**ANNEXURE-A TO TCN-02**

**MODIFICATION/REVISION**

<b>SL. NO.</b>	<b>REFERENCE CLAUSE OF TENDER</b>	<b>EXISTING PROVISION</b>	<b>MODIFIED/REVISED PROVISION</b>
1.0	Clause No 20.1 of VOLUME – IF (Rev-00) TCC-CML	BHEL shall provide construction power on chargeable basis at 415V level at one point. Contractor has to make their own distribution arrangement to draw electricity by arranging all required items e.g power cable, construction cable, ELCB,MCCB, JB's, Switch Borads etc to be arranged by vendor at his own cost.	To meet the construction power requirement of the Combustion Modification package, the Employer shall provide Two Number 415V feeders in LT switchgears. The Contractor shall extend supply from these Construction power feeders to meet the construction power requirements at the various locations included in the Contractor's scope through suitably rated <b>Isolation Transformers</b> along with <b>LT distribution boards</b> as per requirement. LT Packaged Sub-stations with Isolation transformers may also be used for this purpose. Suitable <b>metering</b> arrangement along with associated <b>Instrument transformers</b> and Metering Cubicles meeting the <b>DISCOM</b> requirements shall be provided by the Contractor at each Construction power feeder, for the measurement of actual energy consumed by the Contractor. <b>The charges only for the actual energy consumed by the Contractor shall be recovered by the Employer based on prevalent rate of DISCOM.</b> All necessary statutory requirements for charging construction power of Contractor's network shall be in the Contractor's scope. Construction power supply network is a temporary arrangement which shall be used during the project construction phase. To meet this requirement, the equipments may be arranged by Contractor either by shifting their existing equipments at other installation or by fresh procurement, which may be taken back after commissioning of the project.
