

Product: JAW COUPLING

Revision Record:

Rev. No	Date	Details of Revision
00	26 April 2018	Initial Release
Scope Of Supply:		Star/Jaw Coupling with Split Clamping. Necessary allen screws shall also be supplied by vendor.
Application:		Coupling to Connect Check Valve Spindle to Angular Position Feedback Transmitter
Feature:		Slippage/Backlash Free, Wear And Maintenance Free
Material:		Stainless Steel/ Aluminium
Material of Elastomer:		Suitable for Temperature Upto 90 Deg C
Starting Torque Required For Position Transmitter:		Maximum 0.5 Nm
Machinability		The Dia 12 shown in the drawing below will be further machined upto Dia 30 at our end to suit different spindle diameters.
Certificate		Vendor to provide COC for all the technical points mentioned in this specification.

Dimension of coupling shall be as below:

STAR COUPLING WITH SPLIT CLAMPING
