Broad Specifications for Hydraulic power pack, cylinders and Hose pipe

(A) Hydraulic Cylinders

- Double acting
- Capacity= 50 Ton
- Stroke Length= 200mm
- Collapsible height= 300-315mm
- Outside diameter of cylinders= 130mm
- Qty= 4 nos.

(B) Power pack

- 4 split flow outlet suitable to operate hydraulic cylinders specified in (A).
- Solenoid controlled valves
- Reservoir size= 40l
- Maximum operating pressure= 700 bar
- Qty= 1no

(C) Hose Pipe with Couplers

- Suitable for connecting power pack(B) and Hydraulic Cylinder (A)
- Safety factor= 4:1
- Maximum working pressure= 700 bar
- Outer jacket should be abrasion resistant
- Length of Hose pipe= 9.0 M
- Qty= 8 Nos
