- 5.2 Price bids of all techno-commercially qualified bidders shall be opened and same shall be considered as initial bids of bidders in RA. In case any bidder(s) do(es) not participate in online Reverse Auction, their sealed envelope price bid along with applicable loading, if any, shall be considered for ranking.
- 5.3 Lowest prices received against BHEL Tenders need not be acceptable price to BHEL and in that case BHEL would not consider the same for award of Contract, despite the price being L1 in the Tender.

Date :
Place:

Signature of the Bidder with seal
(Authorized Signatory)

- 5.4 In the event of the final L1 prices are not reasonable / acceptable to BHEL, BHEL also may resort to short closure of this Tender.

6. QUOTING OPTION

- 6.1 This Tender covers one Consignment Category (SF) under one region.

7. RANKING

- 7.1 Individually rate schedule wise ranking will be done.
- 7.2 For arriving at the L1 rates, individual rate schedule wise ranking of Carriers will be done for all the consignment categories.
- 7.3 The basic rates i.e. rates for freight including all taxes, duties, charges, costs, incidentals etc., excluding GST will be the basis for deciding the rank of the Bidder in the Rate schedules.
- 7.4 The lowest rate quoted by the Bidder will be identified as L1 Bidder and so on.
- 7.5 In the course of evaluation, if more than one bidder happens to occupy L-1 status, effective L-1 will be decided by soliciting discounts from the respective L-1 bidders.
- 7.6 In case more than one bidder happens to occupy L-1 status even after soliciting discounts, the L-1 bidder shall be decided by a toss / draw of lots, in the presence of the respective L-1 bidder(s) or their representative(s).
- 7.7 Ranking will be done accordingly. BHEL decision in such situations shall be final and binding.
- 7.8 In case identical rates are quoted by more than one Bidder for a particular rate schedule (other than L1 rank) Counter offer Ranking, for that rate schedule, will be on the basis of seniority of their registration with IBA i.e. senior will be given preference first and ranking will be decided accordingly.

8. COUNTER OFFER

- 8.1 BHEL will counter offer the L1 Rate / Negotiated final L1 rate / lowest acceptable price to BHEL, to the L2, L3, ... Ln carriers till the required number of carriers accept the counter offer for award of Contract.
- 8.2 H20% of the Bidders for each rate schedule will not be considered for counter offer for the respective rate schedule. In case the number of offer received below the number of carriers required for a particular rate schedule, only H10% of bidders will not be considered for counter offer for that particular schedule. In any case, H1 (highest quoting bidder) will be eliminated.
- 8.3 The fractional advantage will be given to the bidders i.e. for example, if elimination is 10.9 bidders, then only 10 bidders will be eliminated.
- 8.4 At a maximum, only the stipulated number of carriers will be awarded with contract.
- 8.5 If the counter offer given by BHEL to other than L1 Vendors is not accepted by them, then BHEL will place Contracts totally on the respective L1 Vendor – rate schedule wise, and those Carriers have to place required number vehicles for that rate schedule as per dispatch requirement of BHEL otherwise **NON PLACEMENT PENALTY WILL BE LEVIED FOR ALL THE DEMANDS ALLOTTED.**

Date :
Place:

Signature of the Bidder with seal
(Authorized Signatory)

- 8.6 If the counter offer given by BHEL to other than L1 Vendors is accepted by only few or lesser than the required number of Carriers (Clause 4.1), then BHEL will place Contracts to those Carriers only, and those Carriers have to place required number vehicle for that rate schedule as per dispatch requirement of BHEL otherwise **NON PLACEMENT PENALTY WILL BE LEVIED FOR ALL THE DEMANDS ALLOTTED**.
- 8.7 However, Risk purchase will not be operated if the available carriers have lifted their share of load based on the tonnage, number of carriers & load distribution pattern indicated in the tender.

Sample calculation for share of load to each bidders.

For rate schedule SF101, for example if 4989 MT is projected, accordingly, the total number of vehicle works out to 227 Vehicles (4989/22MT). As per load distribution pattern 3:2:1, the L1 bidder has to place 55 vehicles, the L2 bidder has to place 36 Vehicles and all other 8 bidders who accept the counter offer will place 17 vehicles each.

9. LOAD DISTRIBUTION

- 9.1 BHEL will allot the load through BHEL's VIS (Vendor Information System) Demand System, **Individual rate schedule wise**, based on the price bid ranking of the Carriers
- 9.2 Against a particular demand, if the original allottee is not placing vehicle within the stipulated time, then the same demand will be displayed as "Open Demand" to all the Carriers available **in that particular rate schedule**, including the original allottee (duly recovering the non-placement penalty). For such open demands, allocation will be made on first come first served basis. If the original allottee lifts the same consignment in Open Demand, then non-placement penalty will be waived.
- 9.3 The L1 Bidder of each rate schedule will be given 3 demands in each turn (demand cycle), L2 Bidder will be given 2 demands in each turn whereas all others will get one demand in each turn (demand cycle) i.e 3:2:1 ratio.
- 9.4 In case of consignment Categories 5, the additional loads will be allotted as follows:

Additional Demands	Upto 25 MT Slab	Above 25-30 MT Slab	Above 30 MT Slab
Extra Demands other than 1 mandatory Demands in each weight slab			
L1 Bidder	1 Demand	1 Demand	----
L2 Bidder	1 Demand	----	----

- 9.5 If the L1 & L2 bidders have not placed the additional loads, **NON-PLACEMENT PENALTY WILL BE LEVIED FOR ALL THE DEMANDS**. HENCE KEEPING THIS IN MIND THE CARRIERS ARE REQUESTED TO QUOTE ACCORDINGLY.
- 9.6 However, it may be noted that these additional Two demands for L1, one demand for L2, will not be given at the same instance, but with a turn (within the demand cycle) suitably spaced & given to facilitate vehicle placement. The VIS will be suitably made for this purpose. It may be noted that if the additional demands given to L1 & L2 as above are not lifted by them within the time limit given in System, those demands will automatically go to "Open Demand" and defaulted L1 & L2 carriers cannot demand these additional loads at any point of time of the demand cycle or beyond.
- 9.7 Demands which went to open category will be automatically cancelled after **3 days** and non-placement penalty will be levied accordingly.

Date :
Place:

Signature of the Bidder with seal
(Authorized Signatory)

9.8 VIS Logic for emergency demands

9.8.1 For urgent consignments, demand will be displayed directly in Open Category to all the eligible carriers for 4 hrs. and whoever readily having vehicles may pick the demand and vehicle to be placed. A separate email will be given to all the concerned transporters of that rate schedule in this regard.

9.8.2 The notice time for placement of vehicles against such emergency demands will be half of the normal time period (as given below), since, if the vehicle is readily available, then only the carriers has to pick these demands.

Category	Notice Time in “Hours”
	Out Station (GE Durgapur)
Category 5	48

9.8.3 If vehicle is not placed within time period as explained above, two times of Non-Placement penalty will be levied.

9.8.4 If nobody picked the demand or if picked and vehicle not placed, then the demand will be automatically allotted in normal turn.

8. DIESEL PRICE VARIATION CLAUSE (PVC)

8.1 The rates agreed between BHEL and the transporter will remain firm during the total period of the contract except the Diesel price Variation Clause as given below:-

8.2 The freight rate will be divided into two elements viz., (i) Fixed cost and (ii) Diesel cost - i.e. variable cost as detailed below:-

Details	Category 5
Fixed Cost	75%
Diesel Variable Cost	25%

8.3 Whatever increase/decrease in the diesel price, PVC will to be applied on this variable portion of the freight rate only. For example, say the diesel rate is increased/decreased by 5.1%, then the diesel variable cost alone will be increased/reduced by 5.1%.

8.4 The rates will be revised only if increase/decrease in diesel price (cumulative) is more than 5%. Further revisions will be done only when the further cumulative variation is more than 5% from the base/reference diesel rate.

8.5 Revised Rates applicable at the date of invoice / GC / LR will be considered for freight payment.

8.6 The reference diesel rate shall be the actual diesel rate as **on date of LOI / Award of Contract / Commencement of Contract**. The rates of diesel will be calculated on the basis of the rates published by IOCL website (www.iocl.com) prevailing at Chennai.

8.7 Rate increase/decrease on any other account, other than Diesel price variation, will not be permissible.

8.8 Sample calculations:-

8.8.1 Say for a particular rate schedule of Category-1 the finalized rate is ₹ 3 per Km per MT

8.8.2 The fixed cost is ₹ 2.25 (75%) and the variable cost is ₹ 0.75 (25%)

8.8.3 If the base diesel price increases from ₹ 50 to ₹ 52.5 (5%) rates will not be revised

8.8.4 Further the diesel rate is increased to ₹ 53 i.e increase is 6% then the variable portion alone will be increased to 6% i.e. $2.25 + (\text{₹ } 0.75 + \text{₹ } 0.75 \times 6\%) = \text{₹ } 2.25 + \text{₹ } 0.795 = \text{₹ } 3.04$

8.8.5 Further if the rate increases to ₹ 54 i.e 8% increases. In this case rate will not be revised since already increase is given for more than 5% (i.e >5 to 10%)

8.8.6 Further if the rate is increases to ₹ 56 i.e. i.e increase is 12% then the variable portion alone will be increased to 12% i.e. $\text{₹ } 2.25 + (\text{₹ } 0.75 + \text{₹ } 0.75 \times 12\%) = \text{₹ } 2.25 + \text{₹ } 0.84 = \text{₹ } 3.09$

8.8.7 At any cost for variation $\pm 5\%$, the basic freight rate finalized will remain same.

8.8.8 The above logic will be applicable for decrease in diesel rate also.
