NIC TENDER ID	2024_BHEL_38274_1 dated 22.07.2024
BHEL ENQUIRY NO	E5143099
TENDER DESCRIPTION	RATE CONTRACT FOR SUPPLY OF HS15250 COMMUTATOR ASSEMBLY
QUANTITY	200 No \pm 30% (Quantity Distribution on 2 Sources – 65:35)

With reference to the above TENDER, please note the following modifications:

PARTICULAR	Instead of	Read as
Clause No.15 of NIT TERMS & CONDITIONS	FIRM PRICE BASIS	<p>1. Price applicable will be with PVC, based on simple average of two fortnightly published Copper Cathode rates, i.e. Total value of Copper Cathode (arrived after clearing/ forwarding/ handling and carrying cost).</p> <p>2. FOR THE PURPOSE OF EVALUATION OF THE OFFERS RECEIVED: The average BME rate at point 1 above applicable for the month prior to the month of tender opening will be considered with PVC factor 1: Weight of Copper Contain in Component.</p> <p>If your offer will not as per point 2, your offer will not consider for further action/ordering.</p> <p>3. FOR THE PURPOSE OF PAYMENTS: PVC payable will be based on simple average of BME rates of copper cathode applicable for the month prior to the month of dispatch as per PO delivery.</p> <p>In case there is a delay in supply of material by the supplier, lower of the average rates applicable for the month prior to the month of PO delivery and the month of actual dispatch, will be considered.</p> <p>In case the delivery is earlier to PO delivery (if 'early delivery acceptable' is indicated in PO remarks), the average rate for the month prior to the actual month of dispatch will be applicable.</p> <p>4. PVC factor will be 1: Weight of Copper Content in the Item or Assembly (i.e. 1:145.5 for this tender)</p>
Due Date	02.08.2024 14:00 Hrs.	09.08.2024 14:00 Hrs.
