**13 REVERSE AUCTION (RA):
GUIDELINES FOR REVERSE AUCTION (RA)**

BHEL shall be resorting to Reverse Auction (guidelines available on www.bhel.com) for this tender. RA shall be conducted among all the techno-commercially qualified bidders, as per latest RA guidelines in effect from time to time.

Price bids of all techno-commercially qualified bidders shall be opened and same shall be considered as initial bids of bidders in RA. In case any bidder(s) does not participate in online Reverse Auction, their sealed envelope price bid along with applicable loading, if any, shall be considered for ranking.

13.1 SCOPE:

SCOPE

Against this enquiry for the subject item / system with detailed scope of supply as per enquiry specifications, BHEL may resort to “REVERSE AUCTION PROCEDURE” i.e., ON LINE BIDDING (THROUGH A SERVICE PROVIDER). The philosophy followed for RA shall be English Reverse (No ties).

Those bidders who have given their acceptance to participate in Reverse Auction will have to necessarily submit ‘Process compliance form’ (to the designated service provider) as well as ‘Online sealed bid’ in the Reverse Auction.

English Reverse (No ties) is a type of auction where the starting price and bid decrement are announced before start of online reverse auction. The interested bidders can thereupon start bidding in an iterative process wherein the lowest bidder at any given moment can be displaced by an even lower bid of a competing bidder, within a given time frame. The bidding is with reference to the current lowest bid in the reverse auction. All bidders will see the current lowest quoted price and their rank. The term ‘No ties’ is used since more than one bidder cannot give an identical price, at a given instant, during the reverse auction. In other words, there shall never be a tie in the bids.

13.2 BUSINESS RULES FOR REVERSE AUCTION:

ANNEXURE-I

BUSINESS RULES FOR REVERSE AUCTION

This has reference to the Tender No: [HY/FCD/OT-20/2022-23](#), date: **01.02.2023**.

BHEL shall finalise the Rates for the supply of “*Renovation of Conference Hall in External Services Dept., 02 Annexe, 2nd Floor - in 2nd Phase*” through Reverse Auction mode.

- (ii) Bidders’ technical & commercial bid (in case of two part bid)
- (iii) subsequent correspondences between BHEL and the bidders, if any.

13.2.1 PROCEDURE OF REVERSE AUCTIONING:

- (i) Price bids of all techno-commercially qualified bidders shall be opened and same shall be considered as initial bids of bidders in RA.
- (ii) **Online Reverse Auction:** The “bid decrement” shall be decided by BHEL.
- (iii) If BHEL decides the lowest sealed envelope price bid as the starting price, then the lowest bidder in sealed envelope price bid shall be shown as current L1 automatically by the

system and no acceptance of that price is required. System shall have the provision to indicate this bid as current L1.

- (iv) Bidders by offering a minimum bid decrement or the multiples thereof can displace a standing lowest bid and become “L1” and this continues as an iterative process. However, no bidder shall be allowed to lower its bid below the current L1 by more than FIVE (05) decrements at one go.
- (v) After the completion of the online reverse auction, the Closing Price (CP) shall be available for further processing.
- (vi) Wherever the evaluation is done on total cost basis, after Reverse Auction, prices of individual line items shall be reduced on pro-rata basis.

Close Time	:	14:30 hours

13.2.3 AUCTION EXTENSION TIME:

- (ii) Please note that the auto-extension will take place only if a bid comes in those last **FIVE (5) minutes** and if that bid gets accepted as the lowest bid. If the bid does not get accepted as the lowest bid, the auto-extension will not take place even if that bid might have come in the last **FIVE (5) minutes**. In case, there is no bid in the last **FIVE (5) minutes** of closing of Reverse Auction, the auction shall get closed automatically without any extension. However, bidders are advised not to wait till the last minute or last few seconds to enter their bid during the auto-extension period to avoid complications related with internet connectivity, network problems, system crash down, power failure etc., for which they are solely responsible and neither BHEL nor RA service provider are responsible.
- (iii) The above process will continue till completion of Reverse Auction.
- (iv) Complaints / Grievances, if any, regarding denial of service or any related issue should be given in writing thru email/ fax to M/s. { **XXXX** } with a copy to BHEL within 15 minutes prior to initial closing time of Online Reverse Auction.

Details are as shown in Excel Sheet for calculation of total cost to BHEL.

13.2.5 BIDDING CURRENCY AND UNIT OF MEASUREMENT:

Bidding shall be conducted in *Indian Rupees* per *Unit* of the contract / material as per the specifications.

In case of foreign currency bids, exchange rate (TT selling rate of State Bank of India) as on scheduled date of tender opening (Part-I bid) shall be considered for conversion in Indian Rupees. If the relevant day happens to be a Bank holiday, then the forex rate as on the previous bank (SBI) working day shall be taken.

13.2.6 VALIDITY OF BIDS:

Price(s) shall be valid for 120 days from the date of Reverse Auction. These shall not be subjected to any change for whatsoever reason.

13.2.7 LOWEST BID OF A BIDDER:

In case the bidder submits more than one bid, the lowest bid at the end of Online Reverse Auction shall be considered as the bidder's final offer to execute the work.

13.2.8 UNIQUE USER ID:

Unique User ID shall be used to all bidders during bidding process. All bids made from the Login ID given to the bidders will be deemed to have been made by the bidders / bidders' company. MSEs and Bidders qualified under PPP-MII, Order 2017 would see their category at all time in their login. Purchase preference, however, is subject to falling within the purchase preference criteria.

13.2.9 POST AUCTION PROCEDURE:

BHEL shall proceed only with the Lowest Bidder in the Reverse Auction for further processing.

13.2.10 COMMERCIAL / TECHNICAL LOADING:

Any commercial / technical loading shall be intimated to bidders prior to RA. The excel sheet provided in this regard shall cover all these aspects. Commercial / technical loading if any, shall be added by the respective bidder in its price during online sealed bid & Online Reverse Auction. Modalities of loading & de-loading shall be separately intimated to the bidders. The responsibility for correctness of total cost to BHEL shall lie solely with the bidders.

13.2.11 COMPUTERIZED REVERSE AUCTION:

Computerized reverse auction shall be conducted by BHEL (through M/s XXXX), on pre-specified date, while the bidders shall be quoting from their own offices/ place of their choice. Internet connectivity shall have to be ensured by bidders themselves.

During the RA process, if a bidder is not able to bid and requests for extension of time by FAX / email / phone then time extension of additional 15 minutes will be given by the service provider provided such requests come before FIVE (5) minutes of auction closing time. However, only one such request per bidder will be entertained.

In order to ward-off contingent situation of connectivity failure bidders are requested to make all the necessary arrangements/ alternatives whatever required so that they are able to circumvent such situation and still be able to participate in the reverse auction successfully. Failure of power or loss of connectivity at the premises of bidders during the Reverse auction cannot be the cause for not participating in the reverse auction. On account of this, the time for the auction cannot be extended and neither BHEL nor M/s. {XXXX} is responsible for such eventualities.

13.2.12 PROXY BIDS:

Proxy bidding feature is a pro-bidder feature to safe guard the bidder's interest of any internet failure or to avoid last minute rush. The proxy feature allows bidders to place an automated bid in the system directly in an auction and bid without having to enter a new amount each time a competing bidder submits a new offer. The bid amount that a bidder enters is the minimum that the bidder is willing to offer. Here the system / software bids on behalf of the bidder. This obviates the need for the bidder participating in the bidding process until the proxy bid amount is decrementally reached by other bidders. When proxy bid amount is reached, the bidder (who has submitted the proxy bid) has an option to start participating in the bidding process.

The proxy amount is the minimum amount that the bidder is willing to offer. During the course of bidding, the bidder cannot delete or change the amount of a proxy bid.

Bids are submitted in decrements (decreasing bid amounts). The application automates proxy bidding by processing proxy bids automatically, according to the decrement that the auction originator originally established when creating the auction, submitting offers to the next bid decrement each time a competing bidder bids, regardless of the fact whether the competing bids are submitted as proxy or standard bids. However, it may please be noted that if a manual bid and proxy bid are submitted at the same instant manual bid will be recognized as the L1 at that instant.

In case of more than one proxy bid, the system shall bid till it crosses the threshold value of 'each lowest proxy bid' and thereafter allow the competition to decide the final L1 price.

Proxy bids are fed into the system directly by the respective bidders. As such this information is privy only to the respective bidder(s).

13.2.13 Bidders are advised to get fully trained and clear all their doubts such as refreshing of Screen, quantity being auctioned, tender value being auctioned etc., from M/s {XXXX }.

13.2.14 TRAINING:

M/s. {XXXX}, shall arrange to demonstrate / train the bidder or bidder's nominated person(s), without any cost to bidders. M/s. {XXXX }, shall also explain the bidders, all the business rules related to the Reverse Auction. Bidders are required to submit their acceptance to the terms/ conditions/ modalities before participating in the Reverse Auction in the process compliance form as enclosed. Without this, the bidder will not be eligible to participate in the event.

13.2.15 FINAL PRICE ACCEPTANCE:

Successful bidder shall be required to submit the final prices (L1) in prescribed format (Annexure – VI) for price breakup, quoted during the Online Reverse Auction, duly signed and stamped as token of acceptance without any new condition (other than those already agreed to before start of auction), after the completion of auction to M/s. { XXXX } besides BHEL within two working days of Auction without fail.

13.2.16 ACTION AGAINST VARIATION IN ACCEPTANCE OF THE FINAL BID:

Any variation between the final bid value and that in the confirmatory signed price breakup document will be considered as tampering the tender process and will invite action by BHEL as per extant guidelines for suspension of business dealings (as available on www.bhel.com).

13.2.17 Bidders' bid will be taken as an offer to execute the work/ supplies the item as per Tender / Enquiry No: [HY/FCD/OT-20/2022-23](#), date: **01.02.2023**. Bids once made by the bidder, cannot be cancelled / withdrawn and bidder shall be bound to execute the work as mentioned above at bidder's final bid price. Should bidder back out and not execute the contract as per the rates quoted, BHEL shall take action as per extant guidelines for suspension of business dealings (as available on www.bhel.com).
