ANNEXURE-A to TCN -01

SL	Referenc eclause of tender document	Requirement as per Tender	Query / Deviations sought by Bidder	BHEL's Comment / Clarifications
1	Annexure- I,1.2	The reinforcement steel bar shall be produced from own plants of the manufacturer. The reinforcement steel bar shall be made from Fresh Billets (not from steel scrap) obtained from approved (BHEL/Customer) steel manufacturer. The billets should not be produced from steel scrap. Billets made from steel scrap will not be acceptable. Reinforcement steel bar manufactured by conversion agent; re-rolling of old steel shall not be accepted. Documents in support of the above shall be submitted as per the requirement of BHEL/Customer	We produce billets through EIF route using meltable steel scraps, sponge iron, Ferro Alloys etc. as raw materials to comply with BS4449 grade.	Deviation proposed by bidder with respect to produce of billets is acceptable. However, manufacturing of reinforcement steel shall comply with the requirement of BS4449. Mechanical properties and Chemical composition shall fulfill the requirement of BS4449 and the technical specifications of the tender.
2	Annexure-I, 5.2	Materials shall be inspected by the vendor or their representative. Purchaser reserves the right to inspect the materials by random selection & will send the sample to the approved laboratory for chemical and mechanical testing. The acceptance shall be on the basis of the satisfactory test result of the samples as per codes. The cost of such tests shall be borne by the supplier.	You are allowed to test samples from any approved laboratory within the country but the cost of such tests shall be borne by the purchaser.	Third party test in any approved laboratory in Bangladesh shall be arranged by bidder, if required. Cost of such test shall be borne by purchaser.
