2.1 Quoting the lowest best rate is a must against this Tender. However, Transporters are required to understand that the lowest rate offered by them or accepted by them, as the case may be, should be honored throughout the tenure of the Contract. During the tenure of the Contract, if any such Transporter who have quoted/accepted the lowest rate, do not place the vehicle as per BHEL's requirements or shun away from doing business with BHEL on some pretext or other, and on whatsoever may be the reason, will be considered as a defaulter and that will purport to sabotaging the total Tendering process of BHEL. Hence BHEL will exercise their right in taking severe action under Contractual obligations including legal action against those Transporters.

3. METHOD OF EVALUATION OF PRICES

3.1 Price Bid Opening

3.1.1 BHEL will finalize the rates through paper price bid opening. Hence Tenderers are requested to give their best prices at the first instance itself.

3.1.2 BHEL would negotiate or re-float the Tender opened if L1 price is not the lowest acceptable price to them inter-alia other reasons.

3.1.3 Lowest prices received against BHEL Tenders need not be acceptable price to BHEL and in that case BHEL would not to consider the same for award of Contract, despite the price being L1 in the Tender.

3.1.4 In the event of the final L1 prices are not reasonable / acceptable to BHEL; BHEL also may resort to short closure of this Tender

3.2 Ranking

3.2.1.1 Individual rate schedule wise ranking of Carriers will be done.

3.2.1.2 The basic rates i.e. rates for freight including all taxes, duties, charges, costs, incidentals etc., exclusive of **GST** will be the basis for deciding the rank of the Bidder in the Rate schedules.

3.2.1.3 The lowest rate quoted by the Bidder will be identified as L1 Bidder and so on.

3.2.1.4 In case identical rates are quoted by more than one Bidder for a particular rate schedule, then the selection of L1 Bidder / Counter offer Ranking, for that rate schedule, will be on the basis of seniority of their registration with IBA i.e. senior will be given preference first and ranking will be decided accordingly.

4. COUNTER OFFER

- 4.1 **BHEL requires two carriers for award of contract.**
- 4.2 Hence BHEL will counter offer the L1 Rate / Negotiated final L1 rate / lowest acceptable price to BHEL, if required, to the L2, L3, ... Ln carriers till the required carriers accepts the counter offer for award of Contract.
- 4.3 H20% of the Bidders for each rate schedule will not be considered for counter offer for the respective rate schedule. The fractional advantage to be given to the bidders i.e. for example, if elimination is 10.9 bidders, then only 10 bidders will be eliminated.

5. LOAD DISTRIBUTION

- 5.1 BHEL will allot the load through BHEL's VIS (Vendor Information System) Demand System, Individual rate schedule wise, based on the price bid ranking of the Carriers
- 5.2 Against a particular demand, if the original allottee is not placing vehicle within the stipulated time, then the same demand will be displayed as "Open Demand" to all the Carriers available in that consignment category, including the original allottee (duly recovering the non-placement penalty). For such open demands, allocation will be made on first come first served basis. If the original allottee lifts the same consignment in Open Demand then delay penalty charges is applicable and non-placement penalty will be waived.
- 5.3 **The L1 Bidder of each rate schedule will be given Five demands in each turn (demand cycle), L2 Bidder will be given Three demands in each turn, L3 Bidder will be given Two demands in each turn, whereas others will get one demand in each turn (demand cycle).**
- 5.4 To avoid Risk Purchase operation, the minimum number of vehicle that must be placed by a carrier for category-3 is **5 vehicles per month**, if demanded. **If the L1, L2 & L3 bidders have not placed the additional loads, NON-PLACEMENT PENALTY WILL BE LEVIED FOR ALL THE DEMANDS. HENCE KEEPING THIS IN MIND THE CARRIERS ARE REQUESTED TO QUOTE ACCORDINGLY.** However RP is not applicable for the additional loads to L1, L2, & L3 bidders.
- 5.5 However it may be noted that these additional Four demands for L1, Two demands for L2 & One demand for L3, will not be given at the same instance, but with a turn (within the demand cycle) suitably spaced & given to facilitate vehicle placement. The VIS will be suitably made for this purpose. It may be noted that if the additional demands given to L1, L2 & L3 as above are not lifted by them within the time limit given in System, those demands will be automatically goes to "Open Demand" and defaulted L1, L2 & L3 carriers cannot demand these additional loads at any point of time of the demand cycle or beyond.
