Approval for Inviting Global Expression of Interest for procuring 12kV Vacuum Interrupter for Switchgear Application.

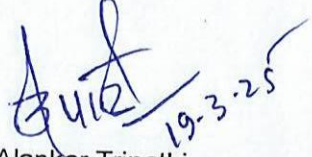

We are intending to procure 12kV Vacuum Interrupters for BHEL Switchgears. Vacuum Interrupter is main part of Switchgear and very critical component. Following ratings of Vacuum Interrupters are required from manufacturers-

Sl.No.	Rated Voltage	Rated Current	Fault Current	Insulation
1	12kV	Upto 2000A	26.3kA	28kV/75kVp

There is only two established sources available in PMD for above item. We would like to publish Global EOI for identification of new manufacturers for these items.

In view of above, it is proposed to float Global Expression of Interest (EOI) to identify reputed, technically & financially sound experienced bidders, with experience in manufacturing of Vacuum Interrupters.

Submitted for kind approval.
