Sheet 1 of 1

HOSIERY COTTON CLOTH WASTE

- 1.0 General:** This specification governs the quality of Hosiery cotton cloths waste.
- 2.0 Application:** Used as wipes for cleaning of machines and components, wiping of oil and grease etc.
- 3.0 Technical Requirements:**
a) The cloth should contain more than 90% cotton.
b) The cloth should have 100% absorption capacity of water, oil etc.
- 4.0 Size, Shape and Color:** The cloth cut pieces to be supplied with average area of 1 sq. feet, and of any shape and color. The small pieces stitched together (with good quality stitching) meeting this specification is also acceptable.
- 5.0 Samples:** Sample shall be supplied along with technical offer for approval.
- 6.0 Packing:** To be packed and supplied in bale form of 45-50 kg weight, packed suitably to avoid ingress of moisture during transit and storage.
- 7.0 Inspection:** Inspection will be carried out at BHEL works with reference to the accepted samples.
