CSR Vision

A responsible corporate citizen working towards a better tomorrow

CSR Mission

To sincerely & effectively discharge company's responsibility in the identified CSR thrust areas and other areas listed out in the Companies Act, 2013

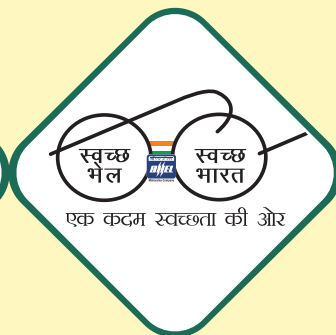

Vision to All BHEL's Call

Organ Donation

Sanitation for All

Swachh BHEL... Swachh Bharat...

Over the years Corporate Social Responsibility has gained unprecedented momentum in business and has become a strategic issue surpassing functional boundaries and affecting the way in which a company does business. The CSR vision of BHEL - 'A responsible corporate citizen working towards a better tomorrow' is very much in sync with the company's vision statement i.e. 'A global engineering enterprise providing solutions for a better tomorrow'. As a corporate entity, while being profitable in our business, we also have to work holistically to create value for the society around us and the country as a whole.

The effort by the CSR team of BHEL to bring out the CSR initiatives undertaken during the year in a compendium - 'CSR Prayas' is commendable. BHEL's engagement with the society is as important as sharing/ sensitizing our stakeholders with the benefits that such engagement accrues to the society.

We have done exceedingly well in our initiatives on the social front and we are steadily building up and carrying them forward with renewed strength and vigour. I have no doubt about the inherent potential of our stakeholders particularly our employees, business associates and customers to be partners in our march towards greater heights of prosperity and progress in all our nation-building endeavors.

The formulation of the company's CSR policy as per the Companies Act, 2013 and its subsequent approval by the Board by itself is a testimony of our commitment, learning and interpretation of the Act and its various other enactments including the CSR Rules, 2014 appropriately. In fact, it has helped us to bring about a systemic change in our approach to CSR. Based upon this, the Procedural Guidelines for implementation of CSR initiatives have also been framed. This process became all the easier for us as our company has been successfully implementing projects in various CSR thrust areas since its inception. The major thrust areas are Clean India; Educated India; Green India; Healthy India; Heritage India; Inclusive India; Responsible India; and Disaster Relief.

I once again congratulate the CSR team for their efforts in bringing out this compendium and am confident that they will make even greater efforts to uphold the CSR vision of BHEL and provide a better tomorrow to the citizens of India.

(D. Bandyopadhyay)
Director (HR)

BHEL's CSR POLICY STATEMENT

BHHEL, a global engineering enterprise providing solutions for a better tomorrow, is committed towards holistic welfare of the society by undertaking CSR activities within the ambit of Schedule-VII of the Companies Act, 2013, as amended from time to time. However, thrust areas for CSR activities will be:

- I. Clean India:**
Sanitation and making available Safe Drinking Water, Cleaning and preserving the Rivers, Clean surroundings, toilets in schools especially for girls;
- II. Educated India:**
Promoting education with thrust on informal education to reduce dropouts at primary school level, value education, digital education;
- III. Green India:**
Ensuring environmental sustainability with emphasis on projects based on Solar Energy;
- IV. Healthy India:**
Promoting health care including preventive health care and sports;
- V. Heritage India:**
Protection of national heritage, art and culture;
- VI. Inclusive India:**
Mitigation of hunger and poverty through livelihood promotion/augmenting income generation, Imparting vocational skills;
- VII. Responsible India:**
Women Empowerment, Setting up Old Age homes, Day Care Centre and such other facilities for senior citizens, Rural Development Projects and Slum Development Projects;

In the above thrust areas priority will be given to underprivileged, neglected and weaker sections of the society. The company shall give preference to the local areas for spending at least 75% of the amount earmarked for CSR activities. The remaining amount may be utilised beyond local areas. However, contribution made to the Central Government Schemes, where defining the area as well as the scope is not possible for the company, will be excluded while arriving at the 75:25 ratio.

It is desirable that CSR initiatives should be taken up in project mode, to the extent possible. However, it shall exclude any contribution made to the Central Government Schemes. Periodic review of this policy shall be done to ensure its continued suitability, adequacy and efficacy.

ISG Bangalore

Responsible India

Corporate aligned CSR Project - Financial support for construction of bridge across the canal at Makalli to Horokyathanahalli Road, Dasanapura , Bangalore North: BHEL signed an MoU with Panchayathi Raj Engineering Division under the aegis of Dy. Commissioner & District Magistrate, Bangalore Urban District, Govt of Karnataka for implementing the CSR Project - Financial Support for construction of bridge across the canal at Makalli to Horokyathanahalli Road, Dasanapura, Bangalore Urban District, Karnataka under BHEL's Golden Jubilee CSR Project Initiatives.

Inmates of New Ark Mission of India - Home of Hope (NGO)

The MoU was signed by Shri V. Shankar, I.A.S, Dy. Commissioner & District Magistrate, Bangalore Urban District, Govt. of Karnataka and Shri R Raghavan, the then GM / I/C, BHEL, Industrial Systems Group (ISG), Bangalore on 11th March 2015 at the Office of the Dy. Commissioner & District Magistrate, Bangalore Urban District.

The construction of the bridge across the canal at Makalli to Horokyathanahalli Road, Dasanapura Gram Panchayat, Bangalore North Taluk. under the CSR initiatives will ensure the connectivity to the main Road for villages of Horokyathanahalli, Kodipalya, Venkatappanapalya and some of the newly formed residential layouts and logistic godowns. Besides, this bridge will mitigate the transportation problems faced by the school, office, market goers of the vicinity during the rainy seasons.

Cots provided to New Ark Mission of India - Home of Hope (NGO)

Support towards providing two-tier cots to New Ark Mission of India - Home of Hope (NGO) under CSR: As part of its CSR initiatives for the year 2014-15, ISG extended support to New Ark Mission of India Home of Hope, Doddaguppi Village, KRC Road, Bangalore by providing 24 Nos. of two - tier cots for the benefit of their inmates.

Shri V.C. Krishnan, ED (ISG) handed over the cots on 16th July 2015 at a brief function organized in their premises. 48 inmates will be benefited in a day through this support provided by BHEL - ISG. Notably, Shri T. Raja, Founder Secretary is the winner of CNN - IBN 2010 Real Hero award winner.

Financial support for the construction of one side of Kambala Stadium Gallery at Miyar, Karkala, Udupi District, Karnataka: Under its Corporate aligned Golden Jubilee CSR projects initiatives, BHEL provided financial support for construction of one side of Kambala Stadium Gallery at Miyar, Karkala, Udupi District. The project is almost completed as per the schedule/ milestone of activities.

An MoU to the effect was signed between the Dy. Commissioner Office, Udupi District. Dr. Muddu Mohan, I A.S, Dy. Commissioner & District Magistrate (Chairman, Nirmithi Kendra), Udupi and Shri B K R Patnaik, Addl. General Manager (HR), BHEL, Industrial System Group, Bangalore.

Nirmithi Kendra, Udupi is the agency from Karnataka State Govt. for construction works in respect of this CSR Project. This CSR initiative to provide the gallery at Miyar, Karkala, Udupi District will boost the local sports Kabala - Buffalo Race which is held in the locality since the ancient times. Total cost of the Project is Rs. 25 Lakhs.

EPD Bangalore

Clean India

A Girl's Toilet building comprising three numbers of toilets have been constructed at Govt. High School, Ramanagar, Karnataka under BHEL – EPD's CSR Project initiatives - CSR thrust area 'Clean India'.

Girls Toilet constructed at Govt. High School, Ramanagar

Healthy India

Free Medical Camps Organised during 2014-15: Under the 'Healthy India' thrust area of CSR Projects, three free Medical Camps have been organized at Hosapalya, Honnalaganadoddi and Bhaktaralli during the year 2014-15. A total of 944 poor people comprising men, women and children of these villages were benefitted.

Doctors examining patients at Hosapalya

Inclusive India

Shri G.M. Siddeshwara, Hon'ble Minister of State for Heavy Industries & Public Enterprises, Govt. of India inaugurated RO Water Plants set up by BHEL-EPD

Shri G.M.Siddeshwara, Hon'ble Minister of State for Heavy Industries & Public Enterprises, Govt. of India inaugurating RO Plants

under its CSR project initiatives at Musturu, Siddihalli and Moodal Machikere villages of Davanagere District of Karnataka state on 5th July 2015. The function was also graced by Shri D. Bandyopadhyay, the then ED (HR & CC), BHEL, presently, Director (HR), BHEL and Shri S. Sabapathy, ED (CBU), Bangalore.

Shri G.M.Siddeshwara, Hon'ble Minister of State for Heavy Industries & Public Enterprises, Govt. of India unveiling the plaque to inaugurate the RO Plants

The water in the above villages have excessive fluoride content and therefore, was not suitable for drinking or cooking purposes. Hence, installation of the RO plants by BHEL-EPD, Bangalore will immensely benefit the villagers who will now have pure water that will fulfil their drinking and cooking needs.

Speaking on the occasion, Hon'ble Minister Shri Siddeshwara appreciated BHEL CSR efforts for uplifting/improving the living conditions of poor people and in particular, the people of these villages.

Under CSR thrust area 'Inclusive India', EPD provided Boarding & Lodging facilities to intellectually disabled Children during the data entry training imparted to them at AMBA Foundation in Bangalore.

EPD Bangalore

Responsible India

BHEL-Electroporcelains Division (EPD), Bengaluru constructed Anganawadi Centre Building, Kumbalagodu Post, Kengeri Hobli, Bengaluru South

Shri R. Krishnan, the then Director (HR), BHEL inaugurating Anganawadi Centre at Hosapalya

District under CSR project initiatives of the unit for the benefit of poor children. This Anganawadi enables the working women to leave their children in the care of the centre to earn their livelihood. This facility will also be available for the large migrant labour population in the village and its neighborhood.

The Anganwadi consists of a Hall, Kitchen, Wash Room, drinking water with underground and overhead water tank storage facility, a small Garden, play area and a walled Compound for the safety of children.

The Anganawadi Centre was inaugurated by Shri R. Krishnan, the then Director (HR), BHEL on 21st July

Anganawadi Centre at Hosapalya

A view of Anganawadi children with the then Director (HR), ED(CBU) & GM (EPD) at Hosapalya

2015 in the presence of Shri S. Raj Sabapathy, Executive Director (CBU) and Shri R. Sriram, General Manager (EPD) and EPD, CSR Committee members, Trade Union and other Association representatives.

The elected representatives of Kumbalagodu Village Panchayat. Officials of Women and Child Development Department, Govt. of Karnataka and the residents of Hosapalya and surrounding villages were present during the function. The residents expressed their appreciation and gratitude to BHEL for providing this wonderful Anganawadi.

Doctors examining patients at Hosapalya

Children who used to overcrowd in a single room accommodation without adequate ventilation and lighting were overjoyed with this new facility. This is the third Anganawadi centre built by BHEL, EPD in Karnataka and each one of them are a model and bench mark by themselves.

IVP Goindwal

Clean India

In addition to the seating provisions made for schools, BHEL, Industrial Valves Plant (IVP), Goindwal unit further ventured to help a school with clean drinking water facility by providing them with 4 sets of water coolers along with UV based water filters.

Water coolers with UV-based filters in school for under-privileged children

This support would ensure that children have access to clean and cold drinking water in their school premises. Most of these schools are operating with mid-day meal scheme and providing clean drinking water is an added advantage for improving the overall health and hygiene of the children.

Educated India

IVP took upon the challenge of improving the school dropout rate in the elementary schools of the region by focusing on the basic amenities available in the schools. Four Schools were identified which lacked basic seating

Infrastructure support (sitting benches) for schools

facilities for the kids (aged between 8-12 years). IVP provided 230 twin seating benches in these schools. It was very much appreciated by the happy looking children who had no alternative but to sit on dusty rugs on the floor during hot summers and chilling winters. The benches were designed/custom built with the elementary school children in mind.

Green India

Under this head around 200 saplings were planted in two schools. Shri A.V. Krishnan, ED, BHEL-Trichy launched the tree plantation drive on 18.09.2014 in the presence of officials and employees of IVP-Goindwal, teachers and children of the schools.

Launch of tree plantation drive by Shri A.V. Krishnan, the then ED (Trichy)

Healthy India

Another area of concern in these rural schools is lack of playground equipment due to which children played in the dirt and, therefore, the element of fun was missing in them. IVP unit looked into this issue and supplied some sturdy playground equipment to these schools.

After carrying out an assessment, 5 playgrounds were identified where swings, see saws, merry-go-rounds, climbing ladders, and slides were installed.

As per feedback received from Heads of these schools there has been a significant reduction in drop outs and there is an increase in admission rate to these schools as compared to previous years.

IVP Goindwal

Infrastructure support (playground equipment) for rural school

were selected for this project. The then Director (HR), Shri R. Krishnan inaugurated the SPV Power Plant at Akal Academy, Dadehar Sahib on 28/07/2014.

The SPV at second academy was also commissioned in March 2015.

IVP teamed up with local Red Cross Society in providing 50 Tri Cycles and 4 Wheel chairs for making life a bit easier for differently-abled people.

Responsible India

As part of Corporate aligned CSR project initiatives, IVP was provided with a CSR project for installation of 2 Nos. of 30 kW Grid Interactive Solar Photovoltaic (SPV) Power Plant in two rural schools run by an NGO named Kalgidhar Trust, Baru Sahib.

Tri-cycles for Differently-abled

Tri-cycles for Differently-abled

Red Cross is taking similar initiatives every year for differently-abled persons and supporting the needy with sewing machines with a view to making them self-employed. Apart from these, IVP supported the Red Cross with 4 nos. stretchers for their medical assistance/initiatives.

The NGO is running schools by the name of Akal Academy in various rural areas of Punjab providing moral and spiritual education to the children for making them good citizens.

Two of their academies which were in the vicinity of IVP Goindwal i.e. at Dadehar Sahib and Teja Singh Wala

Infrastructure support (sitting benches) for schools

HEEP Haridwar

Clean India

Construction of Bio-digester Toilet Cluster with Clean drinking water facility: BHEL under its CSR initiative signed an agreement with FICCI to construct 25 clusters of Bio-digester toilets along the Ganga River from Haridwar upto Rishikesh.

Girls Toilet constructed for Rashtriya Inter College, Aurangabad (Haridwar)

These toilets, based on the DRDO technology, will help reduce the problems of sanitation due to human waste. Under this initiative, clean filtered drinking water will also be available to the public at all these locations.

Construction of Girls toilet at Rashtriya Inter College Aurangabad : At Rashtriya Inter college Aurangabad, two numbers of girls toilets were constructed. The project handed over to the College authorities.

Educated India

Educational Fellowship support to 100 girl students from weaker Socio-economic background: Educational Fellowship support to 100 girl students from weaker socio-economic background over a period of six(6) years in Hardwar, Uttarakhand through the specialized agency /NGO named "Udayan Care". An agreement to this effect was signed between BHEL-Hardwar and

Educational Fellowship support to girl students from weaker Socio-economic background

Udayan Care in October, 2012 to carry forward this initiative for six years. 100 girls have been selected under this program after undergoing a detailed process of qualification/ selection for scholarship support to the girl children up to post-graduation level.

Agastya Mobile Science lab: A mobile science lab was launched on 22.07.2015 by ED, BHEL-Haridwar, Shri Prakash Chand. This mobile lab (van) will be run through M/s Agastya International Foundation, Bangalore. The objective of this initiative is to generate curiosity and interest in science for the students from class VI to class X of schools that primarily have children from economically weaker sections (EWS) of the society.

The van is equipped with various science models by the help of which it will be easier to make the children understand the concept of science. The mobile science lab will cover nearby schools in the vicinity of BHEL-Haridwar and will run for a period of 3 years.

Launch of Mobile Science Lab (MSL) for school children of nearby villages

Furniture distribution to govt. primary schools in Haridwar: BHEL-Haridwar, under its CSR project initiatives, distributed 590 sets of wooden tables and chairs to five govt. schools in the adopted villages .

Green India

Provision of LED Street light at Har Ki Pauri area: BHEL contributed to the beautification drive of Har Ki Pauri, Haridwar under its CSR support initiatives. With the help of local administration, BHEL-Haridwar replaced old lighting systems with LED lights at Har Ki Pauri. Installation of LED lights will not only provide brighter lighting in the area but will also result in saving significant amount of electricity.

Solar Street light project in adopted village Hetampur and Gujjar Basti: To provide good lighting facility on

HEEP Haridwar

Inauguration of Solar Street Light

the streets for the people of two adopted villages in Haridwar, a total of 65 nos. of solar street lights have been installed.

Healthy India

Mobile Medical Van Program with the help of PHD Rural Development Foundation : Giving emphasis to the general health of people around BHEL-Hardwar, the unit's CSR group identified a project for providing medical help to the rural poor and slum dwellers around BHEL-Hardwar in alliance with the NGO named 'PHD Rural Development Foundation. The Project started in Feb, 2013 and will be completed by Jan, 2016.

Inauguration of Physiotherapy Hall

The project aims to provide preventive, clinical and diagnostic medical care to the rural people and slum dwellers of Hardwar and its nearby areas, to act as a pathological lab for spot diagnosis of the diseases, to provide education against drug abuse and to create awareness among community youth and representatives of industrial houses in family planning activity, prevention of HIV/AIDS, nutrition, sanitation, reproductive and child health, female feticide, etc.

PHD foundation covered many villages of Hardwar and collected detailed information on health care by

interviewing important and active persons of those villages. The findings of this survey was that the 'main occupation of the villagers is daily wage earning at different places. They are just hand to mouth without any sustainable avenues of earning/livelihood generation facilities in their lives. These villagers are economically and socially under-developed and, therefore, cannot afford for their health management/ medical needs on their own.

In progress construction of Ganga Prem Hospice

Inclusive India

Financial support for Ganga Prem Hospice: BHEL-Haridwar, is partnering with M/s Shradha Cancer Care Trust for construction of a 30-bed Hospice named Ganga Prem Hospice in Rishikesh which will provide free of charge inpatient medical care for terminally ill cancer Patients.

This Project started in Jan 2014 and will be completed by Jul 2016. Ganga Prem Hospice will serve an estimated 200+ long & short stay terminally ill cancer patients in a year .Out inpatients beneficiaries are estimated at 5500 per year at its full capacity. A team of health care professionals and volunteers will provide medical, psychological, and spiritual resources to the cancer patients. Ganga Prem Hospice will function in a peaceful place in Rishikesh, with a picturesque view of the surrounding hills, giving in-patients the physical comfort and security of a palliative care facility.

Responsible India

Construction of Physiotherapy Hall for Old Age People in Shivalik Nagar: Physiotherapy Centre built by BHEL-Haridwar under CSR at Shivalik Nagar is being used by old age people of the area. The average patients per day are between 45 to 50.

HPEP Hyderabad

Clean India

2 nos. RO Plants set up on Pilot basis in Nalgonda District through RAMKY Foundation and providing one water can per family to carry treated drinking water. By this endeavour, around 750 families have been benefitted. Installed RO plant for drinking water in Pati Village and Development of Dump Yard in the village as a park. Around 2000 persons from the village would benefit from this drinking water project and development of the park. Constructed Public toilets in Wednesday and Saturday market areas of Township. Hundreds of vendors and the general public benefitted from this project who otherwise would have defecated the open places.

RO Plant at Nalgonda District

Constructed of toilet blocks for boys and Girls in ZPH School in Malkapur, Thogarpally, Kondapur Mandal, Medak Dist., Telangana. Around 1000 students and 30 teachers in various classes of the school would benefit from the project.

Provided Drinking water facilities in School Premises of villages Dharmavaram, Palapadu, Vepakampalli, Koppunuru, Gottipalla of Guntur District. Around 5500 villagers including students & teachers would benefit from the project.

Educated India

Constructed 4 nos. of additional Class rooms, Toilets and approach path in ZPH School Serilingampalli. Around 1040 students in various classes of the school would benefit from the project.

Adolescent counselling and career guidance centre in BHEL Township by Urivi Vikram Charitable Trust. Around 1000 students, equal number of parents and more than 200 teachers in various schools around BHEL

Hyderabad have benefitted from the project. Individual counselling services and Parent-Teacher workshops were conducted to create awareness on adolescent issues and career guidance was provided for the needy students. Life skill coaching was also provided in 10 batches for about 300 students.

Support for Govt. Degree College for Women, Sangareddy - Constructed 4 nos. of additional class rooms and furniture. Around 500 girl students would benefit from the project.

Support for Mandal Upper Primary School, Madinaguda - Modification of 3 nos. existing class rooms, construction of 2 nos. of additional class rooms and providing furniture. Around 400 students and 12 teachers would benefit from the project.

ITI Adoption under PPP - 73 students of ITI Latur have undergone apprentice training in HPEP, Hyderabad during the year 2014-15.

Provided furniture for students and teachers in villages of Ananthasagar, Hogarpally, Kondapur Mandal and Medak of Telangana District. Around 700 students and 10 teachers of the School from various classes would benefit from the project.

Constructed 12 additional class rooms with RCC structure in ZPH School of villages Thogarpally, Malkapur, Anant Sagar, Kondapur Mandal and Medak of Telangana District.

Responsible India

Providing spares and repairs for running of Toy Train Services (Train donated by BHEL in 80's) in Nehru Zoological Park Hyderabad. Thousands of visitors are benefitting from the project. Also, this would help in reducing the number of private vehicles used by the people for visiting various places within the zoo park, thereby contributing to significant reduction in air pollution.

Refurbished Toy Train at Nehru Zoological park

PPPU Thirumayam

Educated India

Construction of Classroom at Panchayat Union Primary School, Neduvasal : Power Plant Piping Unit (PPPU), Thirumayam constructed a Classroom building for Panchayat Union Primary School at Neduvasal, Pudukkottai District, Tamil Nadu under its Corporate Social Responsibility programme. The building will be utilized as Language Laboratory for the school. The total project cost is around Rs. Eight Lakh.

Inauguration of Classroom at Panchayat Union Primary School, Neduvasal

The function to hand over the building was presided over by the Hon'ble MLA (Alangudi), Shri Krishnan who unveiled the commemorative plaque at the newly constructed building. The same was followed by ribbon cutting and handing over of the classroom building by Shri S. Gopinath, Executive Director, BHEL-PPPU, Thirumayam and Piping Center, Chennai.

While delivering his keynote address, Shri S. Gopinath apprised the gathering about BHEL's policy with regard to CSR and the CSR initiatives undertaken by the company in Pudukkottai and across the country. He assured that BHEL is committed to the cause of

Hon'ble MLA (Alangudi), Shri Krishnan and BHEL officials at the inauguration function

promoting education and rural development which also forms a critical thrust area of its CSR policy.

On behalf of BHEL, GM (CMM & Q) / Convener of PEM CSR Committee and on behalf of JNU, Registrar (JNU) signed the MoU.

MoU with JNU for providing disabled-friendly AC bus

PS-NR Noida

Clean India

Awareness programmes on Climate Change and Clean Ganga mission are being held in 18 schools through IASRD. In the programs, the school students are encouraged to learn, understand and address the impacts of global warming and the efforts needed to stop them. The programme not only makes them aware but also encourages them to change their attitudes and behaviour for a more sustainable path in the future.

Healthy India

Eye checkup and cataract surgery camps were organised at nine (9) locations in and around NCR with a total OPD of around 1115 patients out of which 116 cataract surgeries were done. All expenditure for operations, food and stay of the patients at hospital, dark glasses and post-operative medicines were borne by BHEL without any cost to the patients.

Another Eye Checkup and cataract surgery camp were organised in Chuari & Tissa (H.P). The patients were screened by doctors for eye ailments and free medicines were also distributed to the needy. Also, patients with cataracts were operated at Rotary Eye Hospital, Maranda, Palampur, HP. All costs towards surgery, food, medicines, bus fare, etc were borne by BHEL. In all, a total OPD of 250 and 45 surgeries were done.

Educated India

To help children in getting clean drinking water, RO water purifiers are being installed in six (6) rural schools near the vicinity of PSNR sites as part of infrastructure development in schools through the NGO named TWI. These RO water purifiers work on dual energy source (solar and electric) and will help solve the problem of clean drinking water for the school children.

Responsible India

A Community based Rehabilitation programme for children having multiple disorders and differently-abled conducted with the help of DISHA (NGO) in the remote villages around Jaipur. The program will include training and other workshops, therapies for their rehabilitation. The three centres in Jaisingpura, Mahapura and Bhakrota have done more than 1200 interventions and over 170 patients benefitted from the endeavour. Beneficiaries included children with different disorders like cerebral palsy, autism, retardation (mental and physical), etc. DISHA is also trying to provide rehabilitation through home visits to those who are unable to come to the day centres for therapy.

PS-WR Nagpur

Clean India

Under the Clean India campaign, BHEL-PSWR has installed ten community-owned and operated Reverse Osmosis water treatment plants in 10 villages of Bhandara district, Maharashtra. The work has been executed through M/s Safe Water Network India.

S. No.	Station (Village Name)	No. of Households
1	Lakhni	2698
2	Sendurwafa	1798
3	Murmadi	1342
4	Rajegaon	538
5	Pimpalgaon	705
6	Kesalwada	747
7	Pohara	1103
8	Dharmapuri	236
9	Palandur	1006
10	Pindkepar	663

Safe water plant inauguration at Village: Lakhani, (Bhandara, Maharashtra)

Safe drinking water reduces waterborne diseases; improves the lives of women; increases attendance at schools, particularly of the girl children, who often have responsibility for fetching/collecting water; and improves the overall health and productivity of communities.

The project's foremost objective was to bring safe, affordable drinking water to the underserved rural communities in 10 villages of Bhandara district of Maharashtra by way of setting up of Safe Water Station equipped with Remote Monitoring System. The underlying purpose includes easy, reliable access to safe

Installed six RO water purifiers in six schools of Nagpur District

drinking water at affordable price to improve their health and reduce the incidence of waterborne diseases in the villages.

Setting up/support to schools at Nagpur district by providing safe drinking water facility: Under this project, BHEL-PSWR has installed RO water purifiers in the six Zilla Parishad schools of Nagpur District, Maharashtra. The work has been executed through M/s AGVSS, Amravati. The 6 Schools are located in: Kelwad, Isapur, Walni, Pipala, Khairi Dhalgaon & Bhendala villages of Nagpur district.

As a result of this project initiative by PSWR, the children now have safe, pure drinking water facility in their school premises itself. Earlier, the children had to depend on water supplied through Gram Panchayat water tanks which is not regularly chlorinated and the supply too was uncertain.

Healthy India

Cataract operation for 200 people through 'HelpAge India': Under this project, PSWR supported the Intra Ocular Lens (IOL) cataract surgeries for 200 underprivileged people from Nagpur and adjoining areas.

Organized a "multi specialty camp" in collaboration with hospital (Hanumant Hospital) in nearby villages of Pipavav Site (Gujarat): A multi-speciality Camp" in collaboration with Hanumant Hospital at Kovaya village in the vicinity of BHEL PSWR Pipavav site was organized. The event was planned to help the needy persons of this area to get free consultation, primary treatment at site and patients who required further

Yermaras Site constructed new toilets for a Govt. School nearby the site premises.

Monnet Site provided water facility to girls toilets in a school.

RO Plant for clean drinking water at Tuticorin Site

Educated India

With a view to improve infrastructure facilities of Schools and Childcare centers in the vicinity of project site, PSSR - Tuticorin constructed new class rooms, computer room, mid day meal kitchen and cultural stages. The site renovated the existing classrooms. In addition, the site distributed computers, printers, benches, furniture, uniforms, school bags and sports items to the school.

Yermaras Site constructed a dining hall for a Govt. School nearby the project site.

Green India

Environment and Species Protection Programme through Reforestation in Village Ramdurga, Koppal District, Karnataka through Wildlife SOS is a major CSR

Solar Light at Rehoboth

Project which focuses on the thrust area - 'Green India'. The project aims at restoring 10 acres of degraded land area through scientifically sound and tested methods ; protecting the area from poachers, illegal miners, wood cutters, grazers and other encroachers; enhancing the existing and seasonal wetlands for the benefit of wildlife and local communities. Around 10000 saplings were planted in the project area during 2012-13. This prestigious CSR project is inclusive of maintenance of the saplings for five years.

The indigenous and ecologically important plants have acclimatized to the land and have a healthy growth. The plants have attained a height of 6 to 12 feet with the trunk girth of 10 to 18 inches. Birds species like, Red-vented Bulbul, Laughing Dove, Prinias, Babblers, Munias, etc. are building their nests in these planted trees. Other ground nesting birds like Grey Francolin, Larks, Quails, Pipits etc. have been making nests on the ground covered with grass in the plantation zone. Apart from that, many other bird species have been seen roosting on the area restored through BHEL's endeavor.

Healthy India

Through HelpAge India, Mobile Medicare Unit (MMU) is operated in Angul District, Odisha wherein it is rendering mobile health services to the community at their doorsteps in Kaniha Block of Angul District. The MMU visits weekly & provides preventive health care and free medication to the elderly of the community. This programme addresses the inaccessibility, inability to afford and non-availability of basic health care

PS-SR Chennai

Inclusive India

services to the community particularly the poor & needy elderly. Besides health check-up, treatment and follow-up services, the MMU generates awareness in the community on various issues like old age problems, hygiene, sanitation etc. Day-to-day operations of the MMU is monitored by PSSR - Angul Site.

Bellary site completed a CSR Project during the year with a focus on the thrust area - Healthy India. The site provided a Diagnostic Center in Kudathini Village. As part of this CSR Project initiative, the site constructed buildings for the diagnostic center and also provided lab equipment for the same. The day-to-day operation and maintenance of the diagnostic center would be carried out by Public Health Center in the village.

Equipments for vocational training were provided to "Pragati Institute for reformation of mentally challenged persons" through an NGO based in Secunderabad. The institute trains more than 30 students in vocational activities to make the students self-reliant. The project was completed by PSSR - SAS, Secunderabad.

Responsible India

In Chennai, lab equipment were provided to Little Drops Composite Health Services. The center extends medical services to the inmates of an Old age Home and also provide affordable healthcare to the needy around the center. Medicines and two sets of dresses were provided to Leprosy Affected Persons (LAPs) through Sri Ramakrishna Math, Chennai. More than 200 LAPs benefitted through this CSR Project.

RO Water Units, Solar Lights, Flush cots were provided to Rehoboth, a public charitable trust which runs residential centers for the mentally challenged ladies.

Specialised equipments were distributed to RMD Pain and Palliative Care Trust, Chennai which provides pain relief and palliative care to terminally ill patients and their families through medical care and counselling.

Medical services to the inmates of an Old Age Home

The CSR project - "Distribution of Mobility Aids to Differently-abled persons" was completed by PSSR Neyveli Site. In this project, a psychiatrist and rehabilitation specialist visited the village and conducted an assessment camp for the disabled persons, wherein the measurements were taken for customized appliances. Later, a distribution camp was held wherein the mobility aids or calipers, were distributed. More than 100 persons benefitted through this CSR Project.

ASSCP Gurgaon

Healthy India

BHEL supports Global Cancer Concern India (GCCCI) for providing palliative care to terminally ill cancer patients in Delhi/NCR: BHEL has entered into a noble CSR initiative to alleviate the suffering and pain of terminally ill cancer patients who are battling with this deadly disease. An agreement to the effect was signed between BHEL- ASSCP, Gurgaon with Global Cancer Concern India (GCCCI) on 12th September 2013 at ASSCP unit, Gurgaon to carry forward this initiative for a period of 2 years. Under this project, palliative care will be extended to a minimum of 80 people per month and also around 800 people to be covered under the cancer screening programme. The project is named Palliative therapy through palliative clinic and mobile unit. The main objective of the project is to support the patients and their families medically, socially, emotionally and spiritually. The project aims at serving the terminally ill cancer patients irrespective of their religion, caste or race. GCCCI team will be visiting the patients at their homes and provide them counseling to overcome the pain & trauma of the dreaded disease.

The project is being implemented by GCCCI by various modes including:

- a. Day-Care centre: Patients come to the day-care centre of GCCCI and they are treated and provided medicines free of cost. Apart from the medication, they are also provided with diagnostic facilities for Pathological tests such as Pap Smear etc.

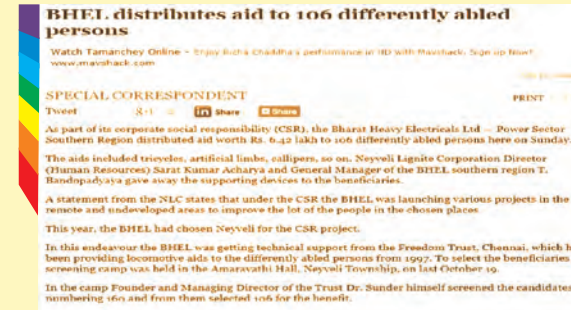

Cancer detection camp at a village in Gurgaon

- b. Mobile Unit: GCCCI presently is provided with two mobile unit, which is used to visit the patients in nearby areas who cannot come to day care centre's for Palliative care.
- c. Medical Camps: GCCCI has conducted four cancer detection camps at nearby villages and affected areas including Bandhwari, Gwalpahari, Nathupur and Badshahpur.

The project is nearing its completion and has so far tried to bring change to the lives of the terminally ill cancer patients who are under privileged and do not have necessary financial resources and emotional strength to deal with the disease.
