consider whichever is beneficial to BHEL for evaluating the lowest quote or the L1 rates.

2. Mismatch of rate & sample shall be avoided. Make sure the sample number and their respective unit rates are correctly related.
3. Evaluation: Evaluation shall be done item-wise, to derive item-wise L1 bidder(s). BHEL shall consider the lowest unit rate to derive the L1 bidder.
4. The tender shall be evaluated item wise & also awarded item wise. In case any item(s) fails to get a successful L1 bidder, the item(s) can be left out of award & procured separately through a fresh tender / enquiry.
5. Rates must be quoted in figures as well as in words. However in case of any conflict / confusion between the two, following guidelines shall follow:
 - a. If, in the price structure quoted for the required goods / services / works, there is a discrepancy between the unit price and the total price (which is obtained by multiplying the unit price by the quantity), the unit price shall prevail and the total price corrected accordingly, unless in the opinion of the purchaser there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price corrected accordingly.
 - b. If there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
 - c. If there is a discrepancy between words & figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which the amount in figures shall prevail subject of (a) and (b) above.
 - d. If there is such discrepancy in an offer, the same shall be conveyed to the bidder with target date up to which the bidder has to send his acceptance on the above lines and if the bidder does not agree to the decision of the purchaser, the bid is liable to be ignored.

BHELs decision regarding the same shall be final and binding.
