--	--	---

**PQR for Procurement of Finish Machined Journal Bearing and Journal & Thrust Bearing
used in Super-Critical Steam Turbine against Indent no. 20154992**

Date:-02/12/2016

Following are the mandatory pre-qualification requirements for finish machined journal bearing and Radial Thrust Bearing.

Offers of vendor not meeting the requirements given below shall not be considered.

- 1) Vendor must have in-house centrifugal babbitting and machining facilities to manufacture enquiry items. Vendor shall furnish in-house centrifugal babbitting facility and machining facilities details to manufacture enquiry item. Outsourcing of babbitting and machining is not permitted.
- 2) The vendor should have experience of manufacturing and supplying fully finish machined babbitted bearing to Power Equipment Manufacturer (Turbine/Generator/Exciter) **for 100MW and above rating. Vendor must have supplied at least 5 nos. of Bearings of nominal dia. 250 mm and above in the past 7 years for speed of 3000/3600 rpm (on the date of opening of tender).**

In support of the above, the vendor should furnish experience list as per following format along with the offer:

Sl. No.	Inner dia. Bearing	Weight	Name and Address of customer	Year of supply

Vendor to also furnish copy of PO and its corresponding test certificates, of at least three bearing from the above list.

- 3) Vendor to confirm that delivery of bearing shall be as per BHEL Technical Delivery Conditions document no. **TDC-F-11604/11703/11814/11818/11836/-** and all the requirements mentioned in TDC should be met in totality. Vendor to submit signed & Stamped copy of TDC along with offer.
- 4) Vendor to submit Supplier/Vendors declaration (**TDC-F-11604/11703/11814/11818/11836/-** Page 10 of 10) against each material code along with offer.
- 5) BHEL reserves the right to verify information submitted by the vendor. In case the information is found to be false/ incorrect, the offer shall be rejected.

I. Scope of work / supply:

The supplier to confirm to adhere the following points while submitting the offer:

- 1) Scope of supply shall be as per BHEL drawing no. mentioned against each material code in Table-1, along with all components including materials as per respective Combined Bill of material (CBOM). Scope includes procurement of materials, **Castings (in case of Radial Thrust Bearing only)**, forgings, all stage operation including pre-machining, babbitting, final machining of component and assembly of bearing as per drawing requirements. Supplier to take note of it & confirm the final supply of items as per respective BHEL CBOM, Drawings, Specification and Technical requirements in totality.
- 2) Machining should be carried out taking care of every technical requirements of each item (drawings & standards) covered in CBOM.
- 3) All tools and technological items required for the manufacture of the Journal Bearing Assembly are to be arranged by the vendor.

--	---	---

- 4) One set of drawings and standards shall be furnished to the supplier for submitting the offer. List of drawings / standards is enclosed at Annexure-I. All dimensions in drawings are in millimeter (mm). *Drawings and documents furnished to supplier should be treated as BHEL property. Strict confidentiality is to be maintained and under no circumstances these documents or copy of these should be transferred to the third party without express permission of BHEL. On completion of supply, all documents must be returned to BHEL.*
- 5) Supplier should confirm categorically that they shall meet all technical requirements listed in the drawings and specifications. Deviation if any should be referred to BHEL for concurrence before placement of purchase order.
- 6) Supplier must ensure all technical requirements indicated in the drawings / standards including :
 - (a) Surface finish (Ra value indicated in microns).
 - (b) Sizes and tolerances.
 - (c) Geometrical accuracies e.g. run-outs, concentricity, parallelity, perpendicularity etc.
 - (d) Dimensions shown within  on drawings are Critical to Quality (CTQ).
- 7) Supplier to ensure following technological necessity / process control during manufacturing to achieve controlled distortion and dimensional accuracy:-
 - (a) Identification of each and every item as per drawing.
 - (b) Use of technological supports / fixtures.
 - (c) Proper handling during machining, shifting, assembly and transportation.
- 8) Drawing & documents specified in the Annexure-I may undergo minor revisions, however, quantum of machining will remain same. If any drawing undergoes revision, it shall be communicated to supplier at the earliest.
- 9) Drawings given in Annexure-I are of major items. For entire list of items and quantity thereof, refer respective CBOM No.
- 10) Complete set of detail drawings and standards will be furnished to supplier along with the Purchase Order. Supplier may seek any other cross referred document, if required.
- 11) Vendor to comply the BHEL manufacturing standard HW0652098 & HW0652099 for manufacturing of the bearing shell.

--	---	---

- 12) The supplier shall furnish details of the machining facilities to be employed for machining of the bearing in-house or at their sub-contractor's works and get approval from BHEL.
- 13) Vendor to provide manufacturing plan indicating activities for manufacturing of Bearing shell, with description of facilities (like make, model, specification, accuracy etc.) employed to carry out the activities.
- 14) BHEL may be allowed to visit vendor's/sub-contractors manufacturing facilities if necessary.

II. Material:

- 1) Material of items / components shall be as per BHEL specification given in respective CBOM No. Vendor to confirm with offer. Any deviation in material from CBOM shall be informed at the time of offer for BHEL acceptance only. **BHEL may accept or reject the proposed alternate material.**
- 2) Vendor to note that **'No Deviation in material will be allowed after placement of order'**.
- 3) **For Indian Vendors:** Raw materials, Castings and forgings are to be procured from BHEL approved sources as per the list provided with enquiry.
For Foreign Vendors: Source of Castings and forgings shall be provided to BHEL. Forging & Casting shall be as per BHEL drawing and specification.
- 4) List of materials specified in the CBOM and their equivalent National / International material grades with their standards has been given in Annexure II. Vendor to submit signed and stamped Annexure II with offer.
In case vendor wishes to use material other than the specified material in Annexure II, vendor to submit proposed material in Annexure II with a copy of their material specification (English language only) along with the offer for approval.
BHEL reserves the right to accept or reject it.
- 5) These finalized grades shall be part of Quality Plan / Purchase Order.

III. Babbitting:

The vendor should have in-house babbitting facility. Babbitting of the Bearing shells shall be done by Centrifugal Casting process. Vendor shall submit details of in house

babbitting facilities covering details like size and weight of bearing which can be babitted by vendor, furnaces & oven details to manufacture enquiry items.

Babbitt material as per specification HW12897 shall be used. Source of babbitt material and at least one test certificate of babbitt material to be submitted.

Inspection and acceptance of babitted bearing shall be done as per BHEL specification HW0850195.

IV. Quality Requirements:

- 1) All dimensions and technical requirements as per BHEL drawings are to be complied with and recorded by vendor's quality control (QC) and to be submitted to BHEL for acceptance as per agreed stages.
- 2) Quality Plan to be submitted to BHEL along with offer for approval. BHEL reserves the right to identify customer hold points (CHPs) in Quality Plan which will be witnessed by BHEL / BHEL nominated agency and beyond which work will not proceed without clearance from BHEL.
- 3) No flaws like cracks etc. should open up during machining. However, if any flaw opens up during machining, supplier shall immediately intimate to BHEL, the detail and location of flaw and corrective action proposed. Further machining will be carried out only after approval by BHEL.
- 4) Any non-conformity to any dimension or technical requirement is to be informed to BHEL on document duly certified by vendors QC for the approval of BHEL. Vendor shall proceed with the work only after decision given by BHEL on the non-conformity. BHEL reserves the right for rejection of non-conformity and will be final and binding on vendor.

V. Procedure Qualification:

NDT (Non Destructive Testing) shall be carried out by personnel qualified by ASNT / ISNT or equivalent.

VI. Inspection at Vendors Work:

- 1) All the stage inspections should be followed as per Quality Plan / Assembly Requirements and its record should be kept by the supplier.

BACKGROUND

This Agreement sets forth the rights and obligations of the Parties with respect to the use, handling, protection and safeguarding of Proprietary Information that is disclosed by and between the Parties.

WHEREAS

A) the Parties wish to pursue exploratory discussions concerning a possible collaboration between them in relation to the Program defined in Exhibit 1;

B) during the ensuing discussions and negotiations it may occur that either Party discloses to the other technical, financial or business information of a proprietary or confidential nature, which the Parties intend to protect against, making it available, by any means to any third person, and other unauthorized use and/or further disclosure by the recipient, in accordance with the terms and conditions set forth herein;

NOW, THEREFORE, the Parties have agreed as follows:

1. The term “Proprietary Information” shall mean any information or data of whatsoever kind of a confidential or proprietary nature, including but not limited to, commercial information, know how and technical information in the form of designs, drawings, concepts, requirements, specifications, software, interfaces, components, processes, or the like, that have been or will be disclosed by either Party to the other pursuant to this Agreement, either in writing, orally or other form, which is designated as “Proprietary” or “Confidential” by the disclosing Party by means of formal declaration or an appropriate stamp, legend or any other written or orally notice .
2. Proprietary Information may be conveyed, without limitation, through any written or printed documents, samples, models, electronic form on disk, tape, other storage media or any other means of disclosing such Proprietary Information that either Party may elect to use during the life of this Agreement, but if an originating Party originally discloses information orally or visually, the receiving Party will protect such information as Proprietary Information to the extent that the originating Party :
 - identifies the Information as Proprietary at the time of original disclosure,
 - summarizes the Proprietary Information in writing .

Information stored in electronic form on disk, tape, other storage media will be adequately marked if a proprietary legend displays when the information originally runs on a computer system and when the information is printed from its data file.

Proprietary Information also includes any information which can be obtained by examination, testing or analysis of any hardware or material substance or any component part of such hardware or material substance provided by the Disclosing Party even though the requirements in Clause 1 for marking and designation have not been fulfilled.

3. Each Party, to the extent of its rights to do so, shall disclose to the other only the Proprietary Information which the disclosing Party deems appropriate to fulfil the objectives of this Agreement. The Parties hereby represent that the disclosure of Proprietary Information by and between themselves shall be made in compliance with, and subject to the laws and regulations of the Disclosing Party's country.
4. The receiving Party hereby agrees and covenants that, from the effective date of this Agreement until the expiry date as per article 11 and the following period as per article 12, the Proprietary Information that either Party receives from the other shall:
 - a) be protected and kept in strict confidence by the receiving Party which must use the same degree of care it uses to protect its own confidential information and in no case less than a reasonable care;
 - b) be only disclosed to and used by those persons within the receiving Party's organization or that of its parent or controlled companies who have a need to know and solely for the purposes specified in this Agreement, and be treated by such persons or entities with the same degree of care and subject to the same restrictions;
 - c) to procure that each third party to whom Proprietary Information is disclosed under this Agreement is made aware of the provisions of this Agreement prior to such disclosure to it and that each such third party is

bound by obligations of confidentiality which are no less onerous than those contained in this Agreement;

- d) neither be disclosed nor caused to be disclosed or made available, either directly or indirectly, to any third Party or persons other than those mentioned in subparagraph b) above or other persons upon which both of the contractual Parties shall agree in an amendment to this Agreement;
- e) not to copy, reproduce or reduce to writing any part of such Proprietary Information except as may be reasonably necessary for the purpose referred to in the Recitals of this Agreement

PROVIDED THAT the Receiving Party shall be entitled to make any disclosure required by court order or government or regulatory requirement of the Disclosing Party's Proprietary Information subject to notifying the Disclosing Party as soon as possible of such requirement

- 5. Any Proprietary Information and copies thereof disclosed by either Party to the other shall remain the property of the disclosing Party and shall be immediately returned or destroyed by the receiving Party upon request.
- 6. The receiving Party shall have no obligations or restrictions with respect to any Proprietary Information for which the receiving Party can prove that:
 - a) is in or which comes into the public domain otherwise than as a result of a breach of this Agreement by any person to whom a disclosure of Proprietary Information is made as permitted under this Agreement or of any other duty of confidentiality relating to the Proprietary Information of which the Receiving Party has knowledge; or
 - b) it has been in its possession without restriction at the time of the disclosure, as evidenced by written documentation in its files; or
 - c) it has been lawfully received from a third Party without breach of this Agreement; or

- d) it has been or is published without violation of this Agreement; or
 - e) it has been independently developed in good faith by employees of the receiving Party who did not have access to the Proprietary Information; or
 - f) it has not been properly declared, designated or confirmed as Proprietary or Confidential; or
 - g) the protection period has expired according to articles 11 and 12 of this Agreement.
7. With respect to any exchange of Proprietary Information which may occur as a result of this Agreement, it is expressly understood and agreed that the persons listed in Exhibit 2 shall, on behalf of the respective Parties, be the exclusive individuals authorized to receive from and transmit to the other Party Proprietary Information under this Agreement. Each Party may replace at any time its respective authorized individuals identified in such Exhibit 2, within its own organization. Any such new designation by a Party shall be made by written notice to the other at the address indicated in such Exhibit 2.
8. Any Proprietary Information which is identified as “Classified Information”, or whose export is subject to an export license, shall be identified as such by the disclosing Party at the time of disclosure and the disclosure, protection, use and handling thereof, shall remain subject to the security procedures and restrictions imposed by the disclosing Party's Government.
9. The disclosure of Proprietary Information under this Agreement by either Party to the other shall not be construed as granting to the receiving Party any right, whether express or implied by licence or otherwise, on the matters, inventions or discoveries to which such information pertains, or as granting any trademark, patents, copyrights, trade secret right or other form of intellectual property right.

10. Nothing in this Agreement may be construed as an obligation of either Party to disclose any Proprietary Information to the other, or to enter into any subsequent contractual relationship with such other Party.
11. This Agreement covers the exchange of Proprietary Information which may be made by either Party to the other until ten years from signing of the agreement or any extension thereto which may be agreed upon by the Parties in writing. Proprietary information relevant to the Program detailed in Exhibit 1, already made available to the other contractual Party before the effective date, shall also be protected under this Agreement.

It is understood by the parties that, prior to disclosure, the Disclosing Party shall have obtained any government authorisation needed for the export of the Proprietary Information

12. The expiry of the period contemplated in Article 11 of this Agreement shall not relieve the receiving Party from complying with the obligations imposed by Article 4 here above with respect to the use and protection of the Proprietary Information, received prior the date of such expiry, for a period of ten (10) years after such expiry.
13. The Parties are independent contractors. Each will bear all costs and expenses in connection with this Agreement. This Agreement is intended to facilitate only the exchange of Proprietary Information and is not intended to be, and shall not be construed to create a teaming agreement, joint venture, association, partnership, or other business organisation or agency arrangement and no Party shall have the authority to bind the other without the other Party's separate prior written agreement .
14. This Agreement shall be governed by and shall be interpreted in accordance with the substantive federal laws of Switzerland excluding it's choice of law rules.

Irrespective of the foregoing each Party shall remain bound by the provisions of its own national laws and regulations with respect to the transfer or use of Classified Information or information whose export is subject to an export license.

15. All disputes among the Parties, in connection with or arising out of the existence, validity, construction, performance and termination of this Agreement (or any terms thereof), which the Parties are unable to resolve among themselves, shall be finally settled by an Arbitration. The Arbitration shall be held in Geneva (CH) in English language, in accordance with the rules of the ICC – International Chamber of Commerce by three arbitrators appointed in accordance with said rules.
16. The foregoing constitutes the entire Agreement among the Parties with respect to the subject matter hereof and supersedes and cancels all prior representations, negotiations, commitments, undertakings, communications, either oral or written, acceptances, understandings and agreements among the Parties with respect to or in connection with any of the matters to which such Agreement applies or refers.
