CORRIGENDUM

Ref: Tender Enquiry FF/15/MCR/RC/EE/01 dated 20.11.2015

Date: 05.12.2015

With reference to the subject tender enquiry, following changes are to be noted and complied with by the bidders:

- a. "The last date for receipt and the date of opening of tender may be read as 16.12.2015 instead of 07.12.2015 in the price bid (page 3/57) of the NIT".
- b. In the scope of supply – Annexure A, the details of motors (pages 7/57, 17/57 & 27/57) may be read in conjunction with:
 "Note: The motors used in the cranes are equipped with special motion control features (functionality). Vendors/tenderers are to take special note of these features and maintain them during and after the reconditioning. It is strongly recommended that factory/site may be visited for assessment of the same. No changes regarding the functionality will be acceptable to BHEL at a later stage."
- c. "In the scope of supply – Annexure A, the acceptable makes of RRC (pages 9/57, 19/57 & 29/57) are to be read as 'Speed-o-controls/Electro Power/Telecrane' instead of 'SNT/Electro Power/Telecrane'."
- d. In the scope of supply – Annexure A, vendors/tenderers to note **clause 25:**
 "All the components whose preferred make is not specified shall be of reputed make. Bidder/Tenderer is to mention exact make(s) for all the items including other features like rating, make, and type etc. of various components for all items offered. CFFP reserves the right to select one or more make out of the offered ones. Offers without mention of the details, particularly rating, type and make of any of the items shall be summarily rejected."

The corrigendum is being uploaded on the website(s) as mentioned in the original NIT and no notification shall be issued in press. The bidders are advised to bid as per the changes mentioned in the corrigendum; any later queries or requests to change the bid after opening of the first part of the bid shall not be entertained.
