I have thoroughly checked all probable categories suggested by GeM and I am satisfied that the product required is not covered / does not fall in any of the suggested categories and can not be procured under any of these categories even after inclusion of List of Values(LOV) wherever possible in category specifications of suggested categories. It is also certified that the technical specification requirement are such that these can not be covered even by adding specification parameters using ATC in any of the GeM suggested categories. This is a one-time requirement hence new category creation is not proposed / or requirement is recurring but request for new category creation will be submitted separately post generation of GeMARPTS.

TECHNICAL PQC

- 1) Only those bidders shall be entertained, who themselves or their OEM have supplied “similar items” to any organisation. Bidder must submit at least 1 PO copy of supply of similar items to any organisation, in last 5 years (from the tender opening date), with technical bid. PO copy shall be either in the name of bidder or their OEM. In case PO copy is in the name of the OEM, bidder has to produce authorisation dealer/vendor certificate from OEM.

Note: Similar items mean either of following – Bends, elbow, flanges, tee or any other seamless pipe fitting.

- 2) Start-ups and Micro & Small Enterprises are exempted from PQC of submission of PO (Sl no. 1 above).
