| TWO PART BID                        | Enquiry<br>Number: | Enquiry Date: | Due date for submission of quotation: |
|-------------------------------------|--------------------|---------------|---------------------------------------|
| Tender to be submitted in two Parts | 2621100128         | 13.07.2011    | 13.08.2011                            |

You are requested to quote the Enquiry number date and due date in all your correspondence. This is only a request for quotation and not an order.

Please note that under any circumstances both delayed offer and late offers will not be considered. Hence vendors are requested to ensure that the offer is reaching physically our office before 14.00 hrs on the Date of **tender opening**.

| Item | Description  | Delivery | Schedule   |
|------|--|----------|------------|
|      |  | Quantity | Date       |
| 10   | Supply, Erection and Commissioning of 1x13 KL Liquid Oxygen Storage Vessel with Fittings, Safety System etc and All Conforming to the Standards Mentioned as per Statutory Authorities Against Each Item on Establishing Facilities as per the technical specification & commercial conditions applicable (to be downloaded from web site <a href="https://tenders.gov.in">www.bhel.com</a> or <a href="https://tenders.gov.in">http://tenders.gov.in</a> )    | 1 No.    | 28.10.2011 |
| 20   | Supply, Transportation, Erection and Commissioning of 1x13 KL Liquid Oxygen Vaporizer Unit with Pressure Regulating Station including Pipelines inside LOX Storage Yard for 1x13 KL LOX Storage Vessel at BHEL PPPU Thirumayam (Pudukkottai Dist) as per the technical specification & commercial conditions applicable (to be downloaded from web site <a href="www.bhel.com">www.bhel.com</a> or <a href="http://tenders.gov.in">http://tenders.gov.in</a> ) | 1 No.    | 28.10.2011 |

#### Important points to be taken care during submission of offer

- Checklist to be filled and enclosed along with the offer failing which, the offer will not be considered for evaluation.
- 2. All updates, amendments, corrigenda, etc., (if any), for each tender will be posted only on the above websites from time to time, as and when required, until each tender is opened. There will be no publication of such updates, amendments, corrigenda, etc., through newspapers or any other media.
- 3. Offer shall be evaluated as a single package. Hence all items (Item SI. No. 10 and 20) should be quoted without fail any, otherwise your offer will not be considered. However prices shall be quoted item wise only.

BHEL's General guidelines / instructions (refer MM/CE/GT/001) including bank guarantee formats and list of consortium banks, commercial terms check-list can be downloaded from BHEL web site <a href="http://www.bhel.com">http://www.bhel.com</a> or from the Government tender website <a href="http://tenders.gov.in">http://tenders.gov.in</a> (public sector units > Bharat Heavy Electricals Limited page) under Enquiry reference "2621100128".

Tenders should reach us before 14:00 hours on the due date
Tenders will be opened at 14:30 hours on the due date
Tenders would be opened in presence of the tenderers who have submitted their offers and who may like to be present

**DESCRIPTION**: Liquid Oxygen Vaporizer Unit With Pressure Regulating Station

**Scope**: Supply, Transportation, Erection & Commissioning of Liquid Oxygen Vaporizer Unit With Pressure Regulating Station Including Pipelines Inside LOX Storage Yard For 1x13 KL LOX Storage Vessel At BHEL/Thirumayam, PPPU(Pudukkottai Dist.,)

Scope of supply for one set consists the following items .

| Sl.No. | Description                                       | BHEL Specification   | Vendor's<br>offer | Deviation if any, vendor to specify |
|--------|---|--|-------------------|-------------------------------------|
| 1.0    | LIQUID OXYGEN AMBIENT VAPORIZER U                 | NIT  |                   |                                     |
| 1.1    | Quantity  | 1 No.  |                   |                                     |
| 1.2    | Туре  | AMBIENT, SS 304, FIN   |                   |                                     |
| 1.3    | Duty  | Continuous duty 24x7 Hrs   |                   |                                     |
| 1.4    | Material  | SS 304   |                   |                                     |
| 1.5    | Capacity  | 500 Kg/Hr  |                   |                                     |
| 1.6    | Inlet Temp  | Vendor to specify  |                   |                                     |
| 1.7    | Outlet temp                                       | Vendor to specify  |                   |                                     |
| 1.8    | Heating medium                                    | Ambient  |                   |                                     |
| 1.9    | Surface Area                                      | Vendor to specify  |                   |                                     |
| 1.10   | Working Pressure                                  | 17 Kg/cm <sup>2</sup> (g)  |                   |                                     |
| 1.11   | Design Pressure                                   | Vendor to specify  |                   |                                     |
| 1.12   | Hydrostatic Test Pressure                         | Vendor to specify  |                   |                                     |
| 1.13   | Pneumatic Test Pressure                           | Vendor to specify  |                   |                                     |
| 1.14   | Design Temperature                                | —196 °C / 50 °C  |                   |                                     |
| 1.15   | Design & Manufacturing code(ASME std to be used ) | Vendor to specify  |                   |                                     |
| 2.0    | PIPE LINES with in storage yard                   |  |                   |                                     |
| 2.1    | Quantity  | 1 Lot  |                   |                                     |
| 2.2    | Pipes and fittings                                | The pipeline includes all the pipe fitting and pipe fittings such as Elbow, Tees Flanges, 'U' Clamp, Stud Nuts, Copper jumper, etc |                   |                                     |
| 2.3    | Material of Construction                          | A 312 SS 304   |                   |                                     |
| 2.4    | Working Pressure                                  | 5 to 17 Kg/cm <sup>2</sup> (g)   |                   |                                     |
| 2.5    | Design Pressure                                   | Vendor to specify  |                   |                                     |
| 2.6    | Hydrostatic Testing Pressure                      | Vendor to specify  |                   |                                     |
| 3.0    | PRESSURE REGULATING SYSTEM                        | venue: to speemy   |                   |                                     |
| 3.1    | Quantity  | 1 Set.   |                   |                                     |
| 3.2    | Inlet Pressure                                    | 17 Kg/cm <sup>2</sup> (g)  |                   |                                     |
| 3.3    | Outlet Pressure                                   | 5 TO 17 Kg/cm <sup>2</sup> (g)   |                   |                                     |
| 3.4    | Flow Rate   | 0 - 500 Kg/hr.   |                   |                                     |
| 3.5    | Size  | 50 NB / Vendor to specify  |                   |                                     |
| 3.6    | Ball Valve  | 50 NB / Vendor to specify  |                   |                                     |

| 4.1    | Liquid oxygen ambient vaporizer unit              | 1 No.  |                   |                                     |
| 4.2    | Pipe lines with in storage yard                   | 1 Lot  |                   |                                     |

| 4.3  | Pressure Regulating System   | 1 set  |  |
|------|--|--|--|
| 4.0  | OVERALL DIMENSION  | 1 300  |  |
| 4.1  | Overall dimension(LXWXH)   | Vendor to specify  |  |
| 4.2  | Inlet flange size  | Vendor to specify  |  |
| 4.3  | Outlet flange size   | Vendor to specify  |  |
| 4.4  | Empty weight(approx)   | Vendor to specify  |  |
| 5.0  | QUALITY PLAN &DRAWINGS   | vendor to speeny   |  |
| 5.1  | Flow Scheme Drawing.   | To be furnished along with offer   |  |
| 5.2  | GA Drawing   | To be furnished along with offer   |  |
| 5.3  | Foundation Drawing.  | To be furnished along with offer   |  |
| 5.4  | The Bidder should arrange Quality plan   | Vendor to Confirm  |  |
| 3.1  | for each work and get approved by Engineer concern.  | venus es commun  |  |
| 6.5  | The Bidder shall follow relevant ASME section for Liquid Oxygen vaporizer System   | Vendor to Confirm  |  |
| 6.6  | The Bidder should furnish the maximum permissible evaporation losses, Liquid transfer losses of the proposed system.                     | Vendor to Confirm  |  |
| 7.0  | INSPECTION & TEST  |  |  |
| 7.1  | All test and inspection by   | (a)All tests and inspections to be carried out under the control of third party . (b)List of CCOE approved third party inspecting agencies to be provided for BHEL approval  |  |
| 7.2  | Checking & approval of design and calculations   | Vendor to Confirm  |  |
| 7.3  | Material inspection and stamp  | Vendor to Confirm  |  |
| 7.5  | transferring separately  | vendor to commi  |  |
| 7.4  | Visual & dimensional inspection  | Vendor to Confirm  |  |
| 7.5  | Hydrostatic test   | Vendor to Confirm  |  |
| 7.6  | Pneumatic test   | Vendor to Confirm  |  |
| 7.10 | Inspection of valves and fittings  | Vendor to Confirm  |  |
| 7.11 | Any other inspection and test required   | To be mentioned by offerer   |  |
| 7.12 | Inspection reports and test certificates.  | The reports of the all tests & inspections with the inspection certificates to be submitted to BHEL after the completion of the inspections by third party inspecting agency.  |  |
| 7.13 | Hydro test report/certificate  | Vendor to confirm  |  |
| 7.14 | safety valve manufacturer Test certificate   | Vendor to confirm  |  |
| 7.15 | Regulator certificate  | Vendor to confirm  |  |
| 7.16 | Inspection Reports by Third Party agency   | Vendor to confirm  |  |
| 8.0  | GENERAL CONDITIONS   |  |  |
| 8.1  | STATUTORY REQUIREMENT  | The Bidder should coordinate and obtain necessary clearance certificates with all Statutory bodies such as Explosives, Factory Inspectorate.etc., Charges on this account if any shall be indicated in the Price Bid separately & vendor to confirm. |  |
| 8.2  | The Bidder should arrange G A Drawing,<br>Quality plan , P & I diagrams for each<br>work and get approved by BHEL Engineer<br>concerned. | Vendor to Confirm  |  |

| _    |   | T   |             |  |
|------|---|---|-------------|--|
| 8.3  | The Bidder should arrange for obtaining foundation construction approval CCOE / Nagpur .Selection , Inspection & despatch of material , Inspection / certification under Rule 33, Application and obtaining licences from C C O E / Nagpur , Inspection of Plant by Department of Explosive, Endorsement , Supply of documentation for the plant, Obtaining safety certificate from the competent authorities on completion of installation with in the licensed area , Training of our personnel in operation and maintenance are scope of the Bidder. | Vendor to Confirm   |             |  |
| 8.4  | Approval for manufacturing of LOX vaporizer unit  | Copy of approval certificate issued by CCOE for manufacturing of LOX bullet with  |             |  |
| 8.5  | Design approval   | Fittings to be enclosed  Design / Drawing approval for manufacturing & complete installation of LOX vaporizer unit , from CCOE / Nagpur & Local CCOE to be obtaining .  |             |  |
| 9.0  | SAFE CUSTODY & PRESERVATION OF COM  | PONENTS   |             |  |
| 9.1  | The safe custody of vaporizer system till commissioned and handed over will also under the scope of the contractor  | Vendor to Confirm   |             |  |
| 9.2  | It is the responsibility of the supplier to apply touch up painting on all equipment before erection at his cost.   | Vendor to Confirm   |             |  |
| 9.3  | Preservation of all equipment at all stages of handling, transporting to site of work or Pre Assy Yard , Pre - Assembly Erection, Testing, Commissioning , and till the unit is handed over to BHEL for regular operation.  | Vendor to Confirm   |             |  |
| 10   | VENDOR'S BRIEF SCOPE OF SUPPLY  | The Bidder should coordinate and obtain necessary clearance certificates with all Statutory bodies such Explosives, Factory Inspectorate.etc., Charges on this account if any shall be indicated in the Price Bid separately in favour of BHEL. |             |  |
| 10.1 | Supply, Installation and Commissioning of the entire system ( i.e vaporizer with regulating station as mentioned above specification ) as per CCOE Norms and to Customer's Satisfaction.  | Vendor to Confirm   |             |  |
| 10.2 | Scope restricted to Inside LOX Yard   | Vendor to Confirm   |             |  |
| 10.3 | Providing all Technical Help required related to LOX Installation.  | Vendor to Confirm   |             |  |
| 10.4 | Providing all related Drawings like P & I (Process & Instrumentation ) and Layout Drawing, Complete Civil Drawings.   | Vendor to Confirm   |             |  |
| 10.5 | Complete Initial Drawings Approval from CCOE (Chief Controller of explosives – Nagpur) for setting at BHEL, Thirumayam.   | Vendor to Confirm   |             |  |
|      | Transpar, for secting at Diffe, Illianiayani.   | l   | Page 3 of 5 |  |

| 10.6  | Complete 3rd Party Inspection for acquiring Rule for fabrication & installation of entire LOX vaporizer & fittings.  | Vendor to Confirm   |  |
|-------|--|---|--|
| 10.7  | Obtaining Final License from CCOE – Nagpur towards the Installation.   | Vendor to Confirm   |  |
| 10.8  | Endorsement of the CCOE License from Local CCOE office.  | Vendor to Confirm   |  |
| 10.9  | Training of operation & maintenance staff of LOX facilities.   | Vendor to Confirm   |  |
| 10.10 | Providing complete Guarantee Certificates / Product Manuals and Tank History file for project in 4 sets. ( 1 Original + 3 Xerox copy)  | Vendor to Confirm   |  |
| 10.11 | Required consumables like cutting gases, welding electrodes for installation purposes .  | Vendor to Confirm   |  |
| 10.12 | The crane facility required for unloading & installation of LOX SYSTEM at site   | Vendor to Confirm   |  |
| 10.13 | From single point power source (Panel board) to all concerned Electrical items   | Vendor to Confirm   |  |
| 10.14 | All electrical items shall be flameproof.  | Vendor to Confirm   |  |
| 10.15 | Bidders shall deploy complete set of Tools & Plant for Erection, Testing Commissioning, and Hand over of the liquid LPG storage facility installation for regular operation.   | Vendor to Confirm   |  |
| 10.16 | Fire fighting Equipments   | Vendors to specify  |  |
| 10.17 | Spares required for two years for trouble free operation .   | Vendors to specify  |  |
| 11.0  | BHEL SCOPE OF SUPPLY   | Vendor to Confirm   |  |
| 11.1  | All civil work involved inside LOX Yard which includes Civil Pedestals for Tanks, Vaporizer Systems etc. will be carried out by BHEL for the entire Project and the required drawings details will have to be furnished by the Supplier to BHEL along with the offer or within two weeks of Purchase Order. The civil drawing should indicate the dynamic loading or foundation details of the vessel foundation drawing. <b>4 Set of</b> GA drawing with foundation details are needed. | Vendor to Confirm   |  |
| 11.2  | Providing single point Power source (Panel Board) for installation.  | Vendor to Confirm   |  |
| 11.3  | Explosive Fees towards Drawing Approval and towards Final License Fees for 3 years as applicable.  | Vendor to Confirm   |  |
| 11.4  | Local NOC from District Magistrate from the date of receipt of Drawings Approval.  | Vendor to Confirm   |  |
| 12.0  | PRE-DISPATCH INSPECTION AT SUPPLIERS WORKS   | LOX vaporizer with regulating station Shall be offered to BHEL Engineers at supplier's works for Pre-dispatch inspection.  After LOX bullet & their facilities have been installed & energized, |  |
|       | PROVE OUT AND ACCEPTANCE   | demonstrations to be carried out for good working condition &   |  |

| 13.0 |   | ensuring operating parameters as per technical specification mentioned above.  |  |
|------|---|--|--|
| 14.0 | WARRANTY  | warranty for products against defective materials and workmanship for a period of 12 months from the date of commissioning or 18 months from the date of dispatch whichever is earlier |  |
| 15.0 | DETAILED SCOPE OF SUPPLY  | Detailed scope of supply like Item wise Description ,Qty, Make to be submitted along with offer.   |  |
| 16.0 | Delivery schedule for supply of LOX vaporizer and Pressure regulating station . | Three months from the date of issue of purchase order  |  |
| 17.0 | Erection, Testing & Commissioning   | 15 days from the date of receipt of Materials at site.   |  |

| 2.0   | BRIEF DESCRIPTION OF<br>WORK                 | M/s. BHEL /Thirumayam,PPPU(Pudukkottai Dist.,) has proposed to set up 1 x 13 KL LOX storage facility in the premises of BHEL Thirumayam to meet day to day oxygen gas requirement at a pressure of 5 to maximum 17 Kg/sq.cm with required valves, fittings, gauges, vents, drains as per the requirement of statutory authority and for the operational & maintenance convenient. |                   |                                       |
| 3.0   | SCOPE OF SUPPLY                              |   |                   |                                       |
| 3.a   | LOX STORAGE VESSEL with FITTINGS.            | Quantity: 1 Set Consists of following items as per Sl. No. 3.a1 & 3.a2  |                   |                                       |
| 3.a1  | LOX STORAGE VESSEL with FITTINGS.            | 1 No.   |                   |                                       |
| 3.a2  | Foundation Bolts ,Washers & Nuts             | 1 Lot   |                   |                                       |
| 3.1.0 | STORAGE VESSEL                               |   |                   |                                       |
| 3.1.1 | TYPE   | Vertical, Cylindrical, Double Wall,<br>Vacuum + Perlite Insulation  |                   |                                       |
| 3.1.2 | Net Liquid Oxygen Storage<br>Capacity        | 13 KL   |                   |                                       |
| 3.1.3 | Gross volume                                 | Vendor to specify   |                   |                                       |
| 3.1.4 | Fluid  | Liquid Oxygen   |                   |                                       |
