- 22.1 In case of delay in delivery beyond PO delivery / mutually agreed delivery, or Vendor/Sub-contractor fails /refuses to complete the PO as per terms or insufficient facilities at sub-contractor's works to execute a PO, BHEL has the right to get the items ordered elsewhere at the risk and cost of the subcontractor with notice to the subcontractor; and the additional expenditure / difference in cost, if any, including consequential cost shall be recovered from the defaulted subcontractor. to procure at least 50% of the quantity of raw materials within half of the delivery period given in a PO, BHEL has the right to get the items ordered elsewhere at the risk and cost of the defaulting Vendor and the additional expenditure / difference in cost, if any, including consequential cost shall be recovered from the defaulting Vendor and action shall be taken as per latest revision of BHEL Guidelines for Suspension of Business dealings with Suppliers / Contractors and SEARP.

- 22.5 No compensation shall be given to the sub-contractor, in case of such cancellation/diversion of PO(s) even if the jobs have been processed partly.
- 22.6 **Process of calculating the risk and cost amount is as follows:**
Risk & Cost Amount= [(A-B) + (A x H/100)]
Where,
A= Value of Balance scope of Work/ Supply (*) as per rates of new contract
B= Value of Balance scope of Work/ Supply (*) as per rates of old contract being paid to the contractor/ supplier at the time of termination of contract
H = Overhead Factor to be taken as 5
In case (A-B) is less than 0 (zero), value of (A-B) shall be taken as 0 (zero).
*(Balance scope of work/ supply)
- 22.7 Difference of Contract Quantities and Executed Quantities as on the date of issue of Letter for 'Termination of Contract', shall be taken as balance scope of Work/ Supply for calculating risk & cost amount. Contract quantities are the quantities as per original contract. If, Contract has been amended, quantities as per amended Contract shall be considered as Contract Quantities. Items for which total quantities to be executed have exceeded the Contract Quantities based on drawings issued to contractor from time to time till issue of Termination letter, then for these items total Quantities as per issued drawings would be deemed to be contract quantities. Substitute/ extra items whose rates have already been approved would form part of contract quantities for this purpose. Substitute/ extra items which have been executed but rates have not been approved, would also form part of contract quantities for this purpose and rates of such items shall be determined in line with contractual provisions. In-case portion of work is being withdrawn, contract quantities pertaining to portion of work withdrawn shall be considered as 'Balance scope of work/supply' for calculating Risk & Cost amount.
- 22.8 Liquidated Damage against delay in executed work/supply in case of Termination of Contract: LD against delay in executed work/supply shall be calculated in line with LD clause of the contract for the delay attributable to contractor/ supplier. For this purpose, contract value shall be taken as Executed Value of work/supply for the purpose of limiting maximum LD value. Method for calculation of "LD against delay in executed work/supply" is given below.
- Let the time period from scheduled date of start of work till termination of contract excluding the period of Hold (if any) not attributable to contractor/ supplier = T1
 - Let the value of executed work/supply till the time of termination of contract= X

BHARAT HEAVY ELECTRICALS LIMITED
TIRUCHIRAPPALLI
OUTSOURCING
NIT: 2023OVM013

- Let the Total Executable Value of work/supply for which inputs/fronts were made available to contractor/ supplier and were planned for execution till termination of contract = Y
- Delay in executed work/supply attributable to contractor/supplier i.e.
- $T2 = (1 - X/Y) \times T1$
- LD shall be calculated in line with LD clause of the Contract for the delay attributable to contractor/ supplier taking "X" as Contract Value and "T2" as delay attributable to contractor/ supplier.

In case portion of work/supply is withdrawn, no LD shall be applicable for portion of work/supply withdrawn.

22.9 **GST shall be applicable on amount recoverable from Vendor under Risk & Cost clause as per contract.**
