#### ANNEXURE - I

#### **Asset Management and Service Call Management**

#### Preamble

Electronics Division of BHEL is looking for a Software Product for Asset Management and Service Call Management. The product offered shall be a readily available solution only to be configured to meet BHEL's requirement. The product should be under warranty for one year after commissioning. The two modules - Asset Management and Service Call Management – should be closely integrated. To begin with, only IT assets will be managed. However, the product shall support management of all types of assets. Most of the IT hardware are procured on lease and are on comprehensive warranty during the entire lease period. Service Engineers from some of these vendors are available in BHEL during normal working hours of BHEL. For vendors whose personnel are not present in BHEL, service calls will have to be logged with their respective call centers. However, such calls will also have to get registered in this system.

#### **FEATURES**

#### General

Database Software: Oracle shall be the backend database. If any other software is used, the price of licenses required for the specified usage shall be given. This will be added to the price of the product for bid evaluation.

**End-user interface:** The software shall provide an easy-to-access web based user interface to log calls, view updates, search solutions, reports etc.

Controlled Access: User login shall be validated against Microsoft Active Directory.

Real time Dashboards: Graphical representation (Charts) based on the defined configurable SLAs of all calls of all the service providers logged, responded and resolved. These can be further drilled down to the individual call ID.

**Customer Satisfaction Survey**: User feedback on various parameters for each of the resolved calls. Templates should be available to collect feedback from the users at defined timeframes.

**Live Chat:** Within the user portal, user with an active call can initiate a live chat session with the assigned service engineer, or with a member of the service engineer's team.

Remote access: Service Engineer can take remote control of a PC and fix a problem. Service Engineer should be able to take remote tool through a shared view (Service engineer and user can operate the PC at the same time). Centralized account should be used for all such sessions. Service Engineer will gain Remote Rights for that particular session only on approval from the concerned user.

**Leave Notification& Attendance:** Provision for the service engineer to plan leaves. Also notify Service Desk Manager on the absence of the service engineer.

All service engineers on their arrival at BHEL, shall mark their attendance in the system. This data shall be used for SLA evaluation.

Notification: Notifications on the login screen if there is any planned downtime or other issues.

Holidays: Configure holidays / non-working days

A. S. Bagurad.

Page 1 of 6

Severity Matrix: Configuration of Severities based on the defined impact and urgency.

Report Builder: Enable the Service Desk Manager to generate custom charts and reports by selecting the columns from the database. The data in the report can be filtered on the basis of any field like a day,

Service Engineer, Service Provider, status, severity, caller etc.

Data Download: Data should be downloadable from the system into Excel.

#### **ASSET MANAGEMENT**

Creation of unlimited categories and numbers of assets (IT & Non-IT) shall be possible. The system should send reminders at configurable intervals for renewal of support contracts. Asset can be discovered through the installed agents or agent less scanning of LAN, WAN. It shall give complete information about the asset along with the hardware and software inventory. Reservation of facilities like conference rooms, projectors etc. should also be possible.

#### **Demand Management**

Department coordinators should be able to submit requirement of assets for their departments.

#### **Hardware Assets**

Assets of identical configuration and make are procured in large numbers. These are handled as a batch throughout their life cycle. Hence, it should be possible to assign AMC contractor etc. at a batch level, at a split batch level or at an individual level.

#### Multiple ways of addition of assets into the database

- O Templates for addition of asset one by one to the database.
- Auto discovery of assets- For assets not in the database, discovered information can be loaded to the asset database along with other details (like PO No, Supplier, Date of ordering, Date of receipt etc.) keyed in.
- o Importing assets in to the database from Excel sheets.

#### **Asset Distribution**

Assets are distributed through department coordinators. The inventory should show the undistributed stock with each department coordinator while showing the total inventory.

#### Asset Allocation, Transfer & Retirement

Assets are allocated to individuals and departments. Assets may be transferred from one user to another, one department to another or may be retired and disposed. Templates shall be available for the allocation and transfer of assets. Assets which are procured as a batch may be retired as a batch. The user details are to be auto populated from the active directory.

Retire assets no longer in use and maintain records of their entire service history including details of disposal.

A. S. Ragusadi

Page 2 of 6

#### **Software Assets**

#### Software distribution

Should support remote installation and patch application of softwares and also removal of identified softwares from identified PCs using silent installation feature.

#### Patch & Updates Management

Identified patches and updates should be able to get directly deployed. Multiple updates & patches should be pushed to all clients (Not through custom scripts of the concerned software).

Software License Metering: Asset can be discovered through the installed agents or agent less scanning. Shall scan the network and automatically discover all software available in each workstation. Identify use of unauthorized software in the organization and generate report stating the same, track all the under-licensed, over-licensed and compliant software. Authorization to use particular software is given to any user with respect to a particular host. The asset management software product shall manage all license types like OEM, concurrent, enterprise, free, named user, node locked, trial etc.

**Software Compliance Monitoring:** Send alerts when an unauthorized software installation is detected, ensuring software compliance on an on-going basis.

#### Reports

Dashboards/Reporting: Graphical representation of all the assets based on category, location, age of the asset, user which can be further drilled down to the call ID.

Hardware Inventory: Detailed hardware inventory reports about PCs in the network such as OS details, CPU details, network information, hard disk details, and RAM.

**Software Inventory:** Software Inventory report details software installed in workstations across the network. It shall help group licensed software enabling to track total number of actual installations versus purchased software licenses.

Hardware/Software Variance Reporting: Reporting the variance in the attributes for both hardware and software assets done through asset discovery.

#### Software metering

Should give the count and identification of PCs on which certain software is installed. It should also identify the unlicensed softwares and the PCs on which they are installed.

Data Retrieval and Upgrade through Barcode: Should be supported.

A.S. Raguesad.

#### **Service Call Management**

#### **Call Logging**

**Own Assets** 

Based on the login, all assets owned by the user shall be displayed with brief description. The user can select an asset and log a call by selecting from a drop-down fault list. If the list does not contain the type of the fault, 'others' may be selected. Based on this, a text box gets activated and the details can be written in the text box. Such complaints which are not part of the drop-down list can be added to the list.

#### Others' Assets

It should be possible to log a complaint for assets belonging to some other user. When such a user is selected, assets belonging to that user should be displayed for selection. Similarly, there are a few common assets assigned to departments. Any person belonging to the department can log a service call by selecting any of the common assets belonging to the department from the drop-down list.

Whenever a fault type is selected from the drop-down list of faults, the work flow should necessarily guide through earlier relevant resolutions so that it will provide the user an opportunity to resolve the issue himself.

#### Service as an Asset

Services like internet, mail, applications etc. shall also be treated as assets and should provide for logging service calls against them for eligible users.

The calls shall automatically get time-stamped with the system time.

#### **Call Closure**

The complaint gets listed against the concerned service provider. A service engineer from the service provider will attend the call. He can refer to the call database for a solution if similar call was logged and resolved earlier. The engineer shall close the call after providing the resolution. The identification of the service engineer is recorded against the call for the tracking of SLA. The resolution shall be captured in the database for future reference. The user shall close or reopen the call within the time allowed (shall be configurable). Otherwise, the call will automatically get permanently closed.

Calls for which temporary resolutions are provided, should be flagged and escalated as per the configurable time interval.

A. S. Ragwad.

#### Call transfer

Calls can be transferred by the service desk manager from one service provider to another in case of inappropriately assigned calls. The service engineer to whom the call is inappropriately assigned can reassign the call to the concerned service provider. However, the service desk manager needs to ratify it. Service engineers belonging to the same service provider can transfer calls among themselves.

#### **Prioritization**

Calls can be prioritized over other calls on case to case basis by the service desk manager. This is in addition to the calls which by default get high priority based on the severity matrix.

#### **Escalation**

Unattended complaints shall automatically get escalated to various levels after passage of configurable time intervals both within BHEL and within the service provider's organization through automated email communication. Manual escalation bypassing the configured timelines must be possible for the service desk manager.

#### **Call Status**

Users will be able to view the status like the service engineer to whom the call is assigned, temporary solution provided if any, resolution provided, etc. They can provide feedback on service quality before closing the call.

#### Reports

Reports to provide data based on users / Departments / assets / Nature of complaint

- o **Dashboard**: Daily and Monthly report on the call volume, call status, SLA summary, Service Provider wise Summary, User group summary, details of pending calls along with the graphical representation of the call volume and the call status.
- O **SLA Report** By Service Provider, Service Engineer, User group, and Location: Report depicting the Response and Resolution compliance for defined time duration for all severities.
- O **Status Report** List of all the open calls call id, Log time, Status, Caller, Category, description, Severity, Service Provider.
- O Miscellaneous Report: Top 20 Callers, reopened calls and repeated failures.
- O Feedback Summary Report: a graphical report on feedback and also a detailed rating report on each feedback question.

A.S. Bagwad.

#### 10. DUN &BRADSTREET REPORT (for Foreign purchase):

In case of foreign vendors, BHEL reserves the right to verify the Dun & Bradstreet report during techno-commercial scrutiny.

#### 11. Payment of Agency Commission to Indian Agent (for Foreign purchase):

- i. BHEL shall deal directly with foreign vendors, wherever required, for procurement of goods. However, if the foreign principal desires to avail of the services of an Indian agent, then the foreign principal should ensure compliance to regulatory guidelines which require mandatory submission of an Agency Agreement.
- ii. It shall be incumbent on the Indian agent and the foreign principal to adhere to the relevant guidelines of Government of India, issued from time to time.

- iii. The Agency Agreement should specify the precise relationship between the foreign OEM / foreign principal and their Indian agent and their mutual interest in the business. All services to be rendered by agent/ associate, whether of general nature or in relation to the particular contract, must be clearly stated by the foreign supplier/ Indian agent. Any payment, which the agent or associate receives in India or abroad from the OEM, whether as commission or as a general retainer fee should be brought on record in the Agreement and be made explicit in order to ensure compliance to laws of the country.
- iv. Any agency commission to be paid by BHEL to the Indian agent shall be in Indian currency only.
- v. Tax deduction at source is applicable to the agency commission paid to the Indian agent as per the prevailing rules.
- vi. In the absence of any agency agreement, BHEL shall not deal with any Indian agent (authorized representatives / associate / consultant, or by whatever name called) and shall deal directly with the foreign principal only for all correspondence and business purposes.
- vii. The "Guidelines for Indian Agents of Foreign Suppliers" enclosed at annexure -'A' shall apply in all such cases.
- viii. The supply and execution of the Purchase Order (including indigenous supplies/ service) shall be in the scope of the OEM/ foreign principal. The OEM/ foreign principal should submit their offer inclusive of all indigenous supplies/ services and evaluation will be based on 'total cost to BHEL'. In case OEM/ foreign principal recommends placement of order(s) towards indigenous portion of supplies/ services on Indian supplier(s)/ agent on their behalf, the credentials/ capacity/ capability of the Indian supplier(s)/ agent to make the supplies/ services shall be checked by BHEL as per the extant guidelines of Supplier Evaluation, Approval & Review Procedure (SEARP), before opening of price bids. In this regard, details may be checked as per Annexure-H. It will be the responsibility of the OEM/ foreign principal to get acquainted with the evaluation requirements of Indian supplier/ agent as per SEARP available on <a href="https://www.bhel.com">www.bhel.com</a>.

The responsibility for successful execution of the contract (including indigenous supplies/ services) lies with the OEM/ foreign principal. All bank guarantees to this effect shall be in the scope of the OEM/ foreign principal.

**12.** <u>TOTAL COST TO BHEL:</u>Purchase order will be placed on the lowest quotation (L1) only among the technically & commercially accepted quotations. Lowest quotation (L1) is determined on the basis of the total cost to BHEL.

#### 22. POST-ORDER REQUISITES:

- (a) Vendor shall give an Order Acknowledgement indicating the delivery date within one week of receipt of PO.
- **(b)** Pre-shipment inspection at vendor's works, if required, will be carried out by BHEL. Required assistance will have to be provided by the vendor at the time of pre-shipment inspection.

- **(c)** Test certificates, Calibration certificates and warranty certificates as stipulated at the time of ordering shall be furnished.
- **(d)** Items shall be dispatched by Air/Road/Rail/Sea worthy packing. Any damage and later rejection, due to poor / improper packing shall be to vendor's account.
- **(e)** Any damage/rejection should be made good or replaced immediately without any extra cost to BHEL such as freight, duties, taxes etc. The liability is restricted to the value of the order.
- (f) Wherever commissioning is involved, it shall be carried out by the vendor's qualified engineers. Scope of work includes installation, commissioning and start-up trials till satisfactory performance level is reached as certified by BHEL.
- (g) BHEL will not be responsible for any loss, damage or injuries to vendor's personnel sustained during installation / commissioning / start-up trials. Vendor shall ensure compliance with all statutory requisites as laid down by local bodies, state & Central Government. Vendor shall indemnify BHEL for all damages/ losses to various personnel during their presence in BHEL's premises for whatever purpose.
- (h) Suitable markings & damage control indicating devices shall be provided where applicable.
- 23. Equipment shall comply with the standard requirements of ISO 14001 & OHSAS 18001.
- **24.** <u>RISK PURCHASE:</u> The purchaser at his discretion may also make purchase of the materials **NOT** supplied in time at the **RISK & COST** of the supplier. In this event, it will be obligatory on the part of the supplier who fails to supply the goods in time to make good to BHEL any loss due to such risk purchase

#### 25. GENERAL TERMS AND CONDTITIONS GOVERNING REVERSE AUCTION (RA):

- (a) Against this enquiry for the subject item/system with detailed scope of supply as per enquiry specifications, BHEL may resort to "REVERSE AUCTION PROCEDURE" i.e., ON LINE BIDDING ON INTERNET. For the proposed RA, technically and commercially acceptable bidders only shall be eligible to participate.
- (b) In case of RA, BHEL will engage the services of a service provider for conduct of theRA who will provide all necessary training and assistance to the bidders before commencement of on line bidding on internet.
- **(c)** Business rules governing the RA will be communicated to the bidders through service provider for compliance.
- **(d)** Vendors have to fax the Compliance form in the prescribed format (provided by Service provider) before start of RA. Without the compliance, the vendor will not be eligible to participate in the event.
- (e) BHEL will provide a sample calculation sheet (in EXCEL format) which would help the bidders to arrive at "Net Cash outflow to BHEL" considering various price / cost elements like Packing & forwarding charges, Taxes and Duties, Freight charges, Insurance, Service Tax for Services and loading factors (for non-compliance to BHEL standard Commercial terms & conditions) etc. for each of the bidders to enable them to arrive at "Net Cash

- outflow to BHEL (Total Cost to BHEL)" which is the amount the bidder would be bidding during the RA.
- (f) RA will be conducted on scheduled date & time and at the end of event, the lowest bidder value will be known on the network.
- **(g)** The lowest bidder has to Fax the duly signed "Price Break-up" in prescribed format as provided on case-to-case basis to BHEL through Service provider within 24 hours of Auction without fail.
- **(h)** Any variation between the on-line bid value and the signed document will be considered as sabotaging the tender process and will invite disqualification of vendor to conduct further business with BHEL, as per the prevailing procedure.
- 26. <u>REGRET LETTER:</u>In case any vendor is unable to quote, vendor shall send a regret letter without fail. In case of non-receipt of quotations or regret letters for three consecutive enquiries, such vendor is liable to be removed from our vendor list.
- **27.** Any dispute arising out of this, shall be referred to the sole arbitration of Head of Dept. Materials Management of group concerned, BHEL EDN or any other officer nominated by him and his award shall be final and binding on the parties. The venue of the arbitration in all cases shall be Bangalore.
- 28. Any legal suit in respect of this enquiry lies in the court of Jurisdiction of Bangalore (India) only.
