

Lift with Crane Krantransport

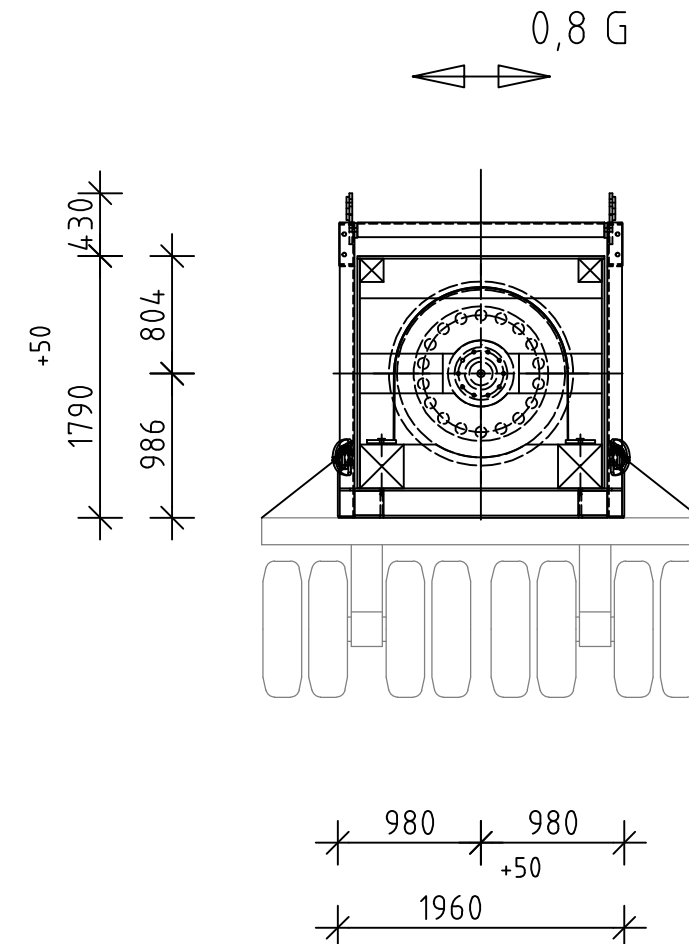

Net Weight : 72,3 Mg
Gross Weight : 78,8 Mg

The dimensions which are mentioned in the drawing are having theoretical character.
The actual dimensions for shipping can vary up to +50mm (height/width) due
to accuracy of packing/load devices.

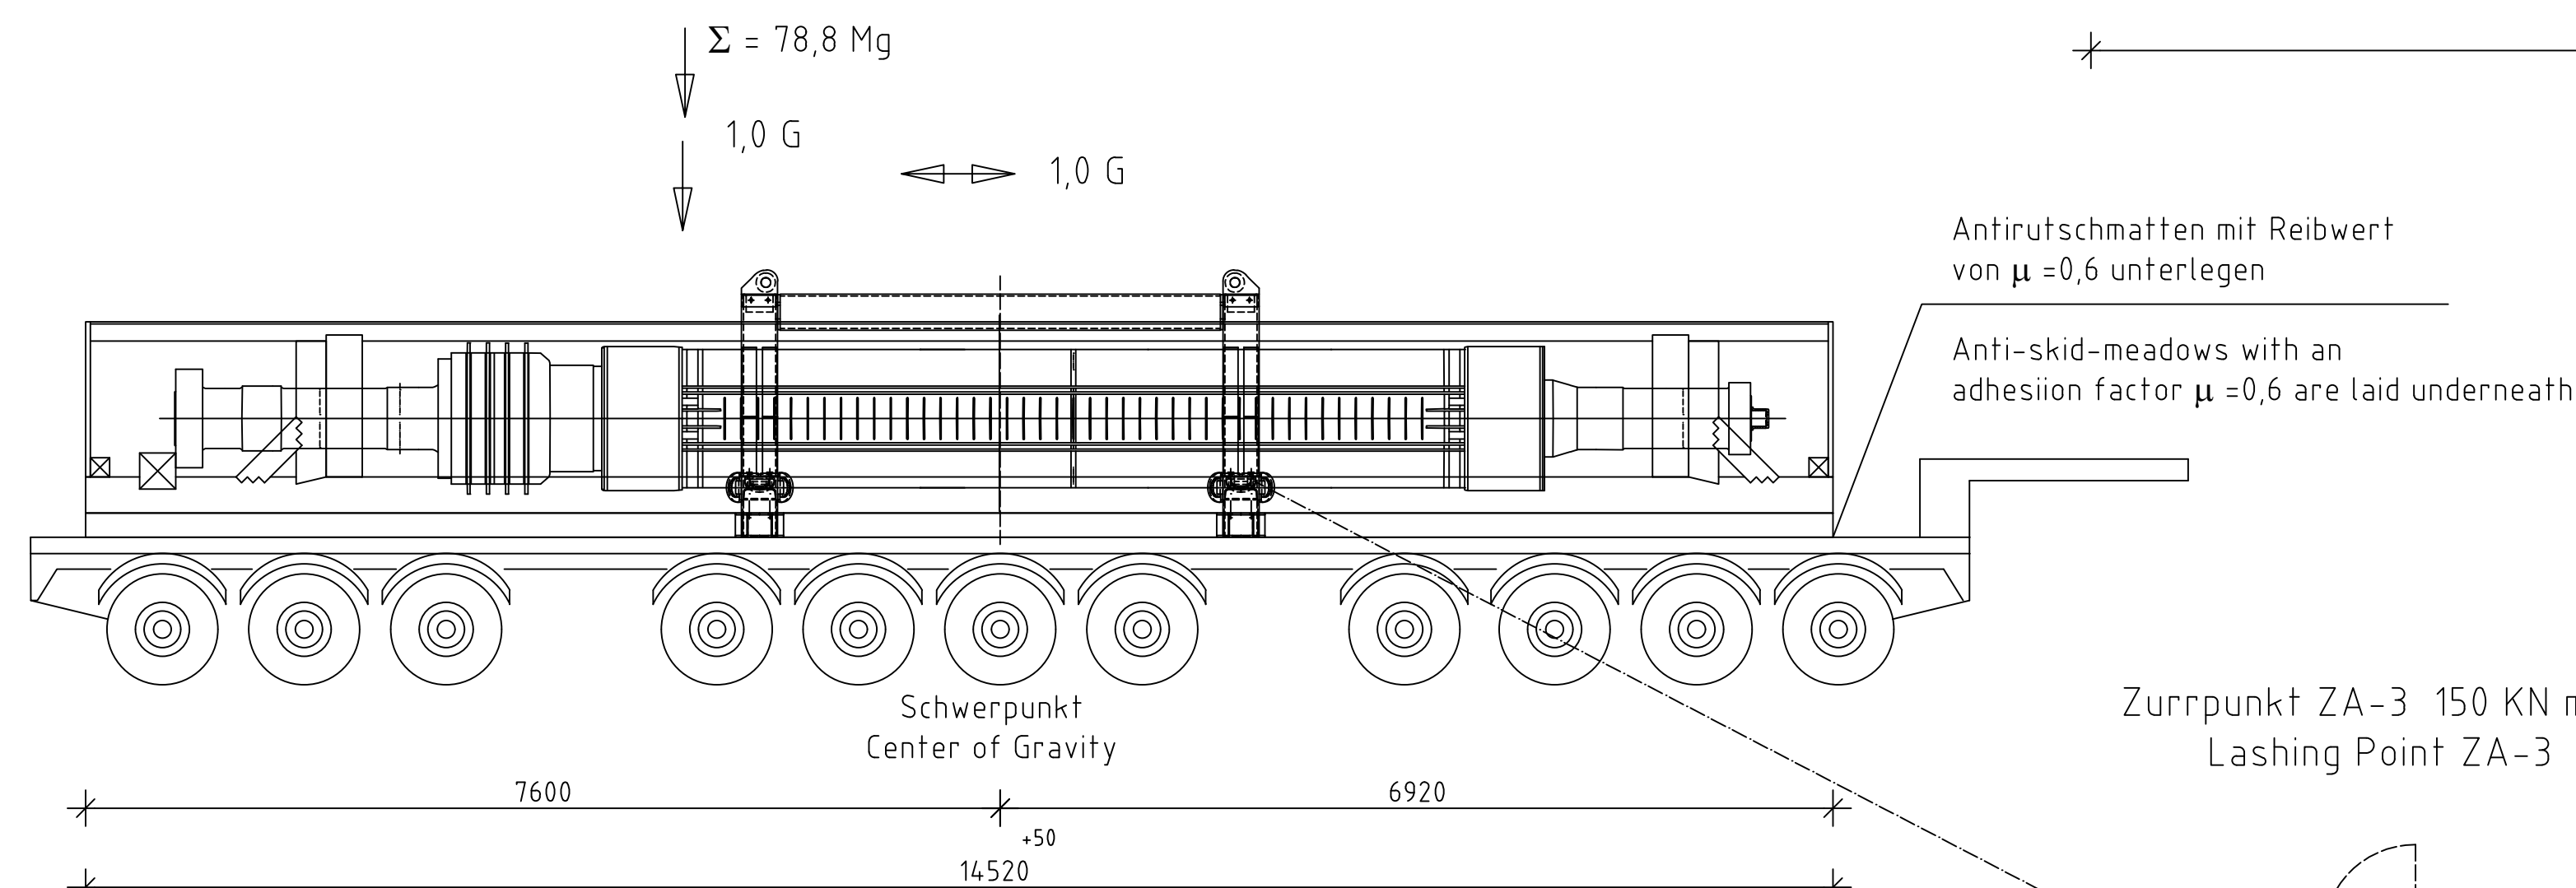

Aussenmaße der Kiste und LKW Transport Outer Dimensions of Box and Truck Transport

Beschleunigungswerte beim Transport mit dem LKW
die bei der Verpackungskonstruktion berücksichtigt sind

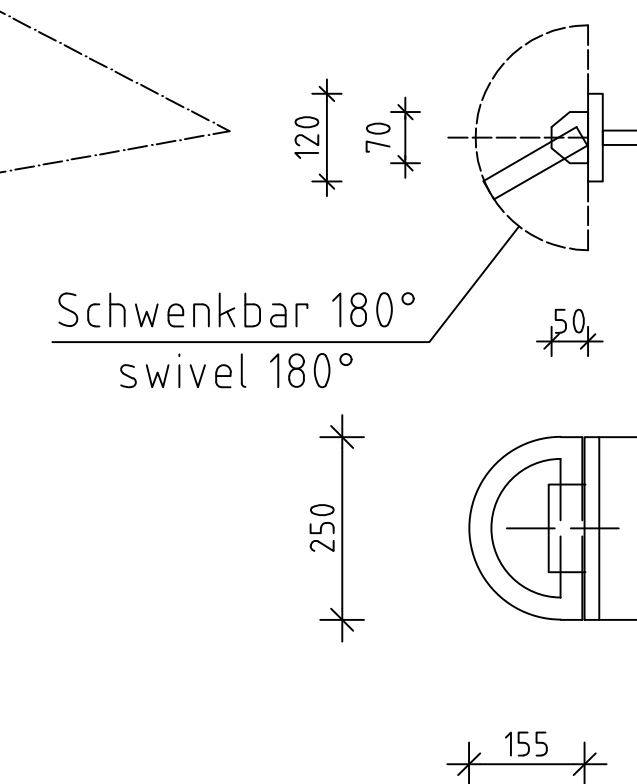

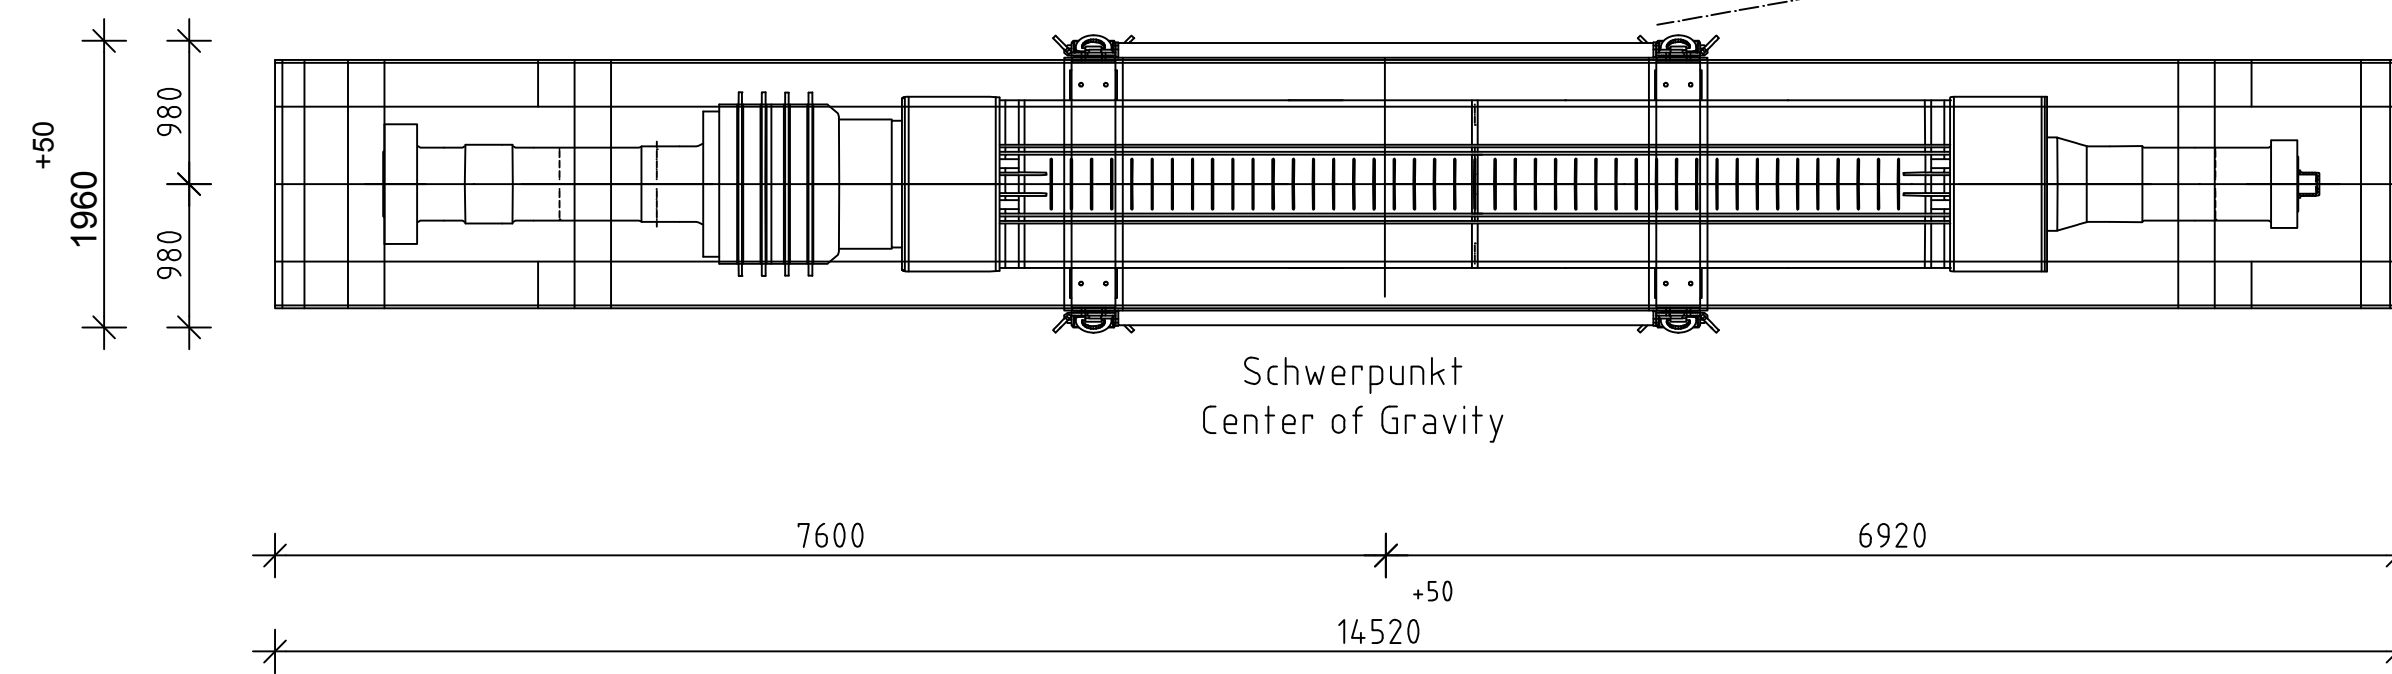

Acceleration values that are consider in the
Transport unit during transportation with truck

1,0 G

Anti-skid-meadows with an adhesion factor $\mu = 0,6$ are laid underneath
