

## **10KVA 3/1 Online UPS**

10kVA 3/1 Standalone Online Double conversion UPS  
UPS: 3ph 415V in - 1ph 230V out (pure sine waveform), 240VDC  
microprocessor controlled, SCR based Rectifier/Charger, IGBT  
(PWM) based  
Inverter,  
with isolation transformers, automatic switching via static  
switches  
with fast transient response,  
maintenance bypass switch, servo controlled voltage regulator  
in bypass  
supply line,  
protective devices and other accessories,  
control and display unit for monitoring of parameters and  
control of  
UPS.  
IP20 enclosure
