Technical drawing of a square box girder cross-section. The drawing shows a square outer profile with rounded corners and a square inner profile. Key dimensions include an overall height of 978, an overall width of 1200 (split into two 600 segments), and a web thickness of 120. Callouts 11, 15, 20, 23, and 21 point to various features: 11 points to the outer flange, 15 points to the bottom flange, 20 points to the bottom web, 23 points to the bottom flange, and 21 points to the bottom web. A detail view of the corner fillet is shown in the top right, indicating a 60-degree angle and a 90-degree interval.

Technical drawing of a mechanical part, likely a bracket or support, showing dimensions and callouts:

- Dimensions:**
 - APPROX X1**: Vertical dimension on the left side.
 - APPROX Z1**: Horizontal dimension at the top.
 - APPROX Y1**: Vertical dimension on the right side.
 - APPROX X2**: Vertical dimension on the far right, associated with a detail view.
 - W1**: Horizontal dimension at the bottom.
 - 12**: Horizontal dimension from the left edge to the center of the bottom hole.
 - 15**: Horizontal dimension from the center of the bottom hole to the right edge.
 - 20**: Horizontal dimension from the left edge to the center of the top hole.
 - 10**: Dimension for the hole diameter, indicated by a circle with the number 10.
- Callouts:**
 - 17**: Callout pointing to the top edge of the part.
 - 21**: Callout pointing to the top edge of the part, with a tilde (~) between 17 and 21.
 - 22**: Callout pointing to the bottom edge of the part.
 - 23**: Callout pointing to the bottom edge of the part.
- Geometric Features:**
 - R25**: Radius dimension for the top and bottom corners.
 - TYP**: Text indicating that the features are typical.

Technical drawing of a bridge structure showing a cross-section of a pier and abutment. The drawing includes dimensions: 160, 12, 10, 15°, 200, 25, and 10. It also includes labels: (21), TYP, APPROX X2, APPROX Y2, and (12) ~ (16).

Item No.	W1	X1	Y1	Z1
