

2023OVM005
Section-II-A
(RS wise List of
Indicative Drawings)

Rate schedule	RS Description	Indicative/Typical Ref Drawings
RS01	Plate Formed Pipes of 5100mm Diameter	2-N0-468-00027
RS02	Plate formed Un Equal Tee of Diameter 5100mm	3-N0-468-00086
RS02	Plate formed Un Equal Tee of Diameter 5100mm	3-N0-468-00087
RS02	Plate formed Un Equal Tee of Diameter 5100mm	3-N0-468-00088
RS03	Tori spherical Dished Ends	4-N0-468-00052

Note:

"To ensure the efficient handling and lifting of pipes, it is necessary to attach lugs onto the external surface of the fabricated pipes. Furthermore, for maintaining the circularity of ends of large diameter pipes, the use of spiders is imperative. The information regarding the arrangement and fabrication procedures for both 'Lifting Lug' and 'Spiders' can be found in drawings [3-80-468-34607](#) and [4-80-999-93078](#) respectively.

Vendors are requested to take note that these Lifting Lugs & Spiders serve a temporary purpose and are intended to be removed on-site after the completion of the handling, welding and erection phase.

Importantly, these lugs and spiders are not an integral component of the final pipes once erected at the site. Therefore, it is emphasized that the Purchase Order issued for the pipes will **NOT** include the lifting lug and spider materials and their weights. Vendors are expected to provide their quotations considering these additional materials and associated weights."
