

19MM SEALING CLIP

TECHNICAL SPECIFICATION

- Push type seals with taper / curved upper surface for better tension force application.
- Material :- High tensile color coated galvanized sheet, for better corrosion resistance & rust prevention.
- Double reverse notch joint
- Joint efficienct > 75%
- Length- 57.15 (tolerances +/- 0.38 mm)
- Width- Suitable for 19 mm wide steel strip
- Thickness- 0.89 mm (Tolerance +0.15/-0.03mm)
- Suitable for 19mm wide high tensile steel strap.
