A. In line with Corp SS & P Circular No 49 of 2020-21 Para 3(b) (i) (Ref [144/c](#)), Global tender Enquiry was floated vide Enquiry approval note at Note# [6](#). As interpreted from the clause, raw materials, components, sub-assemblies etc. can be procured from such countries which share a land border with India and in such cases the bidders from such countries will not be required to be registered with competent authority.

As advised by our Engineering department at Note# [4](#), the incoming shaft forging shall be treated as raw material.

Accordingly NIT was floated, with due removal of "BHEL GTC BP 200102 A" (Ref [195/c](#)) Clause 34 (Restriction under Rule 144(xi) of the General Financial Rules 2017 (Ref Instruction to Bidders Clause 19 at [200/c](#)).

However as per latest Corp SS & P Circular No. 17 of 2022-23 dated 17.09.2022 , which states that para 3(b)(i) of Circular No. 49 of 2020-21 stands withdrawn and that w.e.f 06.09.2022 a bidder is only permitted to procure raw materials, components, sub-assemblies, etc from vendors from countries which share a land border with India . However, in case a bidder has proposed to supply finished goods directly / indirectly from vendors from countries sharing land border with India, such vendor will be required to be registered with competent authority (ref [240/c](#)) .

As per the latest Circular No. 17, it is imperative that offers from bidders of countries sharing land border with India cannot be considered unless they are registered with competent authority and this clause was not included in our NIT, as our NIT was floated before issuance of this circular. Moreover, most of the potential bidders quoting against the above enquiry are from countries which share land border with India (ref extension requests at [218](#) & [231/c](#)). Also, the latest PPO considered for PI Estimation is that of Arun-3 Shaft Forgings placed on M/s Tongyu, China and this vendor would definitely participate in current enquiry as well.

In view of the above facts, we cannot proceed with the same enquiry as the NIT needs to be corrected and amended in accordance with current circular.

Approval may therefore please be accorded for cancellation of current Global tender Enquiry E1823177 and thereafter retendering the Enquiry with fresh NIT conditions.
