	under this clause but is the result of the quantities exceeding or being less than those stated in the bill of quantities. Provided also that if for any reason the Engineer shall consider it desirable to give any such order verbally the contractor shall comply with such order and any confirmation in writing of such verbal order given by the Engineer whether before or after the carrying out of the order shall be deemed to be an order in writing within the meaning of this clause. Provided further that if the contractor shall confirm in writing to the engineer any verbal order of the Engineer and such confirmation shall not be contradicted in writing by Engineer it shall be deemed to be an order in writing by the Engineer.
5.3	VALUATION OF VARIATION
5.3.1	If the rates for the additional, altered or substituted work are specified in the contract for the work, the contractor is bound to carry out the additional altered or substituted work at the same rates as are specified in the contract for the work.
5.3.2	If the rates for the additional, altered or substituted work are not specifically provided in the contract for the work, the rates will be derived from the rates for a similar class of work as specified in the contract for the work.
5.3.3	If the rates for altered, additional or substituted work cannot be determined in the manner specified in sub-clause 5.3.1 & 5.3.2 above, then the contractor shall within 7 days of the date of receipt of order to carry out inform the engineer on the basis of prevailing market rates when the work is done and the decision given in this behalf shall be final and binding on the contractor. Rate analysis will be worked on CPWD manual of rate analysis as guidance.
5.3.4	If the rates for the altered, additional or substituted work cannot be determined in the manner specified in also clauses 5.3.1 to 5.3.3 above, then the contractor shall within 7 days of the date of receipt of order to carry out the work inform the engineer of the rate at which it is his intention to charge for such class of work, supported by analysis of rate or rates claimed, and the engineer shall determine the rate or rates on the basis of prevailing market rates and pay the contractor accordingly.
5.3.5	However, the engineer, by notice in writing, will be at liberty to cancel his order to carry out such class of items of work and arrange to carry it out in such manner as he may consider advisable. But under no circumstances the contractor shall suspend the work on the plea of non-settlement falling under the clause or claim any compensation on this account.
5.3.6	VARIATION EXCEEDING SPECIFIED PERCENT If the net effect of all variations (other than those arising by reason of any clause relating to variations in price of materials and/or labour) shall be found on completion of the whole of the works to result in a reduction or an addition greater than 30 percent of the sum named in the tender the amount of contract price shall be amended by such sum as shall be agreed upon between the Engineer and the contractor. In the event of disagreement, the Engineer shall fix such sum as shall in his opinion be reasonable & proper regard being had to all material and relevant factors including the contractor's cost & overhead. The contractor shall be obliged to accept such sum as fixed by the Engineer.
5.4	DAY WORK
5.4.1	The Engineer may if in his opinion it is necessary or desirable order in writing that any additional or substituted work shall be executed on a day work basis. The Contractor shall then be paid for such work under the conditions set out in the day work schedule including in the bill of quantities and at the rates and prices affixed thereto by him in his tender.
5.4.2	The contractor shall furnish to the Engineer receipts or other vouchers as may be necessary to prove the amount paid and before ordering materials shall submit to the Engineer quotations for the same for his approval.
5.4.3	In respect of all work executed on a day work basis the contractor shall during the continuance of such work deliver each day to the Engineer an exact list in duplicate of the names, occupation and time of all workmen employed on such work and a statement also in duplicate showing the description and quantity of all materials and plant used thereon or therefore (other than plant which is included in the percentage addition in accordance with the schedule here-in-before referred to). One copy of each list and statement will if correct or when agreed be signed by the Engineer and returned to the contractor.
5.4.4	At the end of each month the contractor shall send to the Engineer a priced statement of labour, material and plant (except as aforesaid) used and the contractor shall not be entitled to any payment unless such lists and statements have been fully and punctually rendered. Provided always that if the Engineer shall consider that for any reason the sending of such list or statement by the contractor in accordance with the foregoing provision was impracticable he shall nevertheless be entitled to authorize payment for such work either as

	day work (on being satisfied to the time employed and plant and materials used on such work) or at such value therefore as shall in his opinion be fair and reasonable.
5.4.5	The contractor shall send to the Engineer once in every month an account giving full and detailed particulars of all claims for any additional expenses to which the contractor may consider himself entitled and all extra or additional work ordered by the Engineer which he has executed during the preceding month and no claim for any such work will be considered which has not been included in such particulars. Provided always that if the Engineer shall be entitled to authorize payment to be made for any such work notwithstanding the contractor's failure to comply with this condition if the contractor has at the earliest practicable opportunity notified the Engineer in writing that he intends to make claim for such work.
6.0	COMMENCEMENT OF WORK, COMPLETION TIME, PROGRESS AND COMPLETION OF WORK
6.1	The time and date of completion of the work as stipulated in the contract document shall deemed to be the essence of the Contract. The contractor shall commence the works on site within the period named in the letter of intent issued by BHEL and shall proceed with the same with due expedition and without delay except as may be expressly sanctioned or ordered by the Engineer. If the contractor fails to commence the work within the stipulated time, BHEL at his sole discretion will have the right to cancel the contract. In such an event the contractor's earnest money and security deposit with BHEL will stand forfeited without any further reference to the contractor, without prejudice to any and all of the BHEL's other rights and remedies in this regard. The contractor shall so organize his resources and perform so as to complete the work not later than the aforesaid date of completion. The time for completion shall always be reckoned from the effective date of contract.
6.1.1	The Contractor shall submit a PERT Network showing various key phases of the work such as design, procurement, manufacturing, shipment, field erection and construction activities within thirty (30) days after the date of Letter of intent. This network shall also indicate the interface facilities to be provided by the purchaser /BHEL and the dates by which such facilities are needed by the contractor and also the programme for phase wise release of work site for construction work as may be needed by the contractor.
6.1.2	The Contractor shall discuss the network so submitted with BHEL. The agreed network may be in the form as submitted or in revised form in line with the outcome of discussions any shall form a part of the contract documents.
6.1.3	The above PERT network shall be reviewed periodic review reports shall be submitted by the Contractor to BHEL as directed by him.
6.1.4	The Contractor shall make available to BHEL detailed manufacturing, erection, testing and commissioning and construction programmes in line with the agreed PERT Network in the form of PERT or Bar Chart as desired by BHEL within 30 days from the date of receipt of LOI During performance of the contract, such programmes shall be renewed, updated and submitted to BHEL as and when needed by him or periodically as specified by him. If in the opinion of BHEL proper progress is not maintained, suitable changes shall be made in the Contractor's operation to ensure proper progress.
6.2	Should the amount of extra or additional work of any kind or other special circumstances of any kind whatsoever which may occur be such as fairly to entitle the contractor to an extension of time for the completion of the work the Engineer shall determine the period of such extension. The contractor shall have no claim against BHEL in respect of revision in delay and disorganization of work even if the extension of time is granted, except where such claim is expressly allowed in the Contract.
6.3	NIGHT AND HOLIDAY WORK Subject to any provision to the contrary contained in the Contract, none of the permanent work shall, save as hereinafter provided, be carried on during the night or on Sundays or other holidays without the permission in writing of the Engineer save when the work is unavoidable or absolutely necessary for the saving of life or property or for the safety of the works in which case the contractor shall immediately advise the Engineer or Engineer's representative. Provided always that the provisions of this clause shall not be applicable in the case to any work which it is customary to carry out by rotation of double shifts. The whole of the materials, plant and labour to be provided by the contractor in night and holiday work under this clause and the mode, manner and speed of execution and maintenance of the works are to be of a kind and conducted in manner approved by the Engineer. Should the rate of progress of the works or any part thereof be at any time in the opinion of the Engineer is too slow to ensure the completion of the work by the prescribed time for completion. If the work is not being carried on by day described and by night and

	the contractor shall request permission to work by night and on Sundays and other holidays as well as by day, then, if the Engineer shall grant such permission the contractor shall not be entitled to any additional payment for doing so. All work at night shall be carried out without reasonable noise and disturbance. The contractor shall indemnify BHEL from and against any liability for damages on account of noise or disturbance created while carrying out the work and from against all claims, demands, proceedings, damages, costs, charges and expenses what so ever in regard or in relation to such liability.
6.4	PROGRESS REPORTS AND PHOTOGRAPHS
6.4.1	The Contractor shall furnish eight (8) prints each of monthly progress reports as approved by BHEL and photographs of the work done. Photographs shall be taken when and where indicated by the Engineer or his representative. Photographs shall be approximately 100mm × 125mm in size including margin of for fixing. Adequate number of photographs shall be submitted indicating various stages of manufacture and/or installation as applicable. Each photograph shall contain the date, the name of the Contractor and the title of the view taken.
6.4.2	Monthly progress report shall be submitted. These shall detail the status of design, drawings, procurement of raw materials and manufacture of the equipment and delivery of the equipment and also status of erection, testing and commissioning work as applicable. BHEL shall advise the Contractor about the progress schedule and photographs he has to submit each together with the names and addresses of persons to whom they are to be sent. The Contractor shall also furnish actual progress against schedule and such other information as BHEL may require to satisfy himself about the timely manufacture and delivery of equipment and timely construction and erection work to suit the commissioning date. The report shall also indicate the reasons for the variance between the schedule and actual progress and the action proposed for corrective measure wherever necessary.
6.4.3	The submission and acceptance of the photograph and/or reports shall not prejudice the rights of BHEL in any manner.
6.4.4	In the event of contractor's continued poor work progress, BHEL shall at his option treat it as breach of contract by the contractor. In such case it shall be open to BHEL to have the work completed through any other agency / agencies & claim the difference in cost in addition to damages from the contractor without prejudice to any other right / remedy of BHEL under this contract.
6.5	COMPENSATION FOR DELAY
6.5.1	Time and scope are the essence of the Contract. If the contractor fails to maintain the required progress of work as per contract or to complete the work and clear the site within the time prescribed by the Contract (Contractual Completion period), he shall without prejudice to any other right or remedy of BHEL on account of such breach, the contractor agrees to pay compensation (penalty) to BHEL. The above agreed compensation shall be a penalty equivalent to 1/2 % (half percent) of the total executed contract price for service part (irrespective of lump sum or item-rate contract or others) per week or part thereof of the delay subject to a maximum of 10% (ten percent) of the total executed contract price (for the supply & service parts). Note-1 : The cumulative LD for the supply & service part shall be limited to 10% of the executed contract value (for the supply & service parts).
6.5.2	BHEL shall deduct the amount of such compensation from any money due or which may become due to the contractor and/or recover such compensation from the bank guarantees / security deposit of the contractor. To be entitled to impose such compensation, BHEL will not be required to prove that he has incurred such amount as actual damage.
6.5.3	REDUCTION OF COMPENSATION FOR DELAY If before the completion of the whole of the works any part of the works has been certified by the Engineer as completed pursuant to clause "completion certificate" hereof and occupied or used by BHEL the compensation for delay shall for any period of delay after such certification be reduced at the discretion of BHEL in proportion which the value of the part so certified bears to the value of the whole of the works.
6.6	TEST ON COMPLETION
6.6.1	Tests on completion at site will be undertaken by the contractor in accordance with the detailed requirements of the contract. The contractor shall after consulting the engineer give to the engineer in writing 21 days notice after which he will be ready to make the test on completion. Unless other wise agreed the tests shall take place within 10 days after the said date on such day or days as the engineer shall in writing notify the contractor.
6.6.2	If the engineer fails to appoint a time after having been asked so to do or attend at any time

	or place duly appointed for making the said tests the contractor shall be entitled to proceed in his absence and the said tests shall be deemed to have been made in the presence of the Engineer.
6.6.3	If in the opinion of the engineer the tests are being unduly delayed he may, by notice in writing call upon the contractor to make such tests within 10 days from the receipt of the said notice, and the contractor shall make the said tests on such days written the said 10 days as the contractor may fix and of which he shall give notice to the Engineer. If the contractor fails to make such tests within the time aforesaid the Engineer may himself proceed to make the tests. All tests so made by the Engineer shall be at the risk and expense of the contractor.
6.6.4	The contractor shall provide such assistance, labour, materials, electricity, fuel, storage, instruments and apparatus as are required to complete the tests. If it is not possible to carry out these tests prior to taking over, then BHEL reserves the right to call for these tests prior to taking over and the procedure to carry out the tests shall be subject to mutual agreement between BHEL and the contractor.
6.6.5	The necessary tests shall be repeated for any repaired or replaced portions of the work. If any portion of the works fails to pass the tests, tests of the said portion, shall if required by the Engineer, or contractor be repeated within a reasonable time upon the same terms and conditions.
6.7	COMPLETION CERTIFICATE As soon as in the opinion of the Engineer the works shall have been substantially completed and shall have satisfactorily passed any final tests that may be prescribed under the contract the Engineer shall on receiving a written undertaking by the contractor to finish any outstanding work within six months issue a certificate of completion in respect of the works. Provided that the Engineer may give such a certificate with respect to any part of the works before the completion of the whole of the works and shall upon the written application of the contractor give such certificate with respect to any substantial part of the works which has been both completed to the satisfaction of the Engineer and occupied or used by BHEL and when any each certificate is given in respect of a part of the works such parts shall be considered as completed. Provided also that a certificate of completion given in accordance with the foregoing provisions of any part of the works occupied and used as aforesaid shall not be deemed to certify completion of any ground or surfaces requiring reinstatement unless such certificate shall expressly so state. Provided however, the issue of a certificate of completion of works shall not absolve the contractor of his responsibility in respect of any defect discovered subsequent to the completion of the work and the commissioning of the project.
6.8	USE BEFORE COMPLETION CERTIFICATE
6.8.1	If, by reason of any default on the part of contractor, a completion certificate has not been issued in respect of every portion of the works as mentioned above within one month after the time for 'completion or extended time as the case may be, BHEL shall be at liberty to use the works or any portion thereof in respect of which a completion certificate has not been issued, provided that the works or the portion so used as aforesaid shall be reasonably capable of being used and that the contractor shall be afforded the earliest opportunity of taking such steps as may be necessary to permit the issue of the certificate of completion.
6.8.2	BHEL shall be at liberty from time to time or at any time before the completion of the work to take possession of and use any part of the sites or of incomplete works and in such case the contractor shall completely finish the said incomplete parts or part of the works as and when the Engineer shall direct whether before of after the respective prescribed time or extended time or times (if any) for the completion of the works and if required by the Engineer while BHEL is in possession of the said part or parts of the site or works.
6.9	REJECTION OF DEFECTIVE PLANT
6.9.1	If the completed plant or any portion thereof, before it is taken over under clause "taking over" or during the guarantee / warranty period, be found defective or fails to fulfil the requirement of the contract, the Engineer shall give the contractor notice setting forth particulars of such defects or failure, and the contractor shall forthwith make the defective plant good or after the same to make. It comply with the requirements of the contract. Should he fail to do so within a reasonable time, BHEL after giving seven (7) days written notice may reject and replace at lost of the contractor the whole or any portion of the plant, as the case may be, which is defective or fails to fulfil the requirements of the contract. The contractor's full and extreme liability under this clause shall be satisfied by the payment to BHEL of erection plus difference, if any between the replacement price of the equipment

	including charges for erection and supervision of erection and the original contract price including charges for erection and supervision of erection in respect of such defective plant.
6.9.2	In the event of such rejection, BHEL shall have the right to operate any and all equipment as long as it is in operating condition, whether or not, such equipment has been accepted as complete and satisfactory, to enable him to obtain necessary replacement except that this shall not be construed to permit operation of any equipment which may become damaged by such operation before any required alterations or repairs and/or replacements have been made. All repairs or alternations or replacement required of the contractor shall be made by the contractor at such times as directed and in such a manner as will cause the minimum interruption in the time of the equipment. Should the contractor not so replace the rejected plant within the time frame as directed by the Engineer, upto the requirements of the specification, the contractor's full and extreme liability under this clause will be satisfied by the payment of all money paid by BHEL to him in respect of such plant.
6.9.3	Nothing in this clause shall be deemed to deprive BHEL or, effect any right under the contract which he may otherwise have in respect of such defects or deficiencies or in any way relieve the contractor of his obligation under the contract.
6.10	TAKING OVER
6.10.1	Upon successful completion of all the tests to be performed at the site on equipment, system and material furnished and erected by the contractor and on completion of successful trail run, BHEL shall issue to the contractor a taking over certificate. Issuance of such much certificate shall not be reasonably with held on account of minor omission or defects which do not affect the commercial operation and/or causes any serious risk to the equipment and system provided the contractor gives an undertaking to rectify such defects /omission within a reasonable period of time. Unless until a final acceptance certificate is issued on completion of warranty / guarantee period by BHEL /purchaser, the contractor shall not be relieved of any of his obligations, duties, responsibilities under the terms and conditions of the contract including insurance as specified elsewhere in the contract documents. The taking over by BHEL / the purchaser may be for each unit completed in all respects for commercial operation at the discretion of BHEL/ the purchaser.

8.3.2	One copy of the Drawings furnish to the Contractor and aforesaid shall be kept by the Contractor at the Site and the same shall at all reasonable times be available for inspection and use by the Engineer and the Engineer's Representative and by any other person authorised by the Engineer in writing.
8.3.3	The Engineer shall have full power and authority to supply to the Contractor from time to time during the progress of the works such further drawings and instructions as shall be necessary for the purpose of the proper and adequate execution and maintenance of the works and the Contractor shall carry out and be bound by the same.
8.3.4	The detailed drawings, specifications, instruction manual, if any, available with the Engineer will form part of tender specification. These documents will be made available for reference only to the contractor during execution of work.
8.3.5	Should any error or ambiguity be discovered in the specification or information, the contractor shall forthwith bring the same to the notice of BHEL before commencement of work. BHEL's interpretation in such cases shall be final and binding contractor.
8.4	MISTAKE IN DRAWINGS The Engineer shall have the right at all reasonable times to inspect at the office/premises of contractor all shop and/or details drawings of the works or any portion of the works. The contractor shall be responsible for and shall pay alterations of the work due to any discrepancies, errors or omission in the drawings or other particulars supplied by him whether such drawings or particulars has approved by the Engineer or not, provided that such discrepancies, errors or omissions be not due to inaccurate information or particulars furnished to the Contractor by the Engineer, in which event BHEL shall pay for any alternations of work necessitated by reason of inaccurate information supplied by the Engineer to the Contractor.
9.0	MATERIALS AND WORKMANSHIP
9.1	MATERIALS AND WORKMANSHIP FOR MANUFACTURER
9.1.1	All Good to be supplied and all works to be done by the contractor under the contract shall be manufactured and executed in the manner stipulated in the specification or where not specified, to the satisfaction of the Engineer. All materials used in the manufacture of the plant shall be selected from the best available for the purpose, considering strength, durability and best engineering practice, free from defects and imperfection and of recent manufacturer and unused. Liberal factors of safety shall be used throughout the design and specially in the design of all parts subject to alternating stresses or shorts.
9.1.2	All the works shall be performed and completed in a thorough workman like manner and shall follow the best modern practice in the manufacturer of high grade equipment notwithstanding any omission in the specification.
9.1.3	Casting shall be free from blow holes, claws, cracks or other defects and shall be smooth, close-grained and of true forms and dimensions. No plugged or filled-up holes or other defects will be allowed. Such casting are liable to be rejected. However, the contractor may rectify minor casting defects by welding or other method in accordance with the standing manufacturing practice provided such rectification does not affect the strength of the casting or impair with the efficient working of the plant and prior approval or BHEL is obtained for the same.
9.2	WORK MATERIALS, WORKMANSHIP AND TESTS
9.2.1	All materials including construction materials, structural steel and workmanship shall be of the respective kinds described in the contract documents and in accordance with the Engineer's instruction and shall be subjected to from time to time to such tests as stipulated in the approved quality assurance plan and as the Engineer may direct at the place of fabrication or on the site or at all or any of such places. The contractor shall provide such assistance, instruments, machines, labour and materials as are normally required for examining, measuring and testing any work and the quality, weight or quantity of any materials used and shall supply samples of materials before incorporation in the work for testing as may be selected and required by the Engineer. The contractor shall establish at site testing facilities adequate for the above purpose. Collection of samples and testing as specified in the contract documents including special test, if any shall be carried out by the contractor at his cost.
9.2.2	The Contractor shall carry out tests of materials of finished work as stipulated in the Technical Specification as applicable and as the Engineer in writing may require and shall also supply samples necessary for this purpose.

9.2.3	Cost of Tests The cost of making test including may supply if required shall be borne by the Contractor if such test is clearly intended by or provided for in the specification or bill of quantities and (in the cases only of a test under load or of a test to ascertain whether the design of any finished or partially finished work is appropriate for the purposes which it was intended to fulfill) is particularised in the specification or bill of quantities in sufficient detail to enable Contractor to price or allow for the same in his Tender.
9.2.4	Cost of tests not provided for etc If any test is ordered by the engineer which is either:
9.2.4.1	Not so intended by or provided for or
9.2.4.2	(in the cases above mentioned) is not so particularized or
9.2.4.3	Though so intended or provided for is ordered by the Engineer to be carried out by an independent person at any place other than the site or the place of manufacture or fabrication of the materials tested. Then the cost of such test shall be borne by the Contractor if the test shows the workmanship or materials not to be in accordance with the provisions of the contract or the Engineer's instructions but otherwise by BHEL.
9.2.5	EXAMINATION OF WORK BEFORE COVERING UP
9.2.5.1	No work shall be covered up or put out of view without the examination and approval of the Engineer or the Engineer's representative and the contractor shall afford full opportunity for the Engineer or the Engineer's representative to examine and measure any work which is about to be covered up or put out of view and to examine foundations before permanent work is placed thereon. The contractor shall give 15 days notice to the engineer's representative whenever any such work or foundation is or are ready or about to be ready for examination and the Engineer's representative shall without unreasonable delay, unless he considers it unnecessary and advises the contractor accordingly, attend for the purpose of examine and measuring such work or of examining such foundations. Provided, however, that such examination by the Engineer or his representative shall not absolve the contractor of his obligation in respect of the work so examined and notwithstanding such examination, the contractor shall remain wholly liable in the event of such foundation or work not being in accordance with specification.
9.2.5.2	The contractor shall uncover any part or parts of the works, make openings in or through the same as the Engineer may from time to time direct and shall reinstate and make good such part or parts to the satisfaction of the Engineer. If any such part or parts have been covered up or put out of view after compliance with the requirements of this sub-clause and are found to be executed in accordance with the contract, the expenses of uncovering, making opening in or through, reinstating and making good the same, shall be borne by BHEL as mutually agreed upon but in any other cases all such expenses shall be borne by the Contractor and shall be recoverable from him by BHEL or may be deducted by BHEL from any money due or which may become due to the contractor.
9.2.6	Improper Work and Material
	The Engineer shall during the progress of the works have power to order in writing from time to time.
9.2.6.1	The removal from the Site within such time or times as may be specified in the Contract Documents of any material which in the opinion of the Engineer are not in accordance with the Contract Documents.
9.2.6.2	The substitution of proper and suitable materials, and
9.2.6.3	The removal and proper re-execution (notwithstanding any previous test thereof or interim payment therefore) of any work which in respect of materials or workmanship is not the opinion of the Engineer in accordance with the Contract Documents. In case of default on the part of the Contractor in carrying out such order BHEL shall be entitled to employ and pay other persons to carry out the same and all expenses consequent thereon or incidental thereto shall be borne by the Contractor and shall be recoverable from him by BHEL or may be deducted by BHEL from any money due or which may become due to the contractor.
10.0	POSSESSION OF SITE Save in so far as the contract may prescribe the extent of portion of the site of which the contractor is to be given possession from time to time & the order in which such portions shall be made available him and subject to any requirement in the contract as to order in which the works shall be executed, BHEL or the purchaser will with the Engineer written order to commence the works give to the contractor possession of so much of the site as may be required to enable the contractor to commence & proceed with the construction of the works in accordance with the programme & otherwise in accordance with such

	reasonable proposals of the contractor as he shall by notice in writing to the Engineer make and will from time to time as the works proceed give the contractor possession of such further portions of the site as may be required to enable the contractor to proceed with the construction of the works with due dispatch in accordance with the said programme or proposals (as the case may be). If the contractor suffers delay or incurs expenses from failure on the part of BHEL or the purchaser to give possession in accordance with the terms of this clause the Engineer shall grant an extension of time for the completion of works. No financial compensation whatsoever shall be payable by BHEL on this account.
10.1	WAYLEAVES The contractor shall bear all expenses and charges for special or temporary way leaves required by him in connection with access to site. The contractor shall also provide at his own cost any additional accommodation outside the site required by him for purposes of the works.
10.2	LAND BHEL/ the purchaser will provide the land required for the permanent works and contractor may, where approved by the Engineer, use the same for temporary purposes. In case of land required for temporary purposes, such as workshop, workyard, offices, storage of materials and the like, the Engineer will, on application being made, point out the area that can be used for these purposes. No land belonging to the purchaser or under temporary the possession of BHEL shall be occupied by the contractor without the written permission of BHEL. BHEL however reserves the right to ask the contractor to vacate the area/land earlier allowed for use or to shift to another area during the period of the contract, without assigning any reasons therefore and the contractor shall be bound to comply without demur and within the time limit specified by BHEL.
11.0	COMPLETENESS OF EQUIPMENT
11.1	The equipment shall be completely installed in every respect with all mountings, fixtures and standard accessories which are normally supplied even though not specifically detailed in the Specification. The Contractor shall not be eligible for any extra payment in respect of such mountings, fittings, fixtures and accessories if needed for safe operation of the equipment as required as per applicable codes through they may not have been included in the Contract.
11.2	Parts of all similar equipment supplied shall be interchangeable with one another.
11.3	ALL the equipment supplied under this contract shall be subject to BHEL/Purchaser's approval according to applicable stipulations set-forth in the specifications.
12.0	ISSUE OF CERTIFICATE
12.1	Certificate of BHEL
12.1.1	Every application to BHEL for a certificate must be accompanied by a details invoice (in quadruplicate) setting forth in the order of the schedule of quantities and prices as per approved billing breakups of the work executed and/or goods ready for dispatch to the date of claim and the certificate as to such goods and work as in the reasonable opinion of the Engineer in accordance with the specification shall be issued within thirty (30) days.
12.1.2	The Engineer, by any certificate, make any correction or modification in any previous certificates which may have been issued by him and payments against invoices under certification will be regulated and adjusted accordingly.
12.2	BHEL's decision In respect of all matters which are left to the decision of BHEL including the granting or withholding of certificates BHEL shall, if required to do so by the contractor, give in writing a decision thereon and his reasons for taking such decision. If in the opinion of the contractor a decision made by BHEL is not in accordance with the meaning and intent of the contract, the contractor may file with BHEL within 15 days after receipt of the decision, a written objection to the decision. Failure to file such an objection within the allotted time will be considered as accordance of BHEL's decision and the decision shall become final and binding. It is the intent of the contract that there shall be no delay in the execution of the work in such cases and the decision of BHEL as given shall be promptly observed.
12.3	No certificate of the Engineer on account, nor any sum paid on account by BHEL nor any extension of time for the execution of the work by the contractor shall affect or prejudice the rights of BHEL against the contractor or relieve the contractor of his obligations for the due performance of the contract and be interpreted as approval of the work done or of the goods supplied and no certificate shall create liability in BHEL to pay for alterations, amendments, variations or additional work and ordered in writing by BHEL or discharge the liability of the contractor for payment of damaged, whether due, ascertained certified or not or of any sum against the payment of which he is bound to indemnify BHEL, nor shall any

	such certificate nor the acceptance by him or any sum paid on account or otherwise, affect or prejudice the right of BHEL against the contractor.
13.0	GUARANTEE / WARRANTY Even though the work will be carried under supervision of BHEL engineers, contractor will be responsible for the quality of the workmanship and shall guarantee the work done for a period of 12 [twelve] months from the date of start of guarantee period, as certified by the engineer for good workmanship and shall rectify free of cost all defects due to faulty work done. In case contractor fails to repair the defective works within the time specified by the engineer. BHEL may proceed to undertake the repairs of such defective works at contractor's risk and cost without prejudices to any other rights and recover the same from SD/other dues of contractor.
14.0	DEFAULTS, REMEDIES AND POWERS
14.1	Negligence If the Contractor shall neglect to execute the work with due diligence and expedition or such refuse or neglect to comply with any reasonable orders given to him in writing by BHEL in connection with the work, or shall contravenes the provisions of the Contract, BHEL may give notice in writing to the Contractor calling upon to make good the failure, neglect or contravention complained of. Should the Contractor fail to comply with such notice within a period considered reasonable by BHEL from the date of such notice service thereof, in the case of a failure, neglect or contravention capable of being made good within that time, or otherwise within such time as may be in the opinion of BHEL be reasonably necessary for making it good, then and in such case BHEL shall have the option and be at liberty to take the work wholly or in part, out of the Contractor's hand and may carry on the work envisaged in the Contract either by himself or his agents or may re-contract with any other person or persons to execute the same or any part thereof and provide any other materials, tools, tackle or labour for the purpose of completing the works or any parts thereof. In such event BHEL shall without being responsible to the Contractor for normal wear and tear of the same, be entitled to seize and take possession and have free use of all materials, tools, tackle, or other things which may be on the Site, for use at any time in connection with the Work to the exhesion of any right of the contractor over the same and BHEL shall be entitled to retain and apply any balance sum which may otherwise be then due on the contract by him to the Contractor or such part thereof as may be necessary to the payment of the cost of execution of such work as aforesaid. If the cost of completing the works or executing a part thereof as aforesaid shall exceed the balance due to the contractor, the contractor shall pay such excess.
14.2	CHANGE IN CONSTITUTION
14.2.1	Where the Contractor is a partnership firm, the prior approval in writing of the engineer shall be obtained before any changes is made in constitution of the firm. Where the Contractor is an individual or a Hindu Undivided Family business concern such approval as aforesaid shall likewise be obtained before the Contractor enters into any partnership Agreement where under the partnership firm would have the right to carry out work hereby undertaken by the Contractor. If such approval as aforesaid is not obtained the Contract shall be deemed to have been assigned in contravention of Contract Conditions and the action may be taken, and the consequences shall cause as provided in the Contract.
14.2.2	The expression "change in constitution" shall include.
14.2.2.1	Any new partner coming in or any existing partner retiring.
14.2.2.2	Any change in the profit sharing ratio.
14.2.2.3	Any alteration in the mutual right of the partners.
14.2.3	It is an agreed term and the contract that all the partners of the Contractor shall continue to be jointly and liable to BHEL in respect of the obligation to the Contractor herein and notwithstanding the resignation or retirement of any partner, his liability hereunder shall continue unless he is relieved there from by BHEL in writing.
14.3	FORFEITURE
14.3.1	If the contractor shall become bankrupt or have a receiving order made against him or shall present his petition in bankruptcy or shall make an arrangement with or assignment in favour of his creditors or shall agree to carry out the Contract under a Committee of inspection of his creditors or (being a corporation) shall go into liquidation (other than a voluntary liquidation for the purpose of amalgamation or reconstruction) or if the Contractor shall assign the Contract without the consent in writing of BHEL first obtained or shall have an execution levied on his goods or if the Engineer shall certify in writing to BHEL that in his opinion the Contractor:
14.3.1.1	Has abandoned the Contract, or

14.3.1.2	Without reasonable excuse has failed to commence works or has suspended the progress of the works for 15 days after receiving from the Engineer written notice to proceed, or
14.3.1.3	Has failed to proceed with the works with due diligence or
14.3.1.4	Has failed to remove materials from the Site or to pull down and replace work for 15 days after receiving from the Engineer written notice that the said materials or work had been condemned and rejected by the Engineer under these conditions, or
14.3.1.5	Is not executing the works in accordance with the Contract or is persistently or flagrantly neglecting to carry out any of his obligations under the Contract, or
14.3.1.6	Has to be detriment of good workmanship or in defiance of the Engineer's instructions to the contrary Sub-contracted any part of the Contract.
14.3.1.7	Then the Employer may after giving 14 days notice in writing to the Contractor enter upon the site & the works and expel the Contractor therefrom without thereby releasing the Contractor from any of his obligations or liabilities under the Contract or affecting the rights and powers conferred on BHEL or the Engineer by the Contract and may him self complete the work may employ any other Contractor to complete the works and BHEL or such other contractor may use for such completion so much of the Constructional Plant, Temporary works, materials which have been deemed to be reserved exclusively for the construction and completion of the works under the provisions of the Contract as he or they may think proper and BHEL may at any time sell any of the said Constructional plant, temporary work & unused materials & apply the proceeds of sale in or towards the satisfaction of any sum due or which may become due to him from Contractor under the Contract.
14.3.2	Valuation at date of forfeiture The Engineer shall as soon as may be practicable after expulsion of this Contractor and such entry by BHEL fix and determine experts or by or after reference to the parties or after such investigations or enquiries as he may think fit to make or institute and shall certify what amount (if any) had at the time of such entry and expulsion been reasonably earned by or would reasonably accrue to the Contractor in respect of work then actually done by him under the Contract and what was the value of any of the said unused or partially used materials, any constructional plant and any Temporary Works upon the Site.
14.3.3	Payment After Forfeiture If BHEL shall enter and expel the Contractor under this clause he shall not be liable to pay to the Contractor any money on account of the Contract until the expiration of contractual period and until the costs of completion and compensation for delay in completion (if any) and all other expenses incurred by BHEL have been ascertained and the amount thereof certified by the Engineer. The Contractor shall then be entitled to receive only such sum of sums (if any) as the Engineer may certify would have been due to him upon due completion by him after deducting the said amount. But if such amount shall exceed the sum which would have been payable to the Contractor on due completion by him then the Contractor shall upon demand pay to BHEL the amount of such excess and it shall be deemed a debt due by the Contractor to BHEL and shall be recoverable accordingly.
14.4	SUSPENSION OF WORK The Contractor shall on the written order of the Engineer suspend the progress of the works or any part thereof for such time or times and in such manner as the Engineer may consider necessary and shall during such suspension properly protect and secure the work so far as is necessary in the opinion of the Engineer. The extra cost including all running wages to be paid on the Site, salaries, depreciation and maintenance of the plant at Site, on costs and general overhead costs of the Contract incurred by the Contractor in giving effect to the Engineer instructions under this clause shall be borne and paid by BHEL (provided such costs are substantiated by the contractor to the satisfaction of BHEL / the purchaser) unless such suspension is:
14.4.1	Otherwise provided for in the Contract, or
14.4.2	Necessary for the proper execution of the Work or by reason of weather conditions affecting the safety or quality of the Works or by some default on the part of the Contractor, or
14.4.3	Necessary for the safety of the Works or any part, thereof.
14.4.4	Provided that the Contractor shall not be entitled to recover any such extra cost unless he gives notice in writing of his intention to claim to the Engineer within 15 days of the Engineer's order. The Engineer shall settle and determine such extra payment to be made to the Contractor in respect of such claims as shall in the opinion of the Engineer be fair and reasonable. Provided always that BHEL shall not be liable for any claim of idle wages for men and/or equipment which are otherwise used by the Contractor during the period of suspension of work whether in the work of BHEL or otherwise. BHEL shall not be responsible for any liabilities if suspension or delay is due to some default on the part of the

	contractor or his subcontractor.
14.5	REMEDY OF BHEL
14.5.1	The Engineer on behalf of BHEL without prejudice to his rights against the Contractor in respect of any delay or inferior workmanship or otherwise or to any claims for damage in respect of any breaches of any of the Terms and Conditions of the Contract and without prejudice to any right or remedies under any of the provisions of this Contract or otherwise and whether the date for completion has or has not elapsed by the notice in writing, absolutely determine the Contract in any of the following:
14.5.1.1	If the Contractor being a company shall pass a resolution or the court shall make an order that the company shall be wound up or if a receiver or a manager on behalf of a creditor shall be appointed or if circumstance shall arise which entitled the court or creditor to appoint a receiver or a manager or which entitle the court to make a winding up orders.
14.5.1.2	If the Contractor commits breach of any of the terms and conditions of the Contract.
14.5.2	When the Contractor has made himself liable for action under any of the cases as in sub-clause (i) above, the Engineer on behalf of BHEL shall have powers:
14.5.2.1	To determine or rescind the Contract as aforesaid (of which termination or rescission notice in writing to the Contractor under the hand of the Engineer shall be conclusive evidence). Upon such determination or rescission the Security Deposit of the Contractor shall be liable to be forfeited and shall be absolutely at the disposal of BHEL.
14.5.2.2	To employ labour and to supply materials to carry out the works or any part of the work debiting the contractor with the cost of the labour and the price of the materials (of the amount of which cost and price certified by the Engineer shall be final and conclusive against the contractor) and crediting him with the value of the work done in all respect in the same manner and at same rates as if it had been carried out by the contractor under the terms of the contract. The certificate of the Engineer as to the value of the work done shall be final and conclusive against the contractor providing always that action under this sub clause shall only be taken after giving notice in writing to the contractor. Provided also that if the expenses incurred by BHEL are less then the amount payable to the contractor at the agreement rates, the difference shall not be paid to the contractor.
14.5.2.3	After giving notice to measure the work of the contractor and to take such part thereof as shall be executed out of his hands and to give it to another contractor to complete in which case any expenses which may be incurred in excess of sum which would have been paid to the original contractor if the whole work had been executed by him (of the amount of which excess the certificate in writing of the Engineer shall be final and conclusive) shall be borne and paid by the original contractor and maybe deducted from any money due to him by BHEL under this contract or any other account whatsoever or from his Security Deposit or the proceeds of sales thereof or a sufficient part thereof as the case may be. In the event of any one or more of the above courses being adopted by the Engineer the Contractor shall have no claim to compensation for any loss sustained by him by reason of his having purchased or procured any materials or entered into any engagements or made any advance on account or with a view to the execution of the work or the performance of Contract. And in case action is taken under any of the provision aforesaid, the Contractor shall not be entitled to recover or be paid any sum for any work thereto or actually performed under this contract unless and until the engineer has certified in writing the performance of such work and the value payable in respect thereto and he shall only be entitled to be paid the value as certified.
14.5.3	In any case in which any of the power conferred upon the Engineer under this clause, shall have become exercisable and the same shall not be exercised, the non-exercised thereof shall not constitute a waiver of any of the conditions hereof and such powers shall notwithstanding be exercisable in the event of any future case of default by the Contractor and the liability of the Contractor for compensation shall remain unaffected. In the event of the Engineer putting in force all or any of the powers vested in him under this clause he may, if he so desires, giving a notice in writing to the Contractor, take possession of or (at the sole discretion of the Engineer which shall be final) use on hire (the amount of the hire money being also in the final determination of the Engineer) all or any tools, plant, materials and stores, in or upon the works, or the Site thereof, belonging to the Contractor, or procured by the Contractor and intended to be used for the execution of the work or any part thereof, paying or allowing for the same in account at the Contract rates or in the case of these not being applicable, at current market rates to be certified by the Engineer, whose certificate thereof shall be final, otherwise the Engineer by notice in writing may order the Contractor, or his clerk of the works, foreman or other authorised agent to remove such tools, plant materials, or stores from the premises (within a time specified in such notice).

	and in the event of the Contract failing to comply with any such requisition, the Engineer may remove them at the Contractor's expense or sell them by auction or private sale on account of the Contractor and at his risk in all respects and the Certificate of the Engineer as to the expense of any such removal and the amount of the proceeds and expense of any such sale shall be final and conclusive against the Contractor.
14.5.4	No claim will be entertained from the Contractor for idle labour, stoppage of work or damage on account of unprecedented rain, storm or any unforeseen circumstances which will be responsible for the same.
14.6	RIGHTS OF BHEL
14.6.1	Without prejudice to the right conferred by the various clauses under the Contract and of their right ensuring to BHEL in the terms of contract, BHEL reserves the following rights in respect of this contract without entitling the Contractor for any compensation. To withdraw any portion of work and/or to restrict, alter the quantum of work as indicated in the Contract during the progress of the erection and get it done through other agency and/or by departmental labour to suit BHEL's commitment to the purchaser or in case BHEL decides to advance the date of completion due to other emergency reasons of BHEL's obligation to the purchaser. To terminate the Contract after a notice of 14 days when served at the last known address of the principal office of the Contractor and forfeit Security Deposit and recover the loss sustained in getting the balance work done through other agencies in addition to "Compensation for Delay" in the event of:
14.6.1.1	Contractor's continued poor progress brought to notice from time to time.
14.6.1.2	Withdrawal from or abandonment of the Work by Contractor before completion of the Work.
14.6.1.3	Corrupt act of Contractor.
14.6.1.4	Insolvency of the Contractor.
14.6.1.5	Persistent disregard to the instruction in writing of BHEL.
14.6.1.6	Assignment, transfer, sub-contracting of the contract without BHEL's written permission.
14.6.1.7	Non-fulfillment of any contractual obligations. Any delay in works for reasons attributable to the contractor will have to be compensated by either increasing manpower and resources or by working extra hours and more than one shift without any extra cost. To recover any money due from the Contractor from the money which is due or which may become due to the Contractor under this Contract or any other Contract or from the Security Deposit or as debt payable by the Contract. To claim compensation for losses sustained by BHEL including BHEL's supervisions charges and overheads in completion or termination of Contract & to recover compensation for delay in completion of the work, from Security Deposit and/or from the money which is due or which may become due to the Contractor under this or any other Contract or as a debt payable by the Contractor. To terminate the Contract or to restrict the quantum of the work and pay for the portion of work executed in case BHEL's Contract with the purchaser are terminated for any reason. To effect recovery from any amounts due to the Contractor under this or any other Contract, the moneys BHEL is forced to pay to anybody, due to Contractor's failure to fulfil any of his obligations.
14.6.2	While every endeavor will be made by BHEL, BHEL can not guarantee uninterrupted work due to conditions beyond their control. Contractor will not be entitled for any compensation / extra payment on this account.
14.6.3	In the event of any dispute of any nature, the decision of BHEL shall be final and binding on the Contractor.
14.6.4	All safety rules and codes applied by the purchaser/ BHEL at the site shall be observed by the Contractor without exception. The Contractor shall be responsible for the safety of the equipment/ materials and work to be performed by him and shall maintain all light fencing, guards, sings etc or other protection necessary for the purpose. Contractor shall also take such additional precautions as may be indicated from time to time by the engineer with a view to prevent pilferage, accidents, fire hazards & atmospheric conditions. Suitable number of clerical staff, watch and ward, be posted at Site by the Contractor till the

	completion of the Work under the Contract. The Contactor shall arrange for such safety device as are necessary for such type of work and carry out the requisite tests of handling equipment, lifting, tools, tackles etc, as per prescribed standards and practices.
14.6.5	Should any error or ambiguity be discovered in the specification or information, the Contractor shall forthwith bring the same to the notice of the Engineer before commencement of work. Engineer's interpretation in such cases shall be final and binding on the contractor.
14.6.6	No idle labour be admissible in the event of any case in the work resulting contractor's labour being rendered idle due to any case at any time.
14.6.7	No over run charges shall be paid in the event the completion period is extended for any reason whatsoever.
14.6.8	The quality and progress of work will be regularly reviewed. The schedule and programme of work will be given to the contractor in advance and it will be the obligation of the Contractor to achieve the desired quality and progress of work by suitably reinforcing their labour force and/or by working extra shifts at no extra costs. Workmen found unsuitable for the work will be replaced immediately by the Contractor on being informed by BHEL.
14.6.9	During the erection/ construction performing work under the Contract it is very essential that proper and adequate inspection should be made constantly to maintain the quality of workmanship so that any deviation from design dimension does not exceed permissible limits. The proper functioning of the power plant, while in operation, depends to a great extent of the above factors. For the details regarding alignment and permissible dimensioned deviation in the Work, Engineer may be consulted.
14.6.10	It is possible that some minor repair/ rectification/ modification may be needed on the equipment to be erected/ constructed/ work to be performed under this specification, for reasons not attributable to the contractor. All such repair/ rectification/ modification work which can be done with the available facilities at site shall be carried out by the contractor free of cost and no extra charges shall be paid to the contractor, unless stated otherwise elsewhere.
14.6.11	In the event of failure of the contactor to bring necessary, sufficient and proper manpower, consumables, Tools & Plants and any other input required to be brought by the contractor for proper and timely completion of the job, BHEL may arrange/ hire the same at the risk and cost of the contractor including all incidental charges for bringing these inputs from the source place. The entire cost towards these together with overhead charges as applicable or as decided by the engineer shall be paid by the contractor or deducted from the contractor's bills. BHEL may at his discretion terminate the contract or take out any part or whole of the contract from the scope of the contractor on these grounds.
14.7	CONSEQUENCES OF TERMINATION
14.7.1	Whenever BHEL exercises his authority to terminate the Contract / Withdraw a portion of work pursuant to the Contract, BHEL may complete the work by any means at the Contractor risk and cost and BHEL shall not be liable to pay the contractor's any money on account of the contract until the expiry of guarantee / warranty period and thereafter until the cost of completion including delay compensation and all other expenses incurred by BHEL have been ascertained. In the event of the cost of completion (as certified by the Engineer which shall be final and conclusive) being less than the Contract price, the advantage shall accrue to BHEL and that if cost of completion exceed the money due to the Contractor under the Contract, the Contractor shall either pay the excess amount as ordered by BHEL or the same shall be recovered from the Contractor by any other means as deemed (to be) fit by BHEL.
14.7.2	This will be in addition to the forfeitures of Security Deposit and recovery of "Compensation for Delay" and other dues payable under the Contract.
14.7.3	In case BHEL completes the work under the provisions of this clause, the cost of such completion to be taken into account in determining the excess cost to the charges to the Contract under this clause, shall consist of materials purchased and/or labour provided by BHEL with an addition of such percentage to cover supervision and overhead charges as may be decided by BHEL.
15.0	FORECLOSURE OF CONTRACT
	If at any time after acceptance of the Tender the Purchaser / BHEL shall decides to abandon or reduce the Scope of the Work for any reason whatsoever and hence not require the whole or any part of the work to be carried out, BHEL shall give notice in writing to that effect to Contractor and the Contractor shall have no claim to any payment of compensation or otherwise, whatsoever, on account of any profit or advantage which he might have derived from the execution of the works in full but which he could not derive in consequence

	of the foreclosure of the whole or part of the work. The contractor shall be paid at the contract rate full amount for work executed at site and in addition a reasonable amount as certified by BHEL for the items here in under mentioned which could not be utilized on the work to the full extent because of the foreclosure:
15.1	Proportionate value of the expenditure incurred on preliminary site work.
15.2	BHEL shall have the option to take over contractor's materials or any part thereof either brought to the site or of which the contractor is legally bound to accept delivery from suppliers (for incorporation in the incidental to the work), provided however, BHEL shall be bound to takeover the materials or such portion thereof as the contractor does not desire to retain. For materials taken over or to be taken over by BHEL cost of such materials shall, however, take into account purchase prices, cost of transportation and deterioration or damage which may have been caused to materials whilst in custody of the contractor. For the contractor's materials not retained by BHEL reasonable cost of transporting such materials from the site to contractor's permanent stores or to his other works, which ever is less. If materials are not transported to either of the said places, no cost of transportation shall be payable.
15.3	If any materials supplied by BHEL are rendered surplus, the same except normal wastage shall be returned by the contractor to BHEL at rates not exceeding those at which these were originally issued less allowance for any deterioration or damage which may have been caused whilst the materials were in the custody of the contractor. In addition, cost of transporting such materials from site to BHEL'S stores, if so required by BHEL may be included.
15.4	Reasonable compensation for transfer of tools and plants from the site to contractor's permanent stores or to his other works, whichever is less. If tools and plants are not transported to either of the said places, no cost of transportation shall be payable.
15.5	A sum to be certified by BHEL being the amount of any expenditure reasonably incurred by the contractor in expectation of completing the whole of the works in so far as such expenditure shall not have been covered by the payments in this sub clause before mentioned. Provided always that against any payments due from BHEL under the sub clause, BHEL shall be entitled to be credited with any outstanding balances due from the contractor for advances in respect of construction machinery and materials and any other sums which at the date of termination were recoverable by BHEL from the contractor under the terms of the contract. The contractor shall, if required by BHEL, furnish to him books of account, wage books, time sheets and other relevant documents as may be necessary to enable him to satisfy the reasonable amount payable under this condition.
16.0	CLAIMS
16.1	In the event of any claim made or being made against BHEL arising out of the matters referred to, in and in respect of which the contractor is liable under the contract, the contractor shall be promptly notified thereof and the contractor shall at his own expense conduct all negotiations for the settlement of the same and any litigation that may arise therefrom. BHEL shall not unless and until the contractor shall have failed to takeover the conduct of negotiations or litigation make nay admission which might be prejudicial thereto. The conduct by the contractor of such negotiation or litigation shall be conditional upon the contractor having first given to BHEL such reasonable security as shall from time to time be required by BHEL to cover the amount ascertained or agreed or estimated as case may be, of any compensation, damages, expenses, and costs on which BHEL may become liable. BHEL shall, at the request of the contractor, afford all available assistance for any such purpose and shall be paid any out of pocket expenses incurred in so doing.
16.2	In case, due to exigency or any other reason BHEL incurs costs, damages or expenses for which under the contract the contractor is liable, BHEL shall claim the same from the contractor. All such claims shall be billed by BHEL to the contractor as and when they fall due. Such bills shall be supported by appropriate and certified vouchers or explanations, to enable the contractor to properly identify such claims. Such claims shall be paid by the contractor within fifteen (15) days of the receipt of the corresponding bills and if not paid by

	the contractor within the said period, BHEL may then deduct the amount from any money due or becoming due by him to the contractor under the contract or may be recovered by actions of law or otherwise, if the contractor fails to satisfy BHEL of such claims.
17.0	ASSIGNMENT AND SUB-CONTRACTING
17.1	Assignment The Contractor shall not assign or transfer the Contract or any part thereof or any benefit or any obligation thereof or interest therein or thereunder (otherwise than by a charge in favour of the Contractor's Bankers of any moneys due to become due under this contract) without the prior written consent of BHEL.
17.2	SUB – CONTRACTING
17.2.1	Equipment Subcontracting of work, normally should not be permitted. However, in case of unavoidable instances, the contractor may, after informing BHEL & getting his written approval along with approval of the purchaser, assign or subcontract any part of the contract other than for raw materials, for minor details or any part of the plant for which makes are identified in the contract. BHEL shall not be liable in any way, in case such approval for sub contracting is not permitted by the purchaser. Sub-contractor of the equipment not identified in the contract or any change in the identified sub-contractor shall be subject to approval by BHEL & the purchaser. The experience list of the equipment sub-contractor under consideration by the contractor for this contract shall be furnished to BHEL for approval prior to procurement of all such items /equipment. Such assignment /sub-contracting shall not relieve the contractor from any obligation, duty or responsibility under the contract. Any assignment as above without prior written approval of BHEL & the purchaser shall be null and void. For components / equipments procured by the contractor for the purposes of the contract, after obtaining written approval of BHEL/the purchaser, the contractor's purchase specifications and enquiries shall call for quality plans to be submitted by his sub-contractor alongwith their proposals. The quality plans called for from the subcontractor shall set out during the various stages of manufacture & installation the quality practices & procedures followed by the sub-contractor quality control organization, the relevant reference documents, standards used, acceptance levels, inspection of documentation raised, etc. Such quality plans of the sub-contractor shall be discussed and finalized in consultation with BHEL and shall form a part of the contract between the contractor and the sub contractor. The contractor along with the subcontractor and BHEL shall furnish a joint undertaking to the purchaser or guaranteed performance of the equipment and subsystems. The contractor should desist from seeking approval for two-tier sub-contracting which may not be permitted by BHEL/the purchaser.
17.2.2	Erection / Construction work When the job of erection/ construction is entrusted with the sub-contractor, the name of such sub-contractor should be brought to the notice of BHEL for his as well as the purchaser's approval. The credential and experience profile of such sub-contractor along with quality assurance plan are to be submitted by the contractor before starting work without which BHEL shall not entertain such proposal from the contractor. The procedure to be followed before assigning such contract are already elaborated above. Salient features of such assignment / sub-contracting are enumerated below:
17.2.2.1	The Contractor shall not sub-contract the whole of 'the works'. Except where otherwise provided by the Contract, the Contractor shall not sub-contract any part of the works without the prior written consent of BHEL/the purchaser and such consent if given shall not relieve the Contractor from any liability or obligation under the Contract and he shall be responsible for the acts, defaults and neglects of any sub contractor, his agents, servants or workman as fully as if they were the acts, defaults or neglects of the Contractor, his agents, servants or workman.
17.2.2.2	The contractor shall make available to the Engineer, at his request, any agreement in writing entered into by the Contractor with his Sub-contractor.
17.2.2.3	BHEL shall have the right to specify the brand name/s of the bought out materials required in connection with the contract and the Contractor shall procure and use only such branded items to the extent possible to the full satisfactions of the Engineer. This shall however, not relieve the Contractor of his obligations under the Contract.
17.2.2.4	Notwithstanding the consent given by BHEL/ the purchaser for Sub-contracting, it shall be obligatory on the part of the Contractor to provide the Engineer all drawings, technical data and all other details etc. concerning the portion of work sub-contracted. It shall also be obligatory on the part of the Contractor to exercise control over quality of materials and workmanship of the portion of work sub-contracted.

23.1	The contractor shall within 60 days from the date of LDI but in any case before submitting his first bill for payment, enter into and execute a contract agreement (to be prepared at the cost of the contractor). In the event of the failure of the contractor to execute the contract agreement within the time specified above, BHEL may cancel the LOI and forfeit his EMD and/or SD unless this period is extended by BHEL. The agreement will be signed in seven (7) originals and the contractor shall be provided with one (1) signed original and the rest will be retained by BHEL. These General Conditions together with the specifications, tender drawings and technical particulars, tender date with subsequent agreed modification thereof, tender, all correspondences with BHEL and signed agreement and other supporting documents shall constitute the contract document(s). No variation or modification of terms and conditions of the contract documents or waiver of any of these terms and conditions shall be deemed valid unless agreed in writing and signed by the BHEL and the Contractor. The failure of either party to endorse at any time of the provisions of the contract or any right thereto or to an option herein provided shall in no way be construed to be a waiver of such provisions, rights or option or in any way to affect the validity of the Contract. The exercise by either party of any of his rights herein shall not preclude or prejudice either party from exercising the same or any other right in may have hereunder. The contract shall in all respects be deemed to be and shall be construed and shall operate as an Indian contract as defined in the Indian Contract Act 1872 and all payments thereunder shall be made in Indian Rupees unless otherwise specified.
23.2	The contract shall be considered to come into force on the date of notification of Award by the BHEL to the Contractor which may be in the form of a Fax of Award or Letter of INTENT. The law applicable to the Contract shall be the law in force in India. The Courts of Kolkata under this Contract shall have exclusive Jurisdiction in all matters arising under this Contract, including Arbitration Awards.
24.0	SETTLEMENT OF DISPUTE AND ARBITRATION
24.1	If any dispute or differences of any kind whatsoever shall arise between BHEL and the contractor, arising out of the contract for the performance of the work whether during the progress of termination, abandonment or breach of the contract, it shall in the first place be referred to and settled by the Designated Engineer (nominated by BHEL for settlement of the disputes arising out of this contract) who within a reasonable period after being requested shall give written notice of his decision to the contractor. Save as hereinafter provided, such decision in respect of every matter so referred shall forthwith be given effect to by the contractor who shall proceed with the work with all due diligence, whether he or BHEL required arbitration as hereinafter provided or not.
24.2	If after the Designated Engineer has given written notice of this decision to the party, no claim to arbitration has been communicated to him by the party within 30 days from the receipt of such notice, the said decision shall become final and binding on the parties. In the event the contractor being dissatisfied with any such decision or if amicable settlement can not be reached then all such disputed issues shall be referred to the sole arbitration of the person appointed by BHEL.
24.3	Except as provided elsewhere in this Contract, in case amicable settlement is not reached between the Parties, in respect of any dispute or difference; arising out of the formation, breach, termination, validity or execution of the Contract; or, the respective rights and liabilities of the Parties; or, in relation to interpretation of any provision of the Contract; or, in any manner touching upon the Contract, then, either Party may, by a notice in writing to the other Party refer such dispute or difference to the sole arbitration of an arbitrator appointed by Head of the BHEL Power Sector Region issuing the Contract. It shall not be open to the Contractor to object to such arbitrator only on the ground that such arbitrator is an employee/ex-employee of BHEL or has dealt with or has expressed any opinion on any issue touching upon the Contract. The Arbitrator shall pass a reasoned award and the award of the Arbitrator shall be final and binding upon the Parties. Subject as aforesaid, the provisions of Arbitration and Conciliation Act 1996 (India) or statutory modifications or re-enactments thereof and the rules made thereunder and for

	the time being in force shall apply to the arbitration proceedings under this clause. The seat of arbitration shall be Kolkata (the place from where the contract is issued)
24.4	In case of Contract with Public Sector Enterprise (PSE) or a Government Department, the following shall be applicable: In the event of any dispute or difference relating to the interpretation and application of the provisions of the Contract, such dispute or difference shall be referred by either Party for arbitration to the sole arbitrator in the Department of Public Enterprises to be nominated by the Secretary to the Government of India in-charge of the Department of Public Enterprises. The Arbitration and Conciliation Act, 1996 shall not be applicable to arbitration under this clause. The award of the arbitrator shall be binding upon the Parties to the dispute, provided, however, any Party aggrieved by such award may make further reference for setting aside or revision of the award to the Law Secretary, Department of Legal Affairs, Ministry of Law and Justice, Government of India. Upon such reference the dispute shall be decided by the Law Secretary or the Special Secretary or Additional Secretary when so authorized by the Law Secretary, whose decision shall bind the Parties hereto finally and conclusively.
24.5	The cost of arbitration shall be borne equally by the Parties
24.6	Notwithstanding the existence or any dispute or differences and/or reference for the arbitration, the Contractor shall proceed with and continue without hindrance the performance of its obligations under this Contract with due diligence and expedition in a professional manner.
25.0	AS-BUILT DRAWINGS
	The Contractor shall provide and keep up to date "As Built" drawings of all structures constructed and all equipment and accessories and miscellaneous metal works erected or installed. These drawings shall show all changes and revisions from the original drawings and specifications, including the exact "As Built" locations, sizes and kinds of equipment and accessories, miscellaneous metal works, embedded piping and electrical systems and other concealed items of work. These drawings shall be kept in Contractor's field office but shall be made available at all times for review of the Engineer. At the end of every work, all entries, changes or revisions made in the drawings by the Contractor shall be checked and approved by the Engineer. Reproducible prints with requisite copies of all "As Built" drawings shall be progressively handed over to BHEL after taking over of the work by BHEL/ the Purchaser.
26.0	INSURANCE
26.1	BHEL shall arrange for insuring the materials/properties of BHEL/ Customer covering the risks during transit, storage, erection and commissioning.
26.2	It is the sole responsibility of the contractor to insure the workmen, his properties including tools and plants against accident and injury while at work as required by relevant rules and to pay compensation, if any, to workmen as per Workmen's Compensation Act. This policy shall also cover the contractor against claims for injury, disability, disease or death of his or his sub-contractor's employee, which for any reason are not covered under the Workmen's Compensation Act. The liabilities shall not be less than:
26.2.1	Workmen's Compensation :- As per statutory provisions Employee's liability : As per statutory provisions.
26.2.2	The work will be carried out in a protected area and all the rules and regulations of the purchaser / BHEL in the area of project which are in force from time to time will have to be followed by the contractor.
26.3	If due to negligence and/or non-observance of safety and other precautions any accident /injury occurs to any other persons/public, the contractor shall have to pay necessary compensation and other expenses, if so decided by the appropriate authorities.
26.4	If due to contractor's carelessness, negligence or non-observance of safety precautions damage to BHEL'S /purchaser's property and personnel should occur, and if BHEL is unable to recover, in full cost from the insurance company, the balance will be recovered from the contractor. The damage is to be-reported within 48 hours of occurrence alongwith Engineers report. In the event of loss/theft of BHEL's /purchaser's property while in the custody of the contractor, it will be the responsibility of the contractor to lodge FIR with local Police authorities and furnish the details of FIR and Engineer's investigation report about loss/theft within 48 hours of occurrence . This is for the purpose of lodging insurance claim. If BHEL is unable to recover full cost from Insurance Company, the balance including deductible franchise whereas applicable will be recovered from the contractor.

28.0	MANUFACTURER'S SUPERVISION The Contractor may be required to work under the guidance of the manufacturer's technical personnel, as and when needed, where the Contractor is not the manufacturer. However, this will not relieve the Contractor of his responsibility of the correctness of work done or quality of workmanship.
29.0	CONTRACTOR'S SUPERINTENDENCE
29.1	The Contractor shall give or provide all necessary superintendence during the execution of works and as long thereafter as the Engineer may consider necessary for the proper fulfilling of the Contractor's obligations under the Contract.
29.2	The Contractor or a competent and authorised agent or representative approved of in writing by the Engineer (which approval may at any time be withdrawn) is to be constantly on the works and shall give his whole time to superintendence of the same. If such approval shall be withdrawn by the Engineer, the Contractor shall as soon as is practicable (having regard to the requirement of replacing him as hereafter mentioned) after receiving written notice of such withdrawal, remove the agent from the Site and shall not thereafter employ him again on the site in any capacity and shall replace him by another agent approved by the Engineer. Such authorised agent or Representative shall receive on behalf of the Contractor directions and instructions from the Engineer or the Engineer's Representative. Such directions and instructions given to the Contractor's agent or representative shall be considered to have the same force as if they had been given to the Contractor himself. The Contractor, his agent or representative shall attend when required and without making any claim for so doing, either the office of BHEL/ Engineer or the Site to receive the instructions. All the employees provided by the Contractor and employed on the site shall be the Contractor's employees and the Contractor shall be solely responsible for all liabilities in connection with their employment.
29.3	Any written orders or instruction which the engineer or his duly authorised representative may give to the said representative of the Contractor, shall be deemed to have been given to the Contractor.
29.4	The services of the Contractor's representative(s) shall be made available for such period as the Engineer may require and they shall work at all reasonable times as may be necessary to complete the work within the period specified in the Contract.
29.5	The Engineer shall be at liberty to object to and require the Contractor to remove forthwith from the works any person employed by the Contractor in or about the execution of the contract who in the opinion of the Engineer misconducts himself or is incompetent or negligent in the proper performance of his duties or whose employment is otherwise considered by the engineer to be undesirable and such person shall not be again employed upon the works without the written permission of the Engineer. Any person so removed from the works shall be replaced as soon as possible by a competent substitute approved by the Engineer.
30.0	ENGINEER'S SUPERVISION The work shall be performed under the direction of the Engineer. The scope of the duty of the Engineer, pursuant to this Contract shall include but not be limited to the following:
30.1	Interpretation of all the terms and conditions of the Contract Documents and Specification:
30.2	Review and interpretation of all drawings, engineering data etc.
30.3	Witness or authorize his representative to witness tests & trial run etc., either at the manufacturer's works or at site as applicable, or at any place where work is performed under the Contract.
30.4	Inspect, accept or reject any equipment, any component, materials and works under the Contract;
30.5	Issue certificate of acceptance and/or certificates for progressive payments and final payment;
30.6	Review and suggest modification and improvements in completion schedule from time to time; and
30.7	Supervise implementation of the quality assurance at all stages of the Works; The contractor shall take instruction and direction only from the Engineer or from the Engineer's representative. Any supervision by the purchaser shall be deemed to be that of the Engineer or his Representative and no extra claim can arise on this score. Provided however that if the Contractor shall be dissatisfied by reason of any instruction of the purchaser, he shall be entitled to refer the matter to the Engineer who shall thereupon confirm, reverse or vary such decision.

47.0	NON WAIVER OF DEFAULTS Failure of BHEL to insist upon strict performance of any terms and conditions of the contract will not be deemed a waiver of any rights or remedies that BHEL may have and will not be deemed a waiver of any subsequent default under the terms and conditions of the Contract. No right or remedy will be exclusive of any other right or remedy and BHEL will have all rights and remedies given under the Contract and now or hereafter existing in law or by statute.
48.0	GENERAL GUIDELINES FOR FIELD ACTIVITIES The activities to be rendered by the contractor shall broadly include (except otherwise specified in the contract) but not limited to the following:
48.1	Arranging issue of materials from site store / open yard from time to time for erection as per the construction programme. The contractor shall be the custodian of all the materials issued till the plant is officially taken over the BHEL/purchaser after complete erection and successful trial run & commissioning etc. as applicable.
48.2	Transportation of materials to their respective places of erection and erection of the complete plant & equipment as supplied under this specification.
48.3	The contractor shall co-operate with BHEL/purchaser and other contractors working in site and arrange to perform his work in a manner so as to minimise interference with other contractor's works. The BHEL's engineer shall be notified promptly of any defect in other contractor's work that could affect the contractor's work. If rescheduling of contractor's work is requested by BHEL's Engineer in the interest of overall site activities, the same shall be complied with by the contractor. In all cases of controversy, the decision of BHEL shall be final and binding on the contractor without any commercial implication.
48.4	It may sometimes be necessary to remove some of the erected structural members to facilitate erection of bigger/pre-assembled equipment. In such case, the removal and re-erection of such members, which are essential, and if so agreed by the Engineer, will have to be done by the contractor at his cost.
48.5	Attachment welding of necessary instrumentation tapping points, thermocouple pads, root valves, condensing vessels, flow nozzles and control valves etc. Both for regular measurement and performance testing to be provided on equipment, its auxiliaries or pipelines covered within the scope of this tender, will also be the responsibility of the contractor and the same will be done as per the instructions of Engineer. The erection and welding of all above items will be the contractor's responsibility, even if :
48.5.1	Product groups under which these items are released are not covered in the scope of this tender.
48.5.2	Items are supplied by an agency other than the contractor.
48.6	Preservation of all materials / equipment under custody of the contractor during storage, pre-assembly & erection, commissioning etc, shall be the responsibility of the contractor. All necessary preservatives and consumables like paints, etc., shall be arranged by the contractor. Necessary touch up painting, periodic application of preservatives/paints on

	pressure parts/other equipment even after erection until completion of work shall be carried out by the contractor.
48.7	It is responsibility of the contractor to do the alignment etc., if necessary, repeatedly to satisfy Engineer, with all the necessary tools & tackles, manpower etc., The alignment will be complete only when jointly certified so, by the contractor's Engineer & BHEL. Also the contractor should ensure that the alignment is not disturbed afterwards.
48.8	Additional temporary platforms required for approaching different equipment as per site requirement, which may not be indicated in drawings, shall be fabricated and erected by the contractor. The materials required for these works shall be supplied by the contractor (except otherwise specified in the contract) and he will have to fabricate them to suit the requirement.
48.9	Before erection of any equipment on a foundation, the contractor shall check and undertake if necessary rectification of foundation bolts reaming of holes, drilling of dowels, matching of bolts and nuts, making new dowel pin etc.
48.10	Assistance for calibrating /testing the power cylinders, valves, gauges, instruments etc., and setting of actuators coming under various groups shall be provided by contractor.
48.11	It shall be the responsibility of the contractor to provide ladders on columns for initial works till such time stairways are complete. For this, the ladder should not be welded on the column and should be prefabricated clamping type. No temporary welding on any structural member is permitted except under special circumstances with the approval of BHEL.
48.12	Structural materials required for the supporting /operating platforms required for the valves at various levels for the same operation of valves will be arranged by BHEL (except otherwise specified in the contract). Fabrication and erection of the same is deemed to be in the scope of the contractor.
48.13	All empty containers, packing materials, gunny bags, transport frames as also surplus and unused materials shall be the property of BHEL/the purchaser and shall be returned to the purchaser's scrap yard/store as directed by BHEL from time to time within the plant boundary.
48.14	Site welding & heat treatment. Welding shall be done in accordance with IS-813, IS-816, IS-9595 & other relevant IS/ International standards. Only those welders, who are qualified as per IS-817 for ordinary welds and as per IBR/ASME Section-IX for high pressure welds, shall be employed in job. All welders shall be tested and approved by Engineer before they are actually engaged on the work even though they may possess the requisite certificates. BHEL reserves the right to reject any welder without assigning any reason. The welder identification code as approved by the Engineer shall be stamped by the welder on each joint done by them. The contractor will be responsible for the periodic renewal, re-testing of the welders as demanded by BHEL. The Engineer is entitled to stop contractor's any welder from his work. If his work is unsatisfactory for any technical reason or there is a high percentage of the rejection of joints welded by him, which in the opinion of Engineer will adversely affect the quality of welding even though the welder has earlier passed the tests. The welders having passed the tests do not relieve the contractor from his contractual obligations, to check the performance of the welders. All charges for testing of welders including destructive and non-destructive tests if conducted by BHEL or by the inspection authority at site shall have to be borne by the contractor. The necessary test materials and consumables will have to be arranged by the contractor and all testing facility made available, as required. All welded joints shall be subject to acceptance by Engineer Inspection of welds shall be in accordance with IS-822 or equivalent code. Preheating/postheating and stress relieving after welding are part of fabrication and erection work and shall be performed by the contractor in accordance with the instruction of Engineer. Unless otherwise specified, contractor shall arrange to supply heating equipment with automatic recording devices. Also the contractor shall have to arrange for the labour, heating elements, thermocouples, compensating cables, isolations materials like mineral wools, asbestos cloth, ceramic bricks, asbestos rope, etc. required for the heat-treatment and stress relieving hours. During pre-heat/stress relieving operation, the temperature shall be measured at one or more points as required by attaching thermocouples and recorded on a continuous printing type recorder. All the record graphs for the heat treatment works carried out shall be got signed by the Engineer prior to the commencement of each cycle and handed over to Engineer on completion. The graphs will be the property of BHEL. Also, the contractor has to provide thermo-chalks temperature recorders, thermocouple

	attachments, units, graph sheets etc, required for the job & maintain them in good condition. All electrodes shall be backed and dried in the electric/ electrode drying oven to the required temperature and for the period specified by the Engineer before they are used in erection work. The electrodes used shall be as per IS-814, IS-815, IS-1442, IS-9200 and other codes as applicable, and shall be of approved by reputed manufacture. The electrodes shall meet the requirement of the pipe materials. No electrodes manufactured more than 12 months ago and the type covered under certificate issued after conducting tests more than 6 months ago shall be used. All electrodes shall be preserved at works and at site as per manufacturer's recommendations. Oxy-acetylene flame or Exo-thermic chemical heating for stress relieving is not permitted. Heating shall be by means, of electric induction coil or electric resistance coil. It may become necessary to adopt inter layer radiography /MPT/UT depending upon the site/technical requirement interruptions in continuation of the work and making necessary arrangement for carrying out the above work. Gas tungsten arc welding process (TIG) shall be adopted for all root pass welds except for structural works until 4.75 mm thickness is deposited. Subsequent welding after root pass can be carried out by manual metal arc welding with coated electrodes. For pipes of thickness less than 6 mm the entire welding has to be carried out by TIG welding. Fillet weld shall be made by shielded metal arc process as per applicable codes. However, the Engineer will have the option of changing the method of welding as per site requirement. The method adopted for manual arc welding shall be weaving technique are the width of weaving shall not exceed 1.5 times of the diameter of the electrode. In case of deviation from welding process and electrodes, the Contractor shall take approval of BHEL prior to adoption of same. The root pass for butt joints shall be such as to achieve full penetration with complete fusion of root edges. Each pass shall be cleared and freed of slag before the next pass is deposited. On completion of each run, craters, weld irregularities, slag etc shall be removed by grinding or chipping. Each layer of welding shall have an even and smooth appearance. Welding sequence shall be adjusted in such a way that distortion due to welding shrinkage is minimised. Further any movement, shock or vibration during welding shall be avoided to prevent weld cracks. Proper protection of welders and the work shall be taken during periods of rain. No welding shall be carried out when surface to be welded are wet from any cause. Following will be stages of inspection during welding:
48.14.1	Two pieces to be joined shall be individually checked for the weld edge preparation and profile dimensionally and to the template. Dye penetrant check shall be carried out on edge prepared surfaces at random. The percentage will depend on criticality as specified by Engineer.
48.14.2	Joint fit up will be a stage of inspection. Misalignment after fit up may vary from 0.3 mm to 1.6 mm depending on outside diameter and thickness.
48.14.3	All joints shall be offered for visual inspection after root run. Subsequent welding should be made only after the approval of root run. All welded joints shall be painted with anti corrosive paint immediately on completion of radiography and stress relieving.
49.0	INSPECTION / QUALITY ASSURANCE/QUALITY CONTROL
49.1	The work covered under the specification shall be subject to stage wise inspection by BHEL/ the purchaser.
49.2	The contractor has to follow BHEL FQA checklists / Quality plan/ other documents, pertaining to the work covered under the specification, as per instruction of the Engineer.
49.3	Protocols between the contractor and BHEL/Purchaser shall be made by the contractor as per requirement of BHEL/ Purchaser. Preparation of quality assurance log sheets and other quality control and quality assurance documentation as per instruction of the Engineer is within scope of the contractor.

49.4	A daily log book shall be maintained by every supervisor /engineer of the contractor on the job in duplicate (one for BHEL and one for the contractor) for detailing and incorporating various inspection details. All important measurements shall be recorded in the daily log book with sketches based on drawings indicating readings /measurements actually taken and signed by BHEL's / purchaser's /contractor's representative. The contractor shall adopt suitable quality assurance programme to control all activities pertaining to the scope of work, as necessary. Such programmes shall be outlined by the contractor and shall be finally accepted by BHEL/ purchaser. A quality assurance programme of the contractor shall generally cover the following:
49.4.1	Organisation structure and qualification data of key personal of the contractor for the management and implementation of the proposed assurance programme.
49.4.2	The procedure for source inspection, incoming raw material in section, verification of materials purchased etc.
49.4.3	System for maintenance of records.
49.4.5	General requirement – quality assurance
49.5.1	All materials, components & equipment covered under this specification shall be procured, manufactured, erected, commissioned and tested, as applicable, at all the stages, as per a comprehensive Quality Assurance Programme. An indicative programme of inspection / tests to be carried out by the contractor for some of the major items is given in the respective technical specification.
49.5.2	Field Quality Plans will detail out the quality practices and procedures etc to be followed by the contractor's Site Quality Control organisation, during various stages of site activities from receipt of materials / equipments at site.
49.5.3	Castings and forgings used for construction shall be of tested quality. Details of results of chemical analysis, mechanical property test results, as necessary, shall be furnished.
49.5.4	All welding shall be carried out as per procedure drawn and qualified in accordance with requirements of ASMC. Section IX/BS-4870 or other International equivalent standard acceptable to the purchaser / BHEL. All welders etc employed on any part of the contract at contractor's works or at site shall be qualified as per ASME Section IX or BS-4871 or equivalent international standard approved by the purchaser/ BHEL. Such qualification tests shall be conducted in presence of purchase's /BHEL's authorised representative.
49.5.5	All non destructive examination (NDT) shall be carried out in accordance with approved international standard. The NDT operator shall be qualified as per SNT-TC-IA (of American Society of non destructive examination). Results of NDT shall be properly recorded and submitted for approval.
49.5.6	All the purchase specifications for the major bought out items test of which shall be drawn up by the contractor and finalized with the purchaser/BHEL shall be furnished to the Purchaser/BHEL for comment and subsequent approval before orders are placed.
49.5.7	Purchaser /BHEL reserves the right to carryout quality audit and quality surveillance of the system and procedures of the contractor's quality management and control activities. The contractor shall provide all necessary assistance to enable the purchaser/BHEL to carryout such audit and surveillance.
49.5.8	Quality audit /approval of the results of tests and inspection will not prejudice the right of the purchaser /BHEL to reject an equipment / service not giving the desired performance and shall not in no way limit the liabilities and responsibilities of the contractor in earning satisfactory performance of equipment/ service as per specification.
49.5.9	Repair /rectification procedures to be adopted to make any job and acceptable shall be subject to the approval of the purchaser / BHEL.
49.6	It is further clarified to Cl. No. 10.6.VI of General Conditions of Contract – Instructions to Tenderers that the prime bidder in the Consortium Arrangement shall mean the bidder as applicable in terms of relevant clauses of GCC (definition of terms).
50.0	OCCUPATIONAL HEALTH, SAFETY & ENVIRONMENT MANAGEMENT/ QUALITY ASSURANCE PROGRAMME BHEL, Power Sector (ER) is ISO 9001:2000 certified company. Quality of work to customer's satisfaction and fulfillment of system requirements are the essence of ISO 9001 certification. BHEL, PSER is having HSE certification (ISO 14001 & OHSAS 18001) also Contractor will organise/ plan/ perform all their activities to meet with the applicable requirements of these standards.

Safety officer will have authority to stop any activity, in case he observes that the activity is not being carried out in safe manner. He will conduct surprise inspection as well as periodic inspection/drill (at least once in a month) and submit such reports to BHEL. He will conduct periodic meetings with supervisors of different working groups and explain HSE issues and use of PPEs to them. Reports of such meetings will be submitted to BHEL. Contractor will develop suitable work procedures based upon HSE guidelines and OCPs and implement it. Such work procedures will consist of Area of work, T&P Details, Work Procedure, PPE requirements etc.
50.1.2	The contractor shall ensure that proper job specific health check-up is done by medical professional for their employees during initial mobilization and thereafter if there is any change of job.
50.1.3	Following personnel protective equipments (PPEs), in adequate numbers, will be made available at site & their regular use by all concerned will be ensured :- - HELMET - SAFETY GOGGLES & WELDING FACE SHIELDS - SAFETY BELTS AND PROTECTIVE NET FOR WORKING AT HEIGHT - SAFETY SHOES - EAR PLUG - ANY OTHER SAFETY EQUIPMENT REQUIRED FOR SAFE COMPLETION OF THE WORK
50.1.4	Providing appropriate first aid facilities for prompt treatment of injuries and illness at work place. Arranging training to contractor workmen/ employees for giving first aid.
50.1.5	Arranging ambulance in case of any emergency situation .
50.1.6	Identification of nearest hospital and health check-up of workmen/employees
50.1.7	Providing filtered drinking water at work place in cool container.
50.1.8	Providing Canteen, Rest Room, Washing facilities to the contracted employees as per provisions of Contract Labour Regulation Act 1970 (Chapter V).
50.1.9	Providing appropriate fire fighting equipment at designated work place and nominate a fire officer/warden adequately trained for his job.
50.1.10	Identification of nearest fire station and display contact telephone nos. / person's name around work places for cases of emergencies .
50.1.11	Providing adequate no. of 24 V sources and ensure that no hand lamps are operating at voltage level above 24 Volts.
50.1.12	Fulfilling safety requirements at all power tapping points.
50.1.13	Red & White caution tape of proper width(1.5 to 2 inch) to be used for cordoning unsafe area such as open trench, excavation area etc.
50.1.14	Providing contractors company logo on cloths /uniform/ proper identity cards with photographs, for correct identification of people working at project site .
50.1.15	High/ Low pressure welders to be identified with separate colour clothings. No welders will be deployed without passing appropriate tests and holding valid welding certificates. Approved welding procedure should be displayed at work place.
50.1.16	Displaying safe handling procedures for all chemicals such as lube oil, acid, alkali, sealing compounds etc , at work place .
50.1.17	All scaffolding/ platforms should be made from materials of appropriate quality/grade so that these are safe for use. It should be certified/declared safe for use by an experienced contractor person, before any scaffolding/platform is used.
50.1.18	All T&Ps/ IMTEs should be of reputed brand/appropriate quality & must have valid test/calibration certificates bearing endorsement from competent authority of BHEL.
50.1.19	Ensure that the regulatory requirement of excessive weight limit (to carry/lift/ move weights beyond prescribed limits) for male and female workers are complied with.

50.2	SAFETY AND CLEANLINESS The contractor shall take all necessary safety precautions and arrange for appropriate appliances as per discretion of BHEL or its authorised officials (Site Construction Manager) to prevent loss of human lives, injuries, to personnel engaged and damage to property. Before commencing the work, the contractor shall submit a "Safety Plan" to the above authorised BHEL official and obtain approval on the same. The safety plan shall indicate in detail the measures that would be taken by the contractor to ensure safety of men, equipment, materials and environment during execution of the work. This will also include an organization structure, role and responsibilities of the concerned key personnel, the safety practices that will be followed, PPEs deployed, plan for handling critical activities and emergencies.
50.3	If the contractor fails to take appropriate safety precautions or to provide necessary safety devices and equipment or to carry out instructions issued by the authorised BHEL official, BHEL shall have the right to take corrective steps at the risk and cost of the contractor.
50.4	During the course of construction, alternation or repairs, scrap with protruding nail, sharp edge etc and all other debris shall be kept clean from working areas, passage, ways and stairs in and around site.
50.5	Combustible scrap and debris shall be removed at regular intervals during the course of execution. Safe means shall be provided to facilitate such removal. The combustible scrap should be stored in safe place away from the plant materials to avoid fire accidents. The area shall be chosen in consultation with the Engineer and to be cordoned off.
50.6	Rigging equipment for materials handling shall be inspected prior to use in each shift and as necessary during its use to ensure that it is safe. Defective rigging equipment will be removed from service.
50.7	Rigging equipment shall not be loaded in excess of its recommended safe working load. Rigging equipment, when not in use, shall be removed from the original work area so as not to present a hazard to employees.
50.8	Contractor shall notify the engineer, of his intention to bring on to site any equipment or any container, with liquid or gaseous fuel or other substance which may create a hazard. The Engineer shall have the right to prescribe the condition under which such equipment or container may be handled and used during the performance of the works and the contractor shall strictly adhere to such instructions. The Engineer shall have the right to inspect any construction tool and to forbid its use, if in his opinion it is unsafe. No claim due to such prohibition will be entertained.
50.9	Where it is necessary to provide and/or store petroleum products or petroleum mixture & explosives, the contractor shall be responsible for carrying out such provision / storage in accordance with the rules & regulations laid down in the relevant petroleum act, explosive act and petroleum and carbide of calcium manual, published by the chief inspector of explosives of India. All such storage shall have prior approval if necessary from the chief inspector of explosives or any other statutory authority. The contractor shall be responsible for obtaining the same.
50.10	Cylinders shall be moved by tilting and rolling them on their bottom edges. They shall not be intentionally dragged, struck or permitted to strike each other violently.
50.11	When cylinders are transported by powered vehicle they shall be secured in a vertical position.
50.12	All workmen of the contractor working on construction area shall wear safety shoes, hand gloves, safety helmets and safety belt as applicable. The contractor shall provide to its workforce and ensure the use of following personnel protective equipment as found necessary and as directed by BHEL.

VOLUME-ID, R-0	SPECIAL CONDITIONS OF CONTRACT (SERVICE)	PAGE 2 OF 26

This volume shall be construed as part of tender document and shall be read along-with other volumes of tender. Unless otherwise specified, in case of any confusion of any clause/ provision of this volume or any conflict/ inconsistency of any clause/ provision of this volume with that of other volumes, the same shall be brought out by the bidder in writing to BHEL for clarification or during pre-bid discussions, if applicable, failing which most stringent interpretation in favour of BHEL shall be adopted and the same shall be binding to the bidder. Unless otherwise specified, all terms & conditions shall be applicable for entire scope and for each part/ package of tender.

CLAUSE NO	DESCRIPTION
1.0	NAME OF JOB Total scope broadly covers receipt, unloading, storage & handling at site, erection, commissioning, final painting at site, trial run handing over, etc. in line with drawings/ documents/ test procedures approved by BHEL/ customer, for the total scope defined in the technical specification and terms & conditions of tender, taking into account all clarifications, confirmations and agreements till date for STATION LIGHTING SYSTEM package complete with all accessories for 2x660 MW Maitree Super Thermal Power Project, Rampal, Bangladesh.
2.0	BROAD SCOPE OF WORK
2.1	The intent of this erection & commissioning specification is to provide services for execution of the project according to most modern and proven techniques and codes. The omission of specific reference to any method, equipment or material necessary for the proper and efficient services towards installation of the plant shall not relieve the successful bidder of the responsibility of providing such services/ facilities to complete the work or portion of work awarded to him. The quoted/ accepted rates/ price shall deem to be inclusive of all such contingencies.
2.2	The work to be carried out under scope of this specification covers complete work of handling including receipt from stores/ yard located within project premises, arranging their issue, transportation to site, temporary storage prior to erection, if required, cleaning, preservative painting, erection, alignment, welding, leveling, adjustment etc all pre-commissioning tests, start-up & trial run of individual equipment, final commissioning including supply of erection & commissioning spares as required till handing over, trial run & handing over of units to BHEL/ customer including performance & guarantee (PG) test of unit, reconciliation of materials issued to successful bidder & returning unused materials to BHEL stores/ yard/ places designated by BHEL. The work shall conform to dimensions & tolerances given in various drawings & documents that will be provided during erection. If any portion of works is found to be defective in workmanship & not conforming to drawings/ documents or other stipulations, the successful bidder shall dismantle and redo the work duly replacing the defective materials at their own cost, failing which recoveries, as determined by BHEL, shall be effected from successful bidder's bills.
2.3	It is not the intent of this specification to specify herein all the details of erection and commissioning. However, the system shall conform in all respects to high standards of quality & workmanship for performing the required duties in a manner acceptable to purchaser who will interpret the meaning of drawings and specifications and shall be entitled to reject any work or material, which in his judgments is not in full accordance herewith.
2.4	Omission of specific reference to any fabrication/ erection method, equipment or material necessary for proper & efficient working of the plant shall not relieve the successful bidder of the responsibility to provide such facilities to complete the work at quoted rates. Any mismatch/ defect found due to mistake in fabrication/ erection shall have to be rectified by successful bidder free of cost. Inspection by BHEL/ customer does not relieve successful bidder of their responsibility of executing quality erection.
2.5	Cement and steel for civil work, if involved, shall be provided by BHEL free of any charges.
2.6	Following shall be the responsibility of successful bidder and have to be provided within finally accepted rates/ prices.
2.6.1	Provision as required of all types of labour, supervisors, engineers, watch and ward, tools & tackles, calibrated IMTEs (Inspection, measuring and testing equipment) as

Amish

	specified and otherwise required for the work, consumables for erection, testing and commissioning including material handling.
2.6.2	Proper out-turn as per BHEL plan and commitment.
2.6.3	Completion of work as per BHEL schedule.
2.6.4	Good quality and accurate workmanship for proper performance of the equipment.
2.6.5	Repair and rectification.
2.6.6	Preservation/ re-conservation of all components during storage/ erection/ commissioning till handing over.
2.7	Drawings/ documents submitted along with tender are for guidance purpose only and no claim/ compensation, whatsoever, shall be entertained by BHEL on this account.
2.8	CONSTRUCTION OF TEMPORARY OFFICE, STORES ETC The successful bidder shall arrange at his own cost the construction of his temporary office, stores, fabrication yards, labour colony etc. and also the watch & ward of all above.
3.0	SITE VISIT Bidder should visit site and acquire full knowledge & information about prevailing site conditions and in & around plant premises together with all the statutory, obligatory, mandatory requirements of various authorities before submission of the bid.
4.0	GENERAL TECHNICAL REQUIREMENTS (CODES AND STANDARDS)
4.1	Except where otherwise specified, the plant/ equipment shall comply with appropriate and agreed international Standard Specification as mentioned elsewhere in contract specifications, each incorporating the latest revisions at the time of tendering. Where no internationally accepted standard is applicable, the bidder shall give all particulars and details as necessary; to enable BHEL to identify all of the plant/equipment in the same detail as would be possible had there been a Standard Specification.
4.2	Where the bidder proposes alternative codes or standards, they shall include in their offer one copy (in English) of each Standard Specification to which materials offered shall comply. In such case, the adopted alternative standard shall be equivalent or superior to the standards mentioned in the tender.
4.3	In the event of any conflict between the codes & standards referred above, and the requirements of the tender, the requirements which are more stringent shall govern.
4.4	Tools used during erection and commissioning shall not be accepted except with the specific approval of the engineer.
4.5	Wherever specified or required the plant/ equipment shall conform to various Bangladesh statutory regulations wherever required, obtaining approval from statutory authorities for erection of plant/ equipment supplied under the specification shall be the responsibility of the successful bidder.
5.0	SERVICES TO BE RENDERED BY THE BIDDER Services for pre-assembly, equipment erection, testing as well as trial run & commissioning of various equipment & accessories under the contract shall include but not be limited to the following.
5.1	Unloading of materials at railway station/ transporter's godown/ railway siding/ inside or outside the project area, transportation to successful bidder's stores, assessment of lost/ damaged items in transit/ storage erection & commissioning, arranging the Insurance claims and replacement of lost/ damaged items. The successful bidder shall be responsible for making good the losses/ damages for cases for which BHEL is unable to lodge Insurance claim. BHEL is unable to recover the full cost from Insurance company against any claims, the balance including deductible franchise wherever applicable, will be recovered from the successful bidder.
5.2	Issuing materials from store/ open yard as specified earlier from time to time for erection as per the construction programme. The shall be the custodian of all the materials issued till the plant/equipment is officially taken over by the owner/ BHEL after complete erection any successful trial run & commissioning.
5.3	Transport of material to their respective places of erection and erection of the complete plant & equipment as supplied under this tender.
5.4	Trial run and commissioning of individual equipment/ sub-systems to the satisfaction of owner/ BHEL.
5.5	Deployment of all skilled and unskilled manpower required for erection, supervision
