

**PRE-QUALIFICATION REQUIREMENT FOR THERMO- HYDRAULIC
DESIGN SOFTWARE OF AIR COOLED CONDENSER**

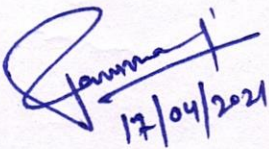

1. Bidder should have its own 'In-house developed' thermo- hydraulic design software for Direct Air Cooled Forced Cooling, Single Row Tube / Tube Bundle Air Cooled Condenser (ACC).

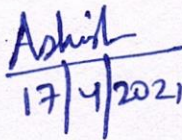

In support of this, bidder to furnish self-declaration as per Annexure-1

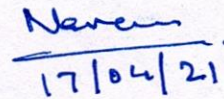

2. Bidder should have used the software for at least three projects of 200MW STG rating or above which are in operation. In support of this, bidder to furnish evidence (unpriced P.O. or suitable documents) for all three of the above projects, clearly establishing the usage of the offered software.

3. Software should be commercially available for use of third party.

In support of this, bidder to furnish evidence.
