In case of discrepancy in figures and words, the rates quoted in words shall be considered.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2.3.3 | The goods offered shall conform to BHEL specifications and / or National/International standards as mentioned in the Enquiry and the bidder is required to confirm his unconditional acceptance to the same. Bidders, seeking deviations from the specifications and any other conditions, may indicate the same clearly on a separate sheet indicating Sl. No. of the item, with reasons for such deviations. BHEL reserves the right to reject the offer with deviations or load the deviations suitably for evaluation.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| 2.3.12 | In the course of evaluation, if more than one bidder happens to occupy L-1 status effective L-1 will be decided by soliciting discounts from the respective L-1 bidders in sealed envelope and will be open in tender room. In case more than one bidder happens to occupy the L-1 status even after soliciting discounts, the L-1 bidder shall be decided by a toss/ draw of lots, in presence of the respective L-1 bidders or their representatives. Ranking will be done accordingly. BHEL's decision in such situations shall be final and binding.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2.3.13 | The Purchaser can consider awarding tendered quantities among more than one bidder (after acceptance of L1 price by the other bidders) in the manner and proportion disclosed in the tender conditions. Purchaser can also consider awarding of part of the tendered quantity to other than L-1 bidder at L1 counter offered rates, if the quantity offered by the L-1 bidder is less than the quantity tendered for.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| 8.1   | Notwithstanding anything contained in the contract, neither the Bidder nor the Purchaser shall be held responsible for total or partial non-execution of any of the contractual obligations, should the obligation become unreasonably onerous or impossible due to occurrence of a 'Force Majeure' which directly affects the obligations to be performed by the Purchaser or the Bidder; Such events include war, military operations of any nature, blockages, revolutions, insurrections, riots, civil commotions, insurgency, sabotage, acts of public enemy, fires, explosion, epidemics, quarantine restrictions, floods, earthquake, or acts of God, restrictions by Govt. authorities; over which the Bidder or the Purchaser has no control. The party claiming to be affected by force majeure shall notify the other party in writing without delay, within two weeks on the intervention and on the cessation of such circumstance. Extension of time sought by the Bidder along with supporting evidence and so granted by the Purchaser for the supply/ work affected, if any, shall not be construed as waiver in respect of remaining deliveries. Rescheduling of deliveries on account of force majeure conditions, if so agreed by the Purchaser, will not entail the Bidder to claim any increase in the price on whatsoever account. Notwithstanding above provisions, Purchaser shall reserve the right to cancel the order/ Contract, wholly or partly, in order to meet the overall project schedule and make alternative arrangements. If deemed necessary, Purchaser may takeover partly processed material at a mutually agreed price. |

| 28.7 | Bidder agrees to submit performance security required for execution of the contract within the time period mentioned. In case of delay in submission of performance security, enhanced performance security which would include interest (SBI rate + 6%) for the delayed period, shall be submitted by the bidder. Further, if performance security is not submitted till such time the first bill becomes due, the amount of performance security due shall be recovered as per terms defined in NIT / contract, from the bills along with due interest                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 29   | <p><b>Benefits earmarked for Purchase from Micro &amp; Small Enterprises (MSEs) –</b></p> <p>All benefits as per Government of India guidelines shall be given to eligible bidders.</p> <p>MSE bidders as defined by the MSMED Act as amended from time to time can avail the intended benefits only if they submit along with the offer, self-attested copies of relevant document, Udyam Registration as applicable stipulated in the MSMED Act or its rules/ regulations as amended from time to time and /or by the buyer. Non submission of such documents as stipulated hereinbefore will lead to consideration of their bids at par with other bidders. No benefit shall be applicable for the concerned for the tender enquiry, if any deficiency in the above required documents is not submitted before the price bid opening. If the tender is to be submitted through e-procurement portal, then the above required documents are to be uploaded on the portal. This provision for MSE will apply subject to the condition that the participating MSE meets the tender requirements.</p> <p>In case of any change in the MSE status of the bidder, it shall be the responsibility of the bidder to notify the change as a part of the bid document. If at a later date it comes to the knowledge of BHEL, that the change in the status has not been intimated by the bidder and the order is obtained under the premise of an MSE then BHEL may reject the bid or, as the case may be, cancel the order and take necessary steps for suspension of the business dealing against the bidder as per the extant guidelines for suspension of business dealings with suppliers/ contractors of BHEL.</p> <p>Note: MSME benefits shall not be given to traders, Dealers or authorised agents.</p> <p>It may however be noted that MSE guidelines as on date (Date of Technical Bid Opening Part-1) shall prevail.</p> <p>As per the OM No. F. No. 1(2)(1)/2016-MA dtd. 09.02.2017 issued from the Office of Development Commissioner (Micro, Small &amp; Medium Enterprises), "Traders and agents should not be allowed to avail the benefits extended under the PP Policy". In view of this, it is clarified that benefits of MSE (such as EMD Waiver, Tender fee exemption, Price preference, Payment preference etc.) will be given only to those MSE Vendors who are manufacturers of offered items against the NIT. No MSE benefits shall be provided to Agents / Stockists / Dealers / Traders etc. for the items offered but not manufactured by themselves.</p> |
| 29.1 | MSEs shall be given tender documents free of cost and shall be exempted from payment of EMD. Tender documents shall be issued free of cost & no EMD wherever called for will be insisted upon. MSE bidders shall submit along with bid relevant documents w.r.t. their respective MSE status as per extant norms. Date to be reckoned for determining the deemed validity will be the last date of Technical bid submission. Non- submission of such document will lead to consideration of their bid, at par with other bidders and MSE status of such bidders shall be shifted to Non- MSE supplier till the supplier submit these documents.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

|                     | <p>be submitted through e-procurement portal, then the above required self-attested documents are to be uploaded on the portal.</p> <p>No benefits shall be applicable for this enquiry if any deficiency in the above required documents are not submitted before price bid opening. If the tender is to be submitted through e-procurement portal, then the above required self-attested documents are to be uploaded on the portal.</p> <p>The deemed validity will be assessed on the date of bid opening (Part 1 in case of two part bid). Non submission of such documents as stipulated hereinbefore will lead to consideration of their bids at par with other bidders. No benefit shall be applicable for the concerned for the tender enquiry, if any deficiency in the above required documents is not submitted before the price bid opening. This provision for MSE will apply subject to the condition that the participating MSE meets the tender requirements.</p> <p>In case of any change in the MSE status of the bidder, it shall be the responsibility of the bidder to notify the change as a part of the bid document. If at a later date it comes to the knowledge of BHEL, that the change in the status has not been intimated by the bidder and the order is obtained under the premise of an MSE then BHEL may reject the bid or, as the case may be, cancel the order and take necessary steps for suspension of the business dealing against the bidder as per the extant guidelines for suspension of business dealings with suppliers/ contractors of BHEL.</p> <p>In case if all the items being procured under the enquiry fall under category of reserved items as defined in “Public Procurement Policy for Micro and Small Enterprises (MSEs) Order, 2012” and if any of the MSE bidder(s) is techno commercially qualified then the price bids of only MSE bidders shall be opened. If no MSE bidder is techno-commercially qualified, then price bids of all techno-commercially qualified bidders shall be opened.</p> |       |       |       |             |  |  |                     |  |  |                   |  |  |              |  |  |              |  |  |                |  |  |            |  |  |

| 20.1                | <p>IP is a tool to ensure that activities and transactions between the company and its bidders/contractors are handled in a fair, transparent and corruption free manner. A panel of Independent External Monitors (IEMs) have been appointed to oversee implementation of IP in BHEL.</p> <p>The IP as enclosed with the tender is to be submitted (duly signed by authorized signatory who signs in the offer) along with techno commercial bid. Only those bidders who have entered into such an IP with BHEL would be competent to participate in the bidding. In other words, entering into this pact would be a preliminary qualification.</p> <div><div><p>Name: -----</p><p>Address: -----</p><p>E-mail : -----</p></div><div>}</div><div>As indicated in NIT / enquiry</div></div>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |       |       |       |             |  |  |                     |  |  |                   |  |  |              |  |  |              |  |  |                |  |  |            |  |  |

### NON-MAGNETIC CORROSION RESISTANCE STEEL FORGINGS Gr. X 8 CrMn N18 18K

**1) GENERAL:**

This specification governs the quality of forged and cold expanded, non-magnetic, corrosion resistant, steel forgings for Gr: X8CrMn N18 18K variety.

**2) APPLICATION:**

For manufacture of cap ring forgings of AC motors.

**3) CONDITION OF DELIVERY:**

Forged and cold expanded to achieve mechanical properties mentioned in Cl. 11.

Forgings shall be supplied in the rough machined and stress relived condition, unless otherwise specified.

Our order shall specify the strength category (0.2% Rp Proof Stress) required.

**4) COMPLIANCE WITH NATIONAL STANDARDS:**

There is no Indian Standard covering this type of material.

**5) DIMENSIONS AND TOLERANCES:**

The dimensions of the forgings shall be as stated on the drawing or order. If the order/drawing calls for finished dimensions, the forgings are to be delivered with all side machining allowances of 3 to 4 mm to this finished dimension after rough machining. The surface roughness shall be maximum R2=6  $\mu$ m for the non-destructive test, clause 12.

**6) MANUFACTURE:**

Material shall be manufactured from killed steel.

Date: 19.01.2024

Date of first Issue: Nov 1987

## 7) HEAT TREATMENT:

The material is to be forged and cold expanded within 300 Deg.C. A hot cold deformation is not permissible. No age-hardening is permitted. The forgings are to be stress-relieved, at least 5 hours at 350 deg.C  $\pm$  20 deg.C after the cold expansion.

## 8) FREEDOM FROM DEFECTS:

The forgings shall be sound, clean and free from cracks, flakes, seams, segregation, harmful non-metallic inclusions other defects.

## 9) CHEMICAL COPOSITION:

The chemical composition of the steel shall be as follows:

| Element    | Percentage |         |
|------------|------------|---------|
|            | Minimum    | Maximum |
| Carbon     | -          | 0.12    |
| Silicon    | -          | 0.80    |
| Manganese  | 17.50      | 20.00   |
| Phosphorus | -          | 0.05    |
| Sulphur    | -          | 0.015   |
| Chromium   | 17.50      | 20.00   |
| Nitrogen   | 0.40       | -       |

## 10) TEST SAMPLES:

One tangential test samples shall be selected per heat treatment batch, per consignment for mechanical properties. Tangential samples are to be taken from the forged specimen from the center of the wall thickness after the last heat treatment.

## 11) MECHANICAL PROPERTIES:

### 11.1 Tensile:

When tested in accordance with IS:1608/DIN 50145 & 50125 the test pieces shall show, the properties given in the table below:

### 11.2 Impact value:

Charpy-ISO-V-Notch when tested in accordance with IS: 1498/DIN 50115 the test pieces shall show the properties given in the table below, mean of three tests shall be taken.

\*Note:

1. Strength category (0.2% Rp) shall be specified in the order.
2. The measured 0.2% proof stress is permissible to exceed the required minimum value by 150 N/mm<sup>2</sup> maximum.
3. The tensile Strength shall be mentioned for information in Test certificate.

### 12) NON DESTRUCTIVE EXAMINATION:

#### 12.1 Ultrasonic Examination:

The ultrasonic testing shall be performed on 100% of the external surface with a standard test probe in radial direction and width 45 deg. Angular probe, twice in periphery direction and twice in axial direction. Test frequency shall be 1 or 2 MHz. The desired surface finish shall be less than or equal to 6  $\mu$ m.

**Note:** With the calibrator attenuator, the back-wall or edge echo is adjusted to 100% screen height and then increase the gain by 12 dB. Any texture noise / grass echos appearing should not exceed 20% of screen height.

The ultrasonic testing shall be performed as per BHEL Corporate Standard AA 085 01 18 and the following shall be the unacceptable defects (category I of AA 085 01 18).

- a) Cracks, flakes, seams and laps.
- b) Defects giving indication larger than that from a 2 mm diameter equivalent flaw.

- c) Groups of defects with maximum indication less than that from a 2 mm diameter equivalent flaw which cannot be separated at testing sensitivity if the back-echo is reduce to less than 70%.
- d) Defects giving indications of 1 and 2 mm diameter equivalent flaws separated by a distance less than four times the size of the larger of the adjacent flaws.

**12.2 Liquid Dye Penetration Examination**

Liquid dye penetrate test is to be carried out in 100% surface of the forgings to examine freedom from cracks as per DIN 54152 part I and the indications are to be recorded and marked on the forging.

**13) INSPECTION AT SUPPLIER'S WORKS:**

Whenever specified tests and inspection are to be conducted in the presence of BHEL's representative.

BHEL representative shall have free access at all times while the work on the contract is being performed to all parts of the manufactures works. The manufacturer shall offer BHEL's representative all reasonable facilities, without charge to satisfy the later that the material is being furnished in accordance with this specification.

The manufacturer shall prepare and provide necessary test specimen for testing to be carried out at his premises. If facilitate are not available at his work the manufacturer shall make necessary arrangements for carrying out the prescribed tests elsewhere. The manufacturer shall notify BHEL in advance about readiness of the material test the material at BHEL's works and the final acceptance of the material shall be based on these test results.

**14) REWORK:**

Repair or elimination of insignificant defects shall not be carried out without the prior permission of BHEL.

**15) TEST CERTIFICATE:**

Three copies of test certificates shall be supplied, unless otherwise stated on the order in the 'test certificate' proforma annexed to this specification (Annexure-I).

In addition, the supplier shall ensure to enclose one copy of the test certificate along with their dispatch documents to facilitate quick clearance of material.

### 16) PACKING AND MARKING:

Forgings shall be suitably packed to prevent corrosion & damage during transit.

Machine surface shall be properly protected with anti-corrosive compounds.

Each package or forgings (when supplied separately) shall be legibly marked with paint with the following information:-

BP 19381: Non-magnetic Corrosion resistance steel forgings Gr:X8CrMnN18 18K

BHEL Order No. (on the inner surface)

Consignment or identification No.

Batch No.

Weight

Supplier's Name.

### 17) REJECTION AND REPLACEMENT:

If the forging does not comply with the requirements of this specification during receipt inspection at BHEL or if any defect is found during the course of preparation, machining, testing or erection such forging shall be rejected notwithstanding any previous certification of satisfactory testing and/or inspection.

The manufacturer shall undertake to replace the rejected forgings at his own cost and the rejected forgings shall be taken back by the supplier after fulfilling the commercial terms and conditions.

INSTRUCTIONS

- Details of all heat treatment processes carried out should be furnished sequentially in 17.
- Test certificates are to be issued as per Purchase order and specification, in A4 size preferably in transparent paper.
- All the entries including signature should be in black colour ink.
- If testing is done by outside agencies, the original 'Ms' shall be furnished.
- The actual IC may run into more than one A4 size paper, if needed, to facilitate filling up of details.

BP 19383 Rev.01

### 1 GENERAL :

This Specification governs the quality of stainless steel forgings of Gr: X4CrNiMnMo N 19138 variety.

### 2 APPLICATION :

For manufacture of retaining ring for 2 pole squirrel Cage Motors.

### 3 CONDITION OF DELIVERY :

Forged, and heat treated to achieve mechanical properties mentioned in Cl.11.

Forgings shall be supplied in the rough machined and Stress Relieved Condition, unless otherwise specified.

### 4 COMPLIANCE WITH NATIONAL STANDARDS :

There is no Indian Standard covering this type of material.

### 5 DIMENSIONAL AND TOLERANCE :

The dimensions of the forgings shall be as stated on the drawing or order. If the order / drawing calls for finished dimensions, the forgings are to be delivered with all side machining allowances of 3 to 4 mm to this finished dimensions after rough machining. The surface roughness shall be maximum  $Ra=6 \mu m$  for the non-destructive, clause 12.

### 6 MANUFACTURE :

Material shall be manufacture by an electric process or any other approved process.

Revision :

Reviewed &amp; No Tech. Change

## 7. HEAT TREATMENT :

The material shall be heat treated to achieve the mechanical properties specified in clause 11.

## 8. FREEDOM FROM DEFECTS :

The forging shall be sound, clean and free from cracks, flakes, seams, segregation harmful non-metallic inclusion or other defects.

## 9. CHEMICAL COMPOSITION :

The chemical composition of the steel shall be follows :

| Element    | Percent |         |
|------------|---------|---------|
|            | Minimum | Maximum |
| Carbon     | -       | 0.15    |
| Silicon    | -       | 1.00    |
| Manganese  | 7.00    | 10.00   |
| Phosphorus | -       | 0.030   |
| Sulphur    | -       | 0.020   |
| Chromium   | 17.50   | 20.00   |
| Nitrogen   | 0.20    | 0.40    |
| Molybdenum | 2.50    | 3.50    |
| Nickel     | 12.00   | 15.00   |

## 10. TEST SAMPLE :

One tangential test sample shall be selected per heat per heat treatment batch, per consignment for mechanical properties. Tangential samples are to be taken from the forged specimen from the center of the wall thickness after the last heat treatment.

## 11. MECHANICAL PROPERTIES :

### 11.1 Tensile :

When tested in accordance with IS:1608/DIN 50145 & 50125 the test pieces shall show, the properties given below :

|                                       |   |                             |
|---------------------------------------|---|-----------------------------|
| Tensile Strength                      | - | 700 – 900 N/mm <sup>2</sup> |
| 0.2% Proof Stress                     | - | 410 N/mm <sup>2</sup> Min.  |
| Elongation on 5.65√So<br>Gauge length | - | 35 Percent Minimum          |

### 13. Ultrasonic Examination :

The ultrasonic testing shall be performed on 100% of the external surface with a standard test probe in radial direction and width 45 deg. Angular probe, twice in periphery direction and twice in axial direction. Test frequency shall be 1 or 2 MHz. The desired surface finish shall be less than or equal to 6  $\mu$ m.

Note : With the calibration attenuator, the back wall or edge echo is adjusted to 100% screen height and then increase the gain by 12 dB. Any texture noise / grass echoes appearing should not exceed 20% of screen height.

The ultrasonic testing shall be performed as per BHEL corporate standard AA 085 01 18 and the following shall be the unacceptable defects (category I of AA 085 01 18).

- a) Cracks, flakes, seams and laps.
- b) Defects giving indication larger than that from a 2 mm diameter equivalent flaw.
- c) Groups of defects with maximum indication less than that from a 2 mm diameter equivalent flaw with cannot be separated at testing sensitivity if the back – eco is reduced to less than 70%.
- d) Defects giving indications of 1 to 2 mm diameter equivalent flaws separated by distance less than four times the size of the larger of the adjacent flaws.

### 12.1 Liquid Dye Penetration Examination

Liquid dye penetration test is to be carried out in 100% surface of the forgings to examine freedom from cracks as per DIN 54152 Part I and the indications are to be recorded and marked on the forging.

### 13 INSPECTION AT SUPPLIER'S WORKS :

Whenever specified tests and inspection are to be conducted in the presence of BHEL's representative.

BHEL representative shall have free access at all times while the work on the contract is being performed to all parts of the manufacture's works. The manufacture shall offer BHEL's representative all responsible facilities, without charge, to satisfy the letter, that the material is being furnished in accordance with this specification.

The manufacturer shall prepare and provide necessary test specimen for testing to be carried out at his premises. If facilities are not available at his work manufacture shall make necessary arrangements for carrying out the prescribed tests elsewhere.

The manufacture shall notify BHEL in advance about readiness of the material for inspection and testing. BHEL reserve the right to test the material at BHEL's work and the final acceptance of the material shall be based on these test results.

**14. REWORK :**

Repair or elimination of insignificant defects shall not be carried out without the prior permission of BHEL.

**15. TEST CERTIFICATE :**

Three copies of test certificates shall be supplied, unless otherwise stated on the order in the 'Test Certificate' proforma annexed to this specification, (Annexure – I).

In addition, the supplier shall ensure to enclose one copy of the test certificate along with their dispatch documents to facilitate quick clearance of material.

**16. PACKING AND MARKING :**

Forgings shall be suitably packed to prevent corrosion & damage during transit.

Machined surfaces shall be properly protected with anti-corrosive compounds.

Each package or forging (when supplied separately) shall be legibly marked with paint with the following information.

BP 19383: Stainless Steel Forging Gr : X4CrNiMnMo N 19138.

BHEL Order No.

Drawing No. (on the inner surface)

Consignment or Identification No.

Batch No.

Weight

Supplier's Name.

**17. REJECTION AND REPLACEMENT :**

If the forging does not comply with the requirements of this specification during receipt inspection at BHEL or if any defect is found during the course of preparation, machining, testing or erection such forging shall be rejected notwithstanding any previous certification of satisfactory testing and / or inspection.

The manufacture shall undertake to replace the rejected forgings at his own cost and the rejected forgings shall be taken back by the supplier after fulfilling the commercial terms and conditions.
