

Material : Nylon Special quality (2 side weaving).
 Pore Size : 100 microns.

Note:

1. Item no 1 to be cut as a ring of OD 660mm and ID 450mm (with stitching allowance) and to be stitched to Item no 2 without any pleats or Foldings as per Detail-B
2. Stitching should be done with care so that cloth edge remains within the stitched zone (i.e. two stitches).
3. Use $\phi 650 \times \phi 435$ template of steel/polywood for cutting item no.1, stitching retainer ring loop at OD, stitching item 01 to item 02 and checking for absence of pleats in item 01 after stitching.
