Dear Sirs,

With reference to above, this is to confirm that as per tender conditions, we have visited site before submission of our offer and noted the job content & site conditions etc. We also confirm that we have not changed/ modified the tender documents as appeared in the website/ issued by you and in case of such observance at any stage, it shall be treated as null and void.

We hereby confirm that we have not taken any deviation from tender clauses together with other references as enumerated in the above referred NIT. We hereby confirm our unqualified acceptance to all terms & conditions, unqualified compliance to technical specification, integrity pact (if applicable) and acceptance to reverse auctioning process.

In the event of observance of any deviation in any part of our offer at a later date whether implicit or explicit, the deviations shall stand null & void.

We confirm to have submitted offer in accordance with tender instructions and as per aforesaid references.

Thanking you,

Yours faithfully,

(Signature, date & seal of authorized  
representative of the bidder)

### ANNUXURE-A TO TCN-01

Material management work, consisting of receipt, unloading, handling, verification, storage, issue, record maintenance, etc of materials of boiler & auxiliaries, TG & auxiliaries, electrical system, control & instrumentation system, non-BHEL system, steel, cement, construction equipments, miscellaneous items etc for 1x250 MW Unit at NSPCL, Rourkela PP-II Expansion, Odisha.

**Tender No. PSER:SCT: RKL-M1760:16**

Sl. No.	Reference Clause of Tender Document	Existing Provision	Bidders Query	BHEL's clarification
1.0	4.12 of Volume IF	BHEL will provide approx. 3000 nos. of concrete sleeper free of cost during execution based on the availability & requirement of the vendor. However, all the sleepers shall have to be returned when not in use and after completion of work with good condition.	<p>Whether it is feasible to return 3000 nos. sleepers in good condition after use for more than 3 years?</p> <p>During execution due to wear and tear sleepers could get damaged and it is also possible that used sleepers are not traceable after the long period of more than 3 years.</p>	BHEL will provide approx. 3000 nos. of concrete sleeper free of cost during execution based on the availability & requirement of the vendor. However, all the sleepers shall have to be returned, when not in use, and after completion of work in good condition except for normal wear and tear.
2.0	4.12 of Volume IF	All tarpaulins required for stacking the materials shall be provided by contractor within the quoted price at his cost,	<p>Whether materials meant to be stored inside a covered/semi covered store, which is/will be stored in open yard due to non-availability of covered/semi covered store require to be covered with Tarpaulin? If yes, who will provide the tarpaulin for those items?</p> <p>Contractor should not be burdened with providing tarpaulins for covering of materials which are meant to be stored in the covered store and actually stored in open yard due to non-availability of covered store.</p>	Any material, stored in the open yard, for whatsoever reason, has to be covered by tarpaulin, as per requirement and as per direction of BHEL Engineer.
3.0	4.23.12 Of Volume IF	40 MT Tyre mounted mobile crane with telescopic boom (of min length 30m).	<p>During the site visit we found that the probable storage yard is a greenfield land. Hence it is obvious that the road condition will not suit movement of tyre mounted cranes. In this situation chain mounted cranes (crawler cranes) are suitable. Keeping this reason in mind other regions like PSWR has requirement of 2 nos. 40T Crawler cranes for their project at 2x660 MW Mauda TPP.</p> <p>Since crawler cranes will more suitable than tyre mounted cranes, may we request for change of requirement of 40T Crane to crawler crane for better utilization?</p>	As per tender terms and condition.

**ANNUXURE-A TO TCN-01**

Material management work, consisting of receipt, unloading, handling, verification, storage, issue, record maintenance, etc of materials of boiler & auxiliaries, TG & auxiliaries, electrical system, control & instrumentation system, non-BHEL system, steel, cement, construction equipments, miscellaneous items etc for 1x250 MW Unit at NSPCL, Rourkela PP-II Expansion, Odisha.

**Tender No. PSER:SCT: RKL-M1760:16**

<b>Sl. No.</b>	<b>Reference Clause of Tender Document</b>	<b>Existing Provision</b>	<b>Bidders Query</b>	<b>BHEL's clarification</b>
4.0	13.3.1 OF Volume IF	In the event of the contract period getting extended beyond the stipulated contract period for reasons not attributable to the bidder, the bidder will be reimbursed at the above mentioned rate or (actual+5%), whichever is lower, if the services of operator/service staff are being used by BHEL	Actual payment made is wage + bonus pay + leave pay etc. Whether reimbursement will affect these components while calculation of actual payment made to the support service staffs during extension of the contract?	Its clarified that the actual cost/rate includes the cost actually to be incurred for these service staff (i.e. wage + bonus pay + leave pay etc.) and the contractor shall furnish documentary evidence towards this. .
5.0	2.7 of Volume IB GCC  And  37.0 of Volume IF	As per clause no 2.17 of Volume IB GCC, PVC is applicable during the period of contract and during period of extension. However as per clause no 37.0 of Volume IF SCC this contract does not have provision of rate revision / PVC	Which clause to be taken as applicable for this contract?  Cost implication have to be calculated during the period of contract plus period of extension, as PVC is not applicable as per clause 37.0 of Volume IF.  Now if period of extension if not specified, calculation isnot possible for indefinite period.  Please confirm the period of extension.	Please refer NIT cl. no. 32.0 for order of precedence between different parts of the Tender Document.
