Notice Inviting **EXPRESSION OF INTEREST** for alternate packing material of valves

BHARAT HEAVY ELECTRICALS LIMITED [BHEL] is manufacturing Industrial Valves and other Boiler accessories at its Industrial Valves Plant, Goindwal Sahib unit. The valve size ranges from 2" to 24" at present. Minimum weight is ~25 kgs and maximum weight is ~1600 kgs. Primarily the supply is within India. We are targeting to dispatch about 3500 MT material to various sites within this year. This volume is increasing year by year.

Currently these valves are packed in wooden packing boxes of various sizes. The minimum size is ~ 430 x 370 x 430 mm and maximum size is ~2750 x 1220 x 1525 mm. Drawing is attached for reference of other sizes. The annual procurement of wooden packing boxes would be in the range of ` 250-300 lacs. In our pursuit to use less wood, we are contemplating using alternate methoding of packaging which ultimately should serve all purposes like: strength, durability, protection against environment, economical and reusable if possible.

Interested parties having experience in research; designing and manufacturing of packing boxes or conceptually alike items of Plastics/fibre glass/PVC/Steel/plywood or combinations are invited to contact undersigned for expression of interest. Any relevant information may be asked over written communication to gss@ivp.bhel.in . Visit to plant for discussion is welcomed on any working day from Monday through Saturday between 1000 Hrs to 1530 Hrs.
