

NTPC Technical specification.

PQC shall be as follows:

As per Customer (NTPC) tender:

1.1 Manufacturer of Solar PV floater should have manufactured and supplied Solar PV floaters of minimum capacity of 100kWp at single location. The supplied floating system should have been successfully commissioned.**

Annexure 1 to be filled up.

As per BHEL requirement:

2.1 Vendor should have executed purchase orders of the cumulative value of Rupees three (3) crores in the last 3 years .

For above (Evidence in the form of tax invoice or delivery challans or work completion certificate or relevant documents to be furnished).

BHEL reserves the right to ask any other relevant documents to substantiate the above.

** Vendors who have Joint Ventures (JV), consortium or any other tie up or any other mechanism etc., vendor has to participate in the tender and submit the relevant documents along with the bid. After technical bid opening and during commercial terms evaluation (before price bid opening or Reverse Auction(RA)), BHEL will review and take decision, before accepting or rejecting the offer.

Hence it is mandatory, that vendors should participate in the tender. BHEL will only interact with the vendors, who have participated in the tender. Any commercial or technical deviations accepted by BHEL (before price bid opening or RA) only participated vendors will be considered. BHEL decision is final and binding. Hence please quote.
