

BHARAT HEAVY ELECTRICALS LIMITED
HEEP: HARDWAR-249 403 (UA)
Phone : 01334 – 28 5203/5479
E-mail : agoyal@bhel.in

Due Date: 21.11.2020

Ref: PPX/EM/EOI/20-21/Mica Splitting Tape with Accelerator.

Notice Inviting Expression of Interest for empanelment of New Vendors

The Heavy Electrical Equipment Plant (HEEP) located in Haridwar, is one of the major manufacturing plants of BHEL. The core business of HEEP includes design and manufacture of large steam and gas turbines, turbo generators, hydro turbines and generators and so on. **We are looking for reputed Vendors having capability to supply mica splitting tape used in main wall insulation for TG stator bars of all higher rating machines. It is a very critical item used as main wall insulation for manufacturing of stator bars. Mica splitting tape with accelerator is used as a main wall insulation tape in manufacturing of large size turbo generator winding bars of capacity 500 MW and above. This tape consists of clear mica splitting (Muscovite mica) free from iron and iron oxide of thickness 0.020 to 0.025 mm, Bisphenol A type epoxy resin as bonding agent and polyester fleece carrier and covering layer.**

The specification of these items may be obtained from BHEL after submission of Ink Signed Non-Disclosure Agreement (Annexure-2). The Non-Disclosure Agreement is to be submitted to the following person (s) for obtaining Specifications:

Contact Person 1:

Mr Ankur Goyal
Designation: Dy. Manager (PPX/EM)
Email ID: agoyal@bhel.in
Tel: +91 1334 28 5203

Contact Person 2:

Mr Ashim Dalui
Designation: Engineer (PPX/EM)
Email ID: ashim.dalui@bhel.in
Tel: +91 1334 28 5203

The offers received will be technically evaluated by BHEL & successful short listed parties will be asked to submit their detailed Techno-Commercial offers through formal NIT/Enquiry, for our future requirements. Vendors shall confirm that there is no deviation with respect to BHEL Specifications. However, deviations, if any, are to be listed as a separate attachment. The offers that do not meet the substantial requirements of our specifications are liable to be ignored.

Following documents are to be necessarily filled and submitted along with the technical offer:

1. Details/ Documents in support of Pre-Qualification Requirement (**Annexure-1**)
2. Non-Disclosure Agreement (**Annexure-2**)
3. Company registration certificates (PAN card/D&B/ROC/CBEC etc)
4. Quality control documents / procedure.
5. Details of Manufacturing Facility
6. Company Profile.
7. Financial report of the company.
8. Past experience along with documentary proof.
9. Details such as technical features, experience details, product catalogues, reference lists or any other relevant information.
10. List of equipment manufactured in-house.
11. List of Bought out items along with vendor's list equipment with experience details with respect to size rating and year of operations.

BHARAT HEAVY ELECTRICALS LIMITED
HEEP: HARDWAR-249 403 (UA)
Phone : 01334 – 28 5203/5479
E-mail : agoyal@bhel.in

Due Date: 21.11.2020

Only Technical BID along with the documents mentioned above should be sent & the envelope containing the offer shall be duly sealed and super scribed as **“Technical Offer for (ITEM NAME) AGAINST Reference No. PPX/EM/EOI/20-21/ Mica Splitting Tape with Accelerator, SUBMITTED BY (Name of company)”**

The last date for submission of Technical offers is 21.11.2020.

- The Technical Offers complete in all respect must be addressed to “Shri B.K Roy, AGM (PPX/EM)” **and should reach before 13:45 Hrs (IST) on 21.11.2020.** Tenders will be opened on the same day at 14:00 Hrs (IST) in the Tender Room.
- Late offers will not be considered in any case. BHEL will not be responsible for any type of postal delay / incomplete information from vendor.
- EMD & Tender fee are not applicable.
- The Quotation should be from the Principle / Original Manufacturer, falling which the Quotation is likely to be ignored. In case the quotation is submitted through agent, the quotation must accompany original authorization letter from Principle / Original Manufacturer.
- Amendments / Corrigendum, if any, will be hosted on our website only.
- For any further clarifications, feel free to contact the undersigned or log on to www.bhel.com or www.hwr.bhel.com or www.tenders.gov.in

(Ankur Goyal)

ANNEXURE-1

Date: 16-10-2020

(13)

PRE-QUALIFICATION REQUIREMENTS (TECHNICAL) FOR EOI OF **MICA SPLITTING TAPE WITH ACCELERATOR (HW25287)**

- ITEM DESCRIPTION:** Mica Splitting Tape with accelerator is used as a main wall insulation tape in manufacturing of Large Size Turbo-Generator Winding bars of capacity 500MW and above. This tape consists of Clear mica splitting (Muscovite mica) free from iron and iron oxide of thickness 0.020 to 0.025 mm, Bisphenol A Type Epoxy Resin as Bonding agent and Polyester fleece (Tensile in Longitudinal: Min.1N/mm & Crosswise: Min.0.08N/mm & Limiting Temp. of Min.130°C) on each side of the tape as carrier & covering layer. Tape must be treated with Zinc Naphthenate accelerator (Zinc content 11.5%) suitable for Impregnating resin. Mica splitting and Polyester fleece should be glued to each other firmly and must not loosen/flake off during winding /unwinding so that there will not be any micaless areas. The mica tape should not be too stiff otherwise it will be difficult to roll up. The tape should not contain any foreign ingredients and conductive components. The fleece layers must not have any holes and must be bonded to mica without any creases. The bonding agent and accelerator must be volumetrically separable in tapes. Tape shall be colored red by using dye 'Sudan Red', Shelf life of the tape must be Min.2 years when stores at Temp below 12°C.

- EXPERIENCE:** The vendor should have manufactured and supplied Mica paper glass tape with accelerator for Turbo-generators to reputed power plant equipment manufacturers world-wide during the last 7 years. The supplied material should have following properties:

Thickness (Individ.)	Thickness (Average)	Width (in mm)	Composition (g/m ²)				Tensile Strength (N/mm width)	Weight in g/m ² (±20)
			Mica	Fleece (2x)	Binder	Accelerator		
0.18±0.08	0.18±0.02	35±1	230±30	20+3	20±5	2±0.5	≥ 1.3	10.2±14%
0.18±0.08	0.18±0.02	40±1	230±30	20+3	20±5	2±0.5	≥ 1.3	11.7±14%

In support of which, vendor to submit the following documents: -

- Vendor should have manufactured and supplied the above material (of any width) against at least 3 Purchase Orders in last 7 years from the date of enquiry. Vendor to furnish copies of Purchase Orders of the same.
 - Vendor to furnish Test Certificates (for dimensional, mechanical and composition, etc.) for the Purchase Orders furnished against Clause a).
 - End User Certificate: Vendor to furnish at least one Certificate from End User or Generator Manufacturer certifying that the Mica Splitting Tape with accelerator supplied by the vendor has been successfully used in manufacturing of winding bars of TG stator (500MW and above) and the said Turbo-generator has been in operation for at least 3 years. The End User Certificate should be pertaining to any one of the above Purchase Orders.
- MANUFACTURING FACILITY:** The Vendor to confirm that they have all the in-house facilities for manufacturing this item.
 - TESTING FACILITIES:** The Vendor to confirm that they have all the in-house facilities for testing this item. If the vendor intends to outsource any testing activity, particulars of the same along with details of the laboratory to be furnished to BHEL.
 - BHEL reserves the right to verify the information submitted by the vendor. In case the information is found to be false or incorrect, the offer shall be rejected. All the documents should be furnished in English language only. If the documents are not in English, then they must be accompanied by duly certified English translations of the same.
