To,
ALL BIDDERS,

Sub: Corrigendum-02: Issuance of Clarifications.

JOB Description : PROVIDING SERVICES OF 20 MT BASIC CAPACITY TOWER CRANE (FIX FOUNDATION TYPE) ON MONTHLY HIRING BASIS AT NTPC RAMAGUNDAM ESP R & M STAGE-II PROJECT, POST: JYOTHINAGAR, DISTRICT: - KARIMNAGAR, TELANGANA -505215

References:

1. E-Tender Spec No: BHE/PW/PUR/RGEMO-20MT-CRH/2645

Bidders to kindly take note of the following:

AA) ISSUANCE OF CLARIFICATIONS:

Sl. No	Reference Document	Reference Chapter / Annexure	Reference Tender Clause	Query / Clarification Required	BHEL Reply
1	TECHNICAL CONDITIONS OF CONTRACT (TCC)- VOLUME-IA	Chapter-II: Scope of Works and Technical Specifications & Chapter-III- Facilities in the scope of Contractor	TCC 3.2, TCC 2.1.16	Assist crane for Loading / Unloading / Assembly and Dismantling – There is contradiction in assist crane point. We would request you to clarify assist crane for all purposes or scope of work remains under BHEL. There are various cranes running at site under BHEL which BHEL can provide but if contractor has to procure from outside, it will result on financial implication of tender. As per TCC 3.2 Contractor shall arrange suitable capacity assist cranes at the respective project site for loading, unloading of crane sub-assemblies, components, assembly & dismantling (at ground level) of the crane during mobilization & demobilization of crane. For working at ground level only hydra/Farana is required which can also be provided by BHEL as BHEL	TCC 3.2 - Contractor shall arrange suitable capacity assist cranes and Tools & Tackles at the respective project site for loading, unloading of crane sub-assemblies, components, assembly & dismantling (at Ground Level) of the crane during mobilization & demobilization of crane. TCC 2.1.16 - Assist crane for activities other than mentioned in clause 3.2 shall be provided by BHEL (i.e. Erection and Dismantling other than Ground Level)

				is providing mobile crane for erection and dismantling.	
2	TECHNICAL CONDITIONS OF CONTRACT (TCC)- VOLUME-IA	Chapter- VII: Payment Terms	TCC 7.7	Hourly overtime charges – The OT charges of 15% is very less or we can say almost NIL, it has been discussed before as well in a tower the usage, servicing, parts changing are as per hourly basis. 15% OT charges is not even at the ongoing projects of BHEL where we have supplied our tower cranes. We would like to offer OT at discounted rate of 90% which is the same discounted rate in case of contract extension. We would request you keep such basic terms like OT at 90% or 100% same as the standard practices used across the industry, such less OT rates @15% may lead to less participation in the tender which is very less.	Tender conditions shall prevail.
3	TECHNICAL CONDITIONS OF CONTRACT (TCC)- VOLUME-IA	Chapter- VII: Payment Terms	TCC 7.10.1	Hire charges during shifting – Any boom addition/deduction/shifting within the site the rental of the tower crane is always payable. Hence the rental should continue during shifting of the tower crane. The maximum amount of time allowed for shifting is already mentioned in the tender. The cost towards dismantling and erection is extra because this is additional scope for which only the minimum cost charged to you. In any tender or any project whatsoever the rental billing of the crane starts from the commencement date till the end of the project the crane is de-hired.	Tender conditions shall prevail.

Sl. No	Reference Document	Reference Chapter / Annexure	Reference Tender Clause	Query / Clarification Required	BHEL Reply
4	TECHNICAL CONDITIONS OF CONTRACT (TCC)- VOLUME-IA	Chapter- VII: Payment Terms	TCC 7.9.1	Breakdown – When the crane becomes idle due to failure attributable to its own mechanism it will deducted from the monthly hire charges on the basis of 1.5 times of pro-rata basis. BHEL may compensate it with overtime hours on approval of Construction Manager. It is our moto to provide service to our client at the best. Going by our track record we have provided service with uptime of 99.9% and tried to resolve problem at the earliest. In case of break down it may take certain time to arrange or resolve issue through phone. We would suggest considering breakdown at hourly rate, if crane is idle due to failure attributable to its own mechanism more than 10 hrs at a stretch, considering 11th hrs as first hour.	Tender conditions shall prevail.

=====

All other Terms and conditions of the Tender Specification shall remain unaltered unless expressly amended by BHEL in writing. Bidders are requested to submit as a part of their offer, a copy of this corrigendum duly Digitally countersigned by the authorized signatory as a token of Bidder's unqualified acceptance of this corrigendum.

BIDDERS MAY PLEASE NOTE THAT SUBJECT TENDER IS E-TENDER AND THE OFFER IS TO BE SUBMITTED ONLY IN E-PROCUREMENT PORTAL → <https://eprocurebhel.co.in>
BIDDERS WHO HAVE ALREADY SUBMITTED THEIR OFFERS PRIOR TO ISSUANCE OF THIS CORRIGENDUM IN E-TENDER PORTAL ARE REQUIRED TO RE-SUBMIT THEIR OFFER AFTER TAKING COGNIZANCE OF THIS CORRIGENDUM.

Thanking you,
Yours faithfully,
