 Central Foundry Forge Plant, Haridwar - 249403 INDIA
PREQUALIFICATION CRITERIA

DESCRIPTION: Reconditioning & Retrofitting (Conversion from water Hydraulic to Oil Hydraulic) of 2650T Four Column Hydraulic Press & 25T/50mT Rail Bound Manipulator as per Spec. FF11001 R01

PREQUALIFICATION REQUIREMENTS: In order to qualify as a bidder for this tender, the bidder must fulfil all of the criteria as mentioned under clauses 1 TO 5 below as detailed further under these clauses and other clause(s) / sub-clause(s). Bidder must submit all relevant documents in support of their claims against all applicable clause(s) / sub-clause(s) along with the bid itself.

SL. NO. (A)	DETAILS (B)	REMARKS (C)	BIDDERS' COMMENTS (D)
1	GENERAL INFORMATION AND INSTRUCTIONS	This section defines the Pre-Qualification Criteria for the item mentioned above under the title Description. All the potential bidders have to comply with each of the clauses mentioned under Clauses 2 to 5. All the sub-clauses under each of the clause or sub-clause, separated by "AND" are to be complied with together / collectively, and at least one of the sub-clauses under each of the clause or sub-clause, separated by "OR" are to be complied with in order to qualify for participation in this tender. Sub-Clauses not conjugated with OR or AND shall be considered as AND.	
2	TYPE OF ENTITIES	The type of entities qualifying for participation in this tender shall be a Firm or Company registered as any one or more of the following (with Rule 144(xi) of GFRs-2017 and PPP-MII Order-2017, with latest amendments applicable to all): A. A manufacturer of Hydraulic Forging Presses (Open Die or Closed Die) for processing of Hot Jobs at a minimum temperature of 1000°C OR B. A service provider for Reconditioning / Retrofitting / Modernization of Hydraulic Forging Presses for processing of Hot Jobs at a minimum temperature of 1000°C

DESCRIPTION: Reconditioning & Retrofitting (Conversion from water Hydraulic to Oil Hydraulic) of 2650T Four Column Hydraulic Press & 25T/50mT Rail Bound Manipulator as per Spec. FF11001 R01

SL. NO. (A)	DETAILS (B)	REMARKS (C)	BIDDERS' COMMENTS (D)
3.	COMPLIANCE TO GOVT. RULES & REGULATIONS:		
A.	COMPLIANCE TO PPP-MII ORDER 2017:	Offers of only those bidders shall be acceptable who qualify (preferably) as Class-I Local Bidder or as Class-II local bidder as provisioned in PPP – MII order-2017 with latest amendments as on the date of tender opening. All clauses of the said order, for decisions regarding evaluation, ordering etc. shall be applicable. This is the primary requirement for further evaluation of the Offer. Preference to Class-I Local Bidder over Class-II Local Bidder shall be decided in strict accordance with relevant clauses of the PPP – MII order-2017. Offers from Non-Local Bidders, as defined in the PPP-MII Order – 2017 shall be summarily rejected.	
B.	COMPLIANCE TO RULE 144(xi) OF GFRS – 2017:	Offers of only those bidders shall be acceptable who can supply all the items, including material and services, from only those sources which are permitted by Rule 144(xi) of GFRs – 2017 with latest amendments as on the date of tender opening. This will cover all items supplied from indigenous sources as well as sources other than indigenous. Offers from bidders not complying to this rule shall be summarily rejected.

PREQUALIFICATION CRITERIA

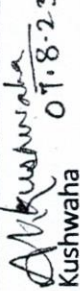

DESCRIPTION: Reconditioning & Retrofitting (Conversion from water Hydraulic to Oil Hydraulic) of 2650T Four Column Hydraulic Press & 25T/50mT Rail Bound Manipulator as per Spec. FF11001 R01

Explanation and clarification for the perspective Bidders quoting in the tender :

- 7 Explanation and clarification for the prospective Bidders quoting in the tender:
- i. Open Die Forging Press: Open Die Hydraulic Forging Press (Push Type or Pull Type with Oil or Water as hydraulic Medium) capable of forging ingots/slabs etc. with following operation:
 - a). Blooming
 - b). Upsetting
 - c). Ring Rolling
 - d). Finishing/ Plannishing.
(Only Vertical Presses)
 - ii. Closed Die Forging Press is press which can perform forging process in which dies move towards each other and covers the work piece in whole or in part. The heated raw material, which is approximately the shape or size of the final forged part, is placed in the bottom die. The shape of the forging is incorporated in the top or bottom die as a negative image.
For all purposes, only Vertical Presses shall be considered.
 - iii. Entities not experienced with Open Die or Closed Die Forging Presses as stipulated above in Note 7.i and 7.ii but with other types of presses, are not eligible to participate in this tender.
