

SCHEDULE 3

RHF Zone 3 VERTICAL ELECTRIC OIL PREHEAT

RHF Zone 3 VERTICAL ELECTRIC OIL PREHEATER

Input Pipe Size: 1 inch

Output Pipe Size: 1 inch

Heating Fluid: Very Low Sulphur Furnace Oil (VLSFO)

Heating Method: Electric

Heating Capacity: 36kW

Heater type: Inline Vertical Electric Oil Preheater

Fluid Kinematic Viscosity: 160 @ 50°C cst

Max. Operating Temperature: Max. 200°C

Max. Operating Pressure: 6 bar

Material Heating Elements: nickel-chromium alloy, iron-chromium-aluminium alloy, molybdenum disilicide, and silicon carbide or equivalent.
