FOR
AIR RELEASE VALVES
2x660MW KHURJA (TG)**

SPECIFICATION NO.: PE-TS-475-100-M019

SECTION:

REV. NO.: 00

DATE: 04.03.2022

SHEET 1 OF 1

SECTION-I

SPECIFIC TECHNICAL REQUIREMENTS

 	SPECIFIC TECHNICAL REQUIREMENTS AIR RELEASE VALVES 2x660MW KHURJA (TG)	SPECIFICATION NO.: PE-TS-475-100-M019	
		SECTION: I	
		REV. NO.: 00	DATE: 04.03.2022
		Sheet 1 of 4	

1. GENERAL

- 1.1. The valves shall meet the technical requirements and conform to the requirements of Section-I and Data sheet-A of Section-II. However, in the event of contradictions between Section-I & Section-II/Data Sheet-A, Data Sheet-A will prevail.
- 1.2. The technical requirements for valves shall, in general, be as per the attached Data Sheet-A of Section-II.

2. SCOPE OF SUPPLY

- 2.1.1. The valves complete with all accessories shall be supplied as per Data Sheet-A of Section-II. For detail refer the same. Each valve (quantity and other details specified in Data Sheet-A) shall have lifting arrangement provision for handling i.e., lifting lugs, eye bolts etc.
- 2.2. Commissioning spares, as per Data Sheet-A.
- 2.3. Set of special tools and tackles, if required, for the maintenance, erection etc. of the equipment supplied.
- 2.4. Finish paints for touch-up painting of equipment after erection at site in sealed containers.
- 2.5. Various drawings, datasheets, operation and maintenance manuals etc. (Nos./ sets of hard copies shall be informed as per project specific requirement).

3. CODES AND STANDARDS

- 3.1. The design, materials, construction features, manufacture, inspection and testing of valves shall conform to the latest applicable codes and standards.
- 3.2. The valves covered under this specification shall be designed and tested as per IS:14845.
- 3.3. In case of any conflict between the above codes/ standards and this specification, the later shall prevail and in case of any further conflict in the matter, the interpretation of the specification by the BHEL shall be final and binding.

4. DESIGN REQUIREMENTS

- 4.1. Valves shall be flanged, double orifice, double float & kinetic type.
- 4.2. All valves shall be suitable for the service conditions i.e. flow, temperature, pressure and medium under which they are required to operate and those performing similar duties shall be interchangeable with each other unless otherwise specified.

5. MATERIALS

- 5.1. The materials of construction of main parts of Air Release valves shall be as specified in Data Sheet-A.

 	SPECIFIC TECHNICAL REQUIREMENTS AIR RELEASE VALVES 2x660MW KHURJA (TG)	SPECIFICATION NO.: PE-TS-475-100-M019	
		SECTION: I	
		REV. NO.: 00	DATE: 04.03.2022
		Sheet 2 of 4	

- 5.2. The materials of construction of the remaining parts shall be as per the relevant standard governing the valves and to suit water quality. These materials shall be subjected to approval.
- 5.3. Material used in manufacture of valve shall be of tested quality.

6. CONSTRUCTION FEATURES

- 6.1. The float shall not close the valve at higher air velocities. The orifice contact joint with the float shall be leak tight. The valves shall efficiently discharge the displaced air automatically from pipes/ducts while filling them & admit air automatically into them while they are being emptied.
- 6.2. The valve shall also be able to release any trapped air while at normal working conditions from pipes/ducts.
- 6.3. The body of valve shall be of one-piece construction.
- 6.4. All valves shall be fitted with a stainless steel nameplate (2 mm thick) with valve tag nos. & service description, engraved 1 mm deep and filled with black enamel paint. This nameplate is in addition to the rating plate being provided by vendor indicating the valve body material, rating, size etc.

7. MANUFACTURE OF VALVES

- 7.1. Valve castings shall be procured from foundries observing strict quality control and approved by reputed customers.
- 7.2. Particular care shall be taken to ensure that all foundry sand and loose material is properly removed from castings by fettling before the valve's assembly is started.

8. TESTING, INSPECTION & QUALITY ASSURANCE

- 8.1. The items covered under this contract shall be subjected to inspection, testing and quality surveillance. The Inspection Agency shall, at all reasonable times have access to Vendor's works, Quality Control records and all facilities as reasonably required for carrying out the inspection and testing efficiently, and these shall be provided by the vendor free of cost.
- 8.2. The Quality Plan enclosed with this specification specify minimum quality control requirement. During contract stage vendor shall furnish this Quality Plan duly signed & stamped for BHEL approval. Quality plans shall be approved by BHEL and customer, as per project requirement. All inspection and testing shall be carried out by BHEL/ BHEL representative and customer (as applicable). In case inspection is by both BHEL and their customer, then the inspection can be carried out jointly or separately, which will be informed later. In case of the foreign bidder, inspection shall be carried out by reputed third party.
- 8.3. The charges for third party inspection (Lloyds, TUV or equivalent) for foreign bidders shall be included in the base price of the item by the bidder. This third party agency shall be approved by BHEL. Bidder to inform the same in the offer and mention the same in Quality Plan.

 	SPECIFIC TECHNICAL REQUIREMENTS AIR RELEASE VALVES 2x660MW KHURJA (TG)	SPECIFICATION NO.: PE-TS-475-100-M019	
		SECTION: I	
		REV. NO.: 00	DATE: 04.03.2022
		Sheet 3 of 4	

- 8.4. There may be minor changes in quality plan depending on customer/consultant comments which will have to be accommodated by vendor at no extra cost.

9. PAINTING REQUIREMENT:

9.1. Cast Iron Valves: –

Valves shall be painted externally after the necessary testing has been carried out. Just before the painting, valve bodies and other items shall be thoroughly cleaned with wire brush/ hand tool (St1/St2/St3 as applicable). The surface preparation shall be carried out using any one or combination of SP3/SP5 schemes. The valves shall be first painted with two (2) coats of zinc chromate primer (alkyd base) to IS:104/ Red Oxide Zinc Phosphate primer (Alkyd base) to IS:12744 with each coat of DFT of min. 25 microns. This shall be followed by 1 coat of Intermediate coat of Synthetic Enamel (long oil alkyd) to IS:2932 with DFT of min. 30 microns. Finish paint shall be of two (2) coats of Synthetic Enamel (long oil alkyd) to IS:2932 with each coat of DFT of minimum 35 microns & the total DFT of primer, intermediate & finish paint shall be 150 microns minimum. Colour shade of finished/ final paint shall be shade no. Grey as per RAL 9002.

10. PACKING INSTRUCTIONS:

- 10.1. Each valve shall be drained, cleaned, prepared and suitably protected in such a way so as to minimize the possibility of damage and deterioration during transit and storage.
- 10.2. The valve shall be dispatched in total assembled form.
- 10.3. Body ends shall be suitably sealed to protect them against damage during transit and storage.
- 10.4. A thin sheet steel circular blanking plate of a diameter 6mm less than the bolt holes inner P.C.D. shall be firmly fixed to the flange faces by the application of adhesive after first ensuring that the flange faces have been thoroughly degreased. A thin coat of adhesive shall be applied to the flange face and the blanking plate and then allowed to dry for 15-20 minutes. The coated face of the blanking plate should then be offered up to the face of the flange taking care that the plate is concentric with the flange. Firm pressure shall be applied to ensure intimate contact between plate and flange. A wooden blank should then be bolted to the flange using a minimum of 4 bolts.
- 10.5. Valve Tag Nos. shall be incorporated in all the dispatch documents.
- 10.6. Proper care shall be taken to avoid damage to the painted surface during transit.
- 10.7. All the valves shall be packed suitably in wooden cases in order to avoid damage during transit and also during storage at site in tropical climate conditions.
- 10.8. Vendor to provide soft copy of photos/snaps of duly packed valve. The soft copies to be provided by vendor after final inspection of valves. Clearance for dispatch of valves will be given only after satisfactory packing conditions of valves from vendor's work.

There may be minor changes in packing depending on customer/consultant comments which will have to be accommodated by vendor at no extra cost.

 	SPECIFIC TECHNICAL REQUIREMENTS AIR RELEASE VALVES 2x660MW KHURJA (TG)	SPECIFICATION NO.: PE-TS-475-100-M019	
		SECTION: I	
		REV. NO.: 00	DATE: 04.03.2022
		Sheet 4 of 4	

11. SPARES

- 11.1. Mandatory Spares: Refer Data Sheet-A.
- 11.2. Order for the spares may be placed simultaneously or otherwise at the option of purchaser.

12. EXCLUSIONS:

- 12.1 The following are excluded from the bidder's scope:
 - 12.1.1. Counter flanges and their nuts and bolts.
 - 12.1.2. Erection & Commissioning of equipment at site.

13. DOCUMENTS TO BE SUBMITTED ALONG WITH OFFER

- 13.1. Bidder shall submit the following documents duly filled, signed and stamped along with the bid:
 - 13.1.1. Compliance sheet.
 - 13.1.2. Documents as per the list indicated in the NIT.

The above are the only documents which will be used for technical evaluation unless other documents are asked for during technical clarifications. Any other technical document enclosed with the bid shall be ignored for the purpose of technical evaluation. All other documents attached with the specification are for information of the vendor and no comments shall be marked on these.

14. DOCUMENTS TO BE SUBMITTED AFTER AWARD OF CONTRACT:

Category-A:

1. GA Drawing indicating complete cross sectional arrangement of valve, binding dimensions, dismantling clearances, weight and Bill of Material incorporating all material of construction (MOC) of various parts & relevant standard to which MOC confirms to.
2. Quality plan duly signed and stamped.

Approval of above documents shall be required for manufacturing clearance and the same shall be considered for delay analysis by BHEL.

Category-B:

1. Characteristics curves of ARV while filling and emptying.
Above document is required as information for approval of category-A documents. This shall not be considered for delay analysis.

PRE - QUALIFYING REQUIREMENTS

DOCUMENT NO.: PE-TS-475-000-M061

REVISION NO.: 00 DATE: 04.03.2022

SHEET: 1 of 3

Standard document No.:PE-TS-999-000-M061

Project: 2x660MW KHURJA (TG)**Package: Air Release Valves****CRITERIA FOR EVALUATION (TECHNICAL / FINANCIAL):****1. Technical Pre-Qualifying Requirements:**

1.1 The bidder (including cases as defined in clause no. 2.1 below) should have designed, in-house manufactured, tested, inspected and supplied Air Release Valves of minimum size of 150NB with material of construction as CI/ CS/ SS as per IS:14845/ AWWA C512 for use in a power plant or for similar application.

1.2 The item(s) mentioned in point 1.1 should have performed successfully in similar installations for atleast one year. To establish meeting this requirement, the bidder shall conform to any one of the following clauses:

- (i) Execution of two purchase orders for different End-users with the item(s) performing successfully for one (1) year from date of commissioning to date of bid submission as defined in Notice Inviting Tender (NIT) by BHEL. Different projects of a customer shall be considered as different End-users.
- (ii) Minimum one (1) repeat contract from two (2) different Purchasers (i.e. 2 Nos. of Purchase orders from each purchaser). A contract shall be considered as repeat, when the second contract is given by the same purchaser after lapse of minimum one (1) year from supply completion of first contract.
- (iii) Execution of one (1) purchase order as per sl. no. (i) above from one End-user and one (1) repeat contract from another Purchaser as per sl. No. (ii) above.
- (iv) Three (3) repeat contracts from one (1) Purchaser. Second and third repeat contract shall be after lapse of minimum one (1) & two (2) years respectively from supply completion of first contract.

1.3 The bidder to furnish the following documents, as applicable, in support of the above:

- a) For point 1.2(i): Performance certificates from End-user (duly signed & dated) specifying that the product is performing successfully for one (1) year from date of commissioning along with correlated purchase order(s).
- b) For point 1.2 (ii) & (iv): Purchase order(s), Material dispatch clearance certificate (MDCC)/ Material receipt certificate (MRC)/Lorry receipt (LR)/ Supply invoice.

1.4 In addition to above, bidder should have the following facilities for size and material of construction of Air Release Valve as per BHEL requirement as mentioned in Data sheet-A of Technical Specification:

- a) Capability of designing and manufacturing of the item(s).

PRE - QUALIFYING REQUIREMENTS

DOCUMENT NO.: PE-TS-475-000-M061

REVISION NO.: 00 DATE: 04.03.2022

SHEET: 2 of 3

- b) In-house testing facilities for carrying out tests as per relevant standards & Quality Plan. In case, the in-house testing facilities are not available, then bidder shall furnish undertaking that test(s) will be carried out from govt. approved lab or test house recognized by reputed customers.

Bidder to submit supporting documents (Purchase order (s)/ Certificate indicating capacity and details/ undertaking of manufacturing & testing facilities) for point (a) & (b) above.

- 1.5 To establish business continuity, bidder is required to submit at least two (2) Purchase order for Air Release Valves with minimum size of 100NB in last 3 (three) years prior to the date of bid submission as defined by BHEL-PEM in NIT.

2. Bidder to also comply with general points mentioned below.

- 2.1 Offers of the JV companies/ Joint Bidders/ bidders having collaboration/ licensing agreement/ MOU/ Indian subsidiaries shall be evaluated as follows:
