Profile contours shall be checked by the vendor using CMM (Co-ordinate Measurement Machine) for at least 3 cross-sections (as shown in drawing numbers RD-DG-3-50-19-0010 and RD-DG-3-50-19-0012) along the guide-vane height for a minimum of 7 number of guide-vanes each and the co-ordinate data so obtained shall be superimposed on the guide-vane solid model provided by BHEL R&D. Dimensional deviation of more than ± 0.5 mm is not acceptable.	
10.	Welding of guide-vanes to stator frame	The orientation in 3-D space, direction and distance of welding each guide-vane to the stator frame will be as per the solid model available with BHEL R&D. The solid model will be provided to the supplier after placement of this order and manufacture of guide-vanes.	
11.	Stage-wise inspection	As the Stator Assembly is intended to perform a critical aerodynamic function of straightening the air coming out of a fan with minimum losses, stage-wise inspection is planned to maintain the highest possible quality and the vendor has to abide by the same on placement of order. Stage-wise inspection at the following stages is planned. a. Raw material stage - for quality and composition of input material b. Guide-vane manufacturing stage - for manufacturing process adopted for	

		making guide-vanes c. Guide-vane profile checking stage - for guide-vane profile validation through CMM d. Assembly stage – during welding of guide-vanes to the stator frame. e. Final inspection – measurement of various dimensions, surface finish, etc.	
12.	Per Unit Price	The vendor should provide per unit price for a. Stator Assembly with Guide Vanes Var. NEW (23 vanes) (as per RD-DG-3-50-19-009) and b. Stator Assembly with Guide Vanes Var. OLD (23 vanes) (as per RD-DG-3-50-19-0011).	
13.	Painting	All the inside and outside surfaces for the Stator Assembly should be painted with rust prevention paint, which can be red-oxide paint. The painting of the inner surface areas of the Stator Assembly should be such that surface finish of the order of at least 5 microns is maintained.	
14.	Local Office Address	As the manufacturing of Stator Assembly with Guide Vanes involves numerous stage-wise inspections, the supplier should have works/local office at Hyderabad / Secunderabad which will provide support to BHEL personnel and co-ordinate these inspections smoothly.	
15.	Site Visit to R	The supplier is strongly advised to visit BHEL R&D and do a detailed study of the solid model available so as to fully understand our requirement before submitting his offer.	
16.	Delivery	Both the variants of "Stator Assembly with Guide Vanes" have to be delivered to BHEL R&D Division, Hyderabad, within 75 days of placement of PO.	
17.	Pre Dispatch Inspection	Inspection of assembled Stator Assembly with Guide Vanes will be carried out by BHEL R&D and QC BHEL R&D Engineers at vendor works. Terms & Conditions of Reverse Auction

Against this enquiry for the subject item/ system with detailed scope of supply as per enquiry specifications, BHEL may resort to "REVERSE AUCTION PROCEDURE" i.e., ON LINE BIDDING (THROUGH A SERVICE PROVIDER). The philosophy followed for reverse auction shall be English Reverse (No ties).

1. For the proposed reverse auction, technically and commercially acceptable bidders only shall be eligible to participate.
2. Those bidders who have given their acceptance for Reverse Auction (quoted against this tender enquiry) will have to necessarily submit online sealed bid in the Reverse Auction. Non-submission of online sealed bid by the bidder for any of the eligible items for which techno-commercially qualified, will be considered as tampering of the tender process and will invite action by BHEL as per extant guidelines in vogue.
3. BHEL will engage the services of a service provider who will provide all necessary training and assistance before commencement of on line bidding on internet.
4. In case of reverse auction, BHEL will inform the bidders the details of Service Provider to enable them to contact & get trained.
5. Business rules like event date, time, bid decrement, extension etc. also will be communicated through service provider for compliance.
6. Bidders have to fax the Compliance form (annexure IV) before start of Reverse auction. Without this, the bidder will not be eligible to participate in the event.
7. In line with the NIT terms, BHEL will provide the calculation sheet (e.g. EXCEL sheet) which will help to arrive at "Total Cost to BHEL" like Packing & forwarding charges, Taxes and Duties, Freight charges, Insurance, Service Tax for Services and loading factors (for non-compliance to BHEL standard Commercial terms & conditions) for each of the bidder to enable them to fill-in the price and keep it ready for keying in during the Auction.
8. Reverse auction will be conducted on scheduled date & time.
9. At the end of Reverse Auction event, the lowest bidder value will be known on auction portal.
10. The lowest bidder has to fax/e-mail the duly signed and filled-in prescribed format for price breakup including that of line items, if required, (Annexure VII) as provided on case-to-case basis to Service provider within two working days of Auction without fail.
11. In case BHEL decides not to go for Reverse Auction procedure for this tender enquiry, the Price bids and price impacts, if any, already submitted and available with BHEL shall be opened as per BHEL standard practice.
12. Bidders shall be required to read the "Terms and Conditions" section of the auctions site of Service provider, using the Login IDs and passwords given to them by the service provider before reverse auction event. Bidders should acquaint themselves of the „Business Rules of Reverse Auction?, which will be communicated before the Reverse Auction.
13. If the Bidder or any of his representatives are found to be involved in Price manipulation/ cartel formation of any kind, directly or indirectly by communicating with other bidders, action as per extant BHEL guidelines, shall be initiated by BHEL and the results of the RA scrapped/ aborted.
14. The Bidder shall not divulge either his Bids or any other exclusive details of BHEL to any other party.
15. In case BHEL decides to go for reverse auction, the H1 bidder (whose quote is highest in online sealed bid) may not be allowed to participate in further RA process.
