- 7.3 The lowest rate quoted by the Bidder will be identified as L1 Bidder and so on.
- 7.4 In case identical rates are quoted by more than one Bidder for a particular rate schedule, then the selection of L1 Bidder, for that rate schedule, will be by calling for discounts from the respective bidders. Even after discounts, if there are more than one L1 bidder for the given rate schedule, the L1 shall be decided by toss / draw of lots in front of the representatives of the respective bidders.

- 10.3 If the counter offer given by BHEL to other than L1 Vendors is not accepted by them, then BHEL will place Contracts totally on the respective L1 Vendor – rate schedule wise, and those Carriers have to place required number vehicles for that rate schedule as per despatch requirement of BHEL.
- 10.4 If the counter offer given by BHEL to other than L1 Vendors is accepted by only few or lesser than the required number of Carriers, then BHEL will place Contracts to those Carriers, and they have to place required number vehicle for the rate schedule in respect of which they accepted counter offers as per dispatch requirement of BHEL

11 LOAD DISTRIBUTION**11.1 Load Distribution**

Date :

Place:

Signature of the Bidder with seal
(Authorized Signatory)

11.1.2 A “Demand” is a call / opportunity / request for requesting the vendor for placing a vehicle.

11.1.3 Against a particular demand, if the original allottee is not placing vehicle within the stipulated time, then the same demand will be displayed as “Open Demand” to all the Carriers available **in that particular rate schedule**, including the original allottee (duly recovering the non-placement penalty). For such open demands, allocation will be made on first come first served basis. If the original allottee lifts the same consignment in Open Demand, then non-placement penalty will be waived.

11.2 Manner of Splitting

11.2.1 The L1 Bidder of each rate schedule will be given 3 demands in each turn (demand cycle), L2 Bidder will be given 2 demands in each turn whereas all others will get one demand in each turn (demand cycle) i.e 3:2:1 ratio.

11.2.2 However, it may be noted that these three demands for L1, two demands for L2 will not be given at the same instance, but with a turn (within the demand cycle) suitably spaced & given to facilitate vehicle placement.

11.2.3 Demands which went to open category will be automatically cancelled after 3 days and non-placement penalty will be levied accordingly.

11.3 BHEL’s VIS Logic for emergency demands

11.3.1 For urgent consignments, demand will be displayed directly in Open Category to all the eligible carriers for 4 hrs. and whoever readily having vehicles may pick the demand and vehicle to be placed. A separate email will be given to all the concerned transporters of that rate schedule in this regard.

11.3.2 The notice time for placement of vehicles against such emergency demands will be half of the normal time period (as given below), since, if the vehicle is readily available, then only the carriers has to pick these demands.

Category	Notice Time in “hours”		
	BHEL Units & sub vendor works 60 km radius from BHEL Units	All other stations	At anywhere in Mumbai / Any Port
T8	36	72	36

11.3.3 If vehicle is not placed within time period as explained above, two times of Non-Placement penalty will be levied.

9 DIESEL PRICE VARIATION CLAUSE (PVC)

9.1 The rates agreed between BHEL and the transporter will remain firm during the total period of the contract except the Diesel Price Variation Clause as given below: -

9.2 The freight rate will be divided into two elements viz., (i) Fixed cost and (ii) Diesel cost - i.e. variable cost as detailed below: -

Details	T8
Fixed Cost	75%
Diesel Variable Cost	25%

9.3 Whatever increase/decrease in the diesel price, PVC will to be applied on this variable portion of the freight rate only. For example, say the diesel rate is increased/decreased by 5.1%, then the diesel variable cost alone will be increased/reduced by 5.1%.

9.4 The rates will be revised only if increase/decrease in diesel price (cumulative) is more than 5%. Further revisions will be done only when the further cumulative variation is more than 5% from the base/reference diesel rate.

9.5 Revised Rates applicable at the date of invoice / GC / LR will be considered for freight payment.

9.6 The reference diesel rate shall be the actual diesel rate as **on date of Techno-Commercial Bid Opening**. The rates of diesel will be calculated on the basis of the rates published by IOCL website (www.ppac.gov.in) prevailing at Chennai.

9.7 Rate increase/decrease on any other account, other than Diesel price variation, will not be permissible.

9.8 Sample calculations: -

9.8.1 Say for a particular rate schedule of Category-T8 the finalized rate is ₹4 per Km per MT

9.8.2 The fixed cost is ₹3 (75%) and the variable cost is ₹1 (25%)

9.8.3 If the base diesel price increases from ₹98 to ₹102.9 (5%) rates will not be revised

9.8.4 Further the diesel rate is increased to ₹103.88 i.e increase is 6% then the variable portion alone will be increased to 6% i.e. $3 + (\text{₹}1 \times 6\%) = \text{₹}3 + \text{₹}1.06 = \text{₹}4.06$

9.8.5 Further if the rate increases to ₹105.84 i.e 8% increases. In this case rate will not be revised since already increase is given for more than 5% (i.e >5 to 10%)

9.8.6 Further if the rate is increases to ₹109.76 i.e. i.e increase is 12% then the variable portion alone will be increased to 12% i.e. $\text{₹}3 + (\text{₹}1 \times 12\%) = \text{₹}3 + \text{₹}1.12 = \text{₹}4.12$.

9.8.7 At any cost for variation $\pm 5\%$, the basic freight rate finalized will remain same.

9.8.8 The above logic will be applicable for decrease in diesel rate also.

10 PENALTY FOR NON PLACEMENT OF VEHICLES

10.1 BHEL will allot the load through BHEL's VIS (Vendor Information System) Demand System, Individual rate schedule wise, based on the price bid ranking of the Carriers

10.2 From the date / time of demand, vehicles will have to be placed by the Transporter within stipulated period (notice time) given below: -

Date :

Place:

Signature of the Bidder with seal
(Authorized Signatory)

Category	Notice Time in “Hours”		
	BHEL Units & sub vendor works 60 km radius from BHEL Units	Harbour	All other Out Station
T8	72	72	144

10.3 However, the Carriers have to accept the demand within 24 Hrs. in VIS but vehicles have to be placed as per the above time schedule. Otherwise demand will go to ‘open’ where any other transport carrier can accept the demand.

10.4 For Open Demands, the notice time is reduced half of the above time, since if the vehicle is readily available, then only the carriers has to pick the open demands.

10.5 The carrier booking time i.e. the notice time for placement of vehicle will be counted from morning 10 AM, for the carrier booking done before 10 AM. Also, the carrier booking time i.e. the notice time for placement of vehicle will be counted from evening 2 PM, for the carrier booking done after 10 AM.

10.6 For non-placement of vehicles / not accepting the demand within stipulated period the penalty will be imposed and deducted automatically from the bills of the Transporter who have not placed the vehicles and the details of penalty is furnished below: -

Category	Penalty Charges per demand
T8	₹12,500

10.7 The above penalty will also be applicable for non-placement of vehicles by accepting the demands from “Open Demand Category” and is applicable for each time of non-placement for a same demand picked multiple times from open category but vehicles not placed.

10.8 If the original allottee lifts the same demand in Open Category and placed the vehicle within the stipulated time, then non-placement penalty will be waived automatically for the first time of demand went to open category.

10.9 WAIVER OF NON-PLACEMENT PENALTY FOR GENUINE CASES

10.9.1 For the cases where the non-placement is not attributable to the contractor such as (i) problems in making VIS In Entry, (ii) Demand went to Open but the carrier is asked to pick the demand in Open but materials are not ready, (iii) System errors etc., **BHEL Executives not below the rank of AGM of User Agencies or Logistics will have the power to waive such penalty on case to case basis.**

11 TRANSIT TIME & PENALTY FOR DELAYED DELIVERY

11.1 The permissible travel of vehicle per day are given below subject to e-way bill notifications:

11.2 For Trucks & Mechanical Trailer Loads (T8 Category)

SL	Category	Distance (KM) to be travelled per day (average)
1	T8	100

11.3 Date of dispatch of consignments from the loading point and the date of reporting of vehicle at the unloading point will be excluded from the transit time.

11.4 For determining the number of days for delivery, for the leftover distance which is below the km fixed per day, one additional day will be counted. Say, if the distance is 500km and the permitted travel per day is 200km per day. Accordingly, the transit time is 2.5 days (500/200). Hence 3 days shall be considered as transit time

11.5 In case the due date of delivery falls on Sunday/Public holiday, next working day will be treated as due date of delivery.

Date :

Place:

(Authorized Signatory)

- 11.6 BHEL attaches very great importance to the timely delivery of the consignment and hence delivery should be effected without any delay. Hence penalties for delayed deliveries of consignments are levied as under.
- 11.7 Delay in delivery beyond average travel per day period as described above, will attract a penalty as follows. This is applicable for Normal & Volume Certified Loads

SL No	Delay	% Penalty on basic freight
1	Up to 1 week	2% per week or part thereof
2	From 2 nd Week to 8 th week	4% per week or part thereof
3	Beyond 8 weeks	50% (fixed)

- 11.8 **For 'Full Load' Certified vehicles:** Delay in delivery beyond average travel per day period as described above, will attract a penalty as follows. This is not applicable for Normal & Volume Certified Loads

SL No	Delay	% Penalty on basic freight
1	Up to 1 week	2% per DAY
2	From 2 nd Week onwards	5% per DAY or part thereof limited to 50% .

11.9 WAIVER OF DELAY PENALTY
