To All Bidders Dear Sirs,

Sub: Clarification for Purchase Enquiry No. WC/HQR/06036 (Purchase of three lattice-boom crawler cranes)

Some of the bidders have sought certain clarifications with regard to the tender specification. We would like to furnish clarification to these issues as follows.

Clause No.	Brief Description	Bidders' Query	BHEL's Clarification		
Section-II (Page 3 of 4)					
13.e	Safety Device - Display arrangement for self error detection system	Please confirm whether the detection system shall be for engine only or it should be for engine as well as for other crane functions, combined with load movement indicator display.	It shall be for all functions of the crane including engine and load movement indicator display.		
13.h	Safety Device - Self test system	Please confirm that self test system should be for engine only or for engine and crane functions.	It should be for all systems of the crane including the engine.		
Section-II (Page 4 of 4)					
17	Self erection System	(a) Please confirm whether the self erection system should be for assembly and dismantling of crawler, car body and operator cabin only or it should be for counterweight also.	Our minimum requirement is already clearly specified in the said clause. Additional facility is welcome but not mandatory.		
17	Do	(b) How do you propose to erect and dismantle counterweight, through self erection facility or by using another crane?	Self explanatory in view of clarification to query 'a' above.
